

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

#### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + Refrain from automated querying Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

#### **About Google Book Search**

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at http://books.google.com/

Mail Service between United Kingdom and Australia.—The P. & O. Company, in 1851, established a direct mail service between the United Kingdom and Australia, and has, with few interruptions, regularly continued the service ever since. In 1959 mail communication with Europe via San Francisco was established. In March, 1878, a further expansion of the usail service between the colonies and the United Kingdom took place by the despatch from London of the pioneer stance of the Orient Company. During 1880, the British India Company's steamers commenced running between Queensland and the United Kingdom, via Torres Straits. In 1893 another line of communication with the United Kingdom was imagurated by the Canadian-Australian line of steamers running to Vancouver, British Columbia.

Direct Communication with France, Belgium, and Germany.—Communication was established between France and the Colonies in 1838 by the mail-steamers of the Messagories Maritimes Company. In 1887 the Norddeutscher Lloyd line of mail steamers commenced running between Germany, Italy, and Australia; and in the latter part of 1888 the German-Australian line of cargo-steamers opened up further communication with the wool-exporting cities of Australia and the ports of Antwerp and Hamburg. In addition to these, several lines of steam and salling vessels, under the British flux, run direct to Dunkirk and Antwerp, notably the "Gulf," "Lund," "Port," and "White Star" lines. Large cargoes are also sent away by "ocean tramps," chiefly British, which make occasional visits to Australian ports.

# No. 13.—DIRECTION OF TONNAGE.—Vessels ENTERED under British and Foreign Flags at EACH PORT, 1894.

Murray River.—Considerable numbers of vessels are engaged on this river. Commencing at Albury, situated at the practical head of navigation, the stations, in topographical order westward, are:—Howlong, Corowa, Mulwala, Cobram, Tocumwal, Moama, Swan Hill, Euston, and Wentworth. With the exceptions of Euston and Wentworth, the trade at these stations is carried on exclusively with Victoria. From Albury to the South Australian Border the length of the Murray River is 1,100 miles. Wentworth (N.S.W.), the chief station for traffic by water, is situated at the confluence of the Murray and Darling Rivers. At Albury, Howlong, Corowa, Mulwala, and Moama, bridges connect the vatations with Victoria. There are bridges at Tintaldra and Jingellic; others are in course of construction at Hawk's View and Tocumwal. At crossing places where no Customs officers are stationed the Police collect the Customs Revenue and forward the returns to the nearest Custom House. No "clearances" are recorded at Moama, as all vessels "entered" at this station are "cleared" either at Swan Hill, Euston or Wentworth. For trade returns of Murray River stations, see Table No. 2, Part II, "Commerce."

Tonnage Averages.—The tonnage averages were obtained on the net registered tonnage of steam and sailing vessels, the tonnage of foreign vessels being reduced to British measurement.

#### No. 17,-NATIONAL SHIPWRECK RELIEF SOCIETY OF N.S.W.

National Shipwreck Relief Society. Objects of the Society.—To afford relief in cases of distress to Widows, Orphans, and Aged Parents, or others dependent upon Seamen belonging to New South Wales, or to Vessels owned In New South Wales, who have lost their lives, or have been seriously injured in the performance of their duty; to relieve crews of vessels and necessitous passengers wrecked in or near New South Wales waters; and to grant the Society's Medals or rewards to persons performing acts of bravery in the saving of human life.

#### No. 18.—Vessels EXAMINED under the provisions of the QUARANTINE ACTS, 1893-4.

Quarantine.—The Board of Health, which at present consists of eleven members, has entire control of all matters appertaining to health and quarantine. By the provisions of the quarantine Law Amendment Act of 1894 (68 Vic. No. 2) the quarantine Acts, which were only applicable to Port Jackson, are extended to all other ports of New South Wales. In the quarantine Acts, which were only applicable to Colombo were rescinded. Proclamations under the Quarantine Acts were in force against vessels arriving from China and Hong Kong, and the East Coast of South America, but none were issued. There is only one quarantine station, which is situated at North Head, Port Jackson, and is considered one of the most completely equipped stations in the world. Separate quarantine stations have been established for foreign live stock at Bradley's Head and Shark Island, Port Jackson, and also at Newcastle, there is in addition one for intercolonial stock at Randwick. The quarantine laws relating to live stock are administered by the Department of Mines and Agriculture.

Vessels "Cleared" under Imperial Passengers' Acts.—The number of vessels cleared by the Board of Health under this Act during 1894 was 97.

Bills of Health. - The number of Bills of Health issued to outward-bound vessels during 1834 at Sydney was 786, and at Newcastle 263, making a total of 1,049.

Imperial Passengers' Acts (18 & 19 Vic., Cap. 119, and 26 & 27 Vic., Cap. 51). - The Board of Health is solely responsible for the carrying out of the Imperial Passengers' Acts, the provisions of which apply to vessels carrying more than 50 passengers on voyages over 400 miles from any port within the British Empire. Until recently the proclamation of 1856 was in force, which defined the duration of voyage, dictary scale, &c. This has now been superseded by one made in 1894, which has been drafted more in accordance with the present conditions of shipping.

Pees.—The fees for each inspection under the Imperial Passengers Acts are £2 2s. for the Marine Surveyor, and £1 1s. for the Medical Inspector. These fees are collected by the Board of Health and paid to the officers named.

#### No. 19.—GOVERNMENT SHIPPING OFFICES—Sydney and Newcastle.

Act relating to Merchant Seamen.—The Seamen's Laws Consolidation Act of 1864 (27 Vic. No. 13) applies only to vessels registered in the Colony; British vessels registered elsewhere arriving in New South Wales are subject to the Imperial Merchant Shipping Act of 1854 (17 and 18 Vic., cap. 104). Shipping Offices are established at Sydney and Newcastle, the tasiness at the other ports being undertaken by the local Customs Officers. The Seamen's Laws Consolidation Act (27 Vic. No. 13) provides for the engaging and discharging of seamen, and for the enforcement of various penalties for breaches of the Act. It defines the mode of procedure between master and seamen as regards wages and provisions, and requires the shipping bounds of the control of the Consuls representing the countries to which the vessels belong.

#### No. 21.—Vessels SOLD in New South Wales during 1894.

Sales, Mortgages, &c., of Vessels.—All vessels registered under the Imperial Merchant Shipping Act, 1851 (17 and 13 Vic. No. 104), may be sold or mortgaged or otherwise dealt with.

All legal transactions with respect to Shipping must be registered at Shipping Registry Offices, where all the necessary forms are obtainable free of charge. The Return given below includes information from the offices of the Registrar of Shipping, Sydney and Newcastle; the Records of these two offices, which contain complete information for New South Wales, may be searched without fee.

28 PART I.

#### No. 23.—LIGHTS and LIGHTHOUSES on the Coast of New South Wales, 1894.

(From South to North.)

The Marine Board of New South Wales was incorporated under the Navigation Act of 1871 (35 Vic. No. 7). Amending Acts, however, have been attached since that date. The Board consists of seven Wardens, four of whom, including the President, are appointed by the Government, and three are elected by the registered owners of shipping of not less than 100 tons. For the position of an elective Warden it is necessary to possess the qualification of being a registered owner of not less than 250 tons of shipping. The elections take place triennially, the first one held being in 1872. Provision has been made for the creation of local Marine Boards under the superintendence of the Marine Board of New South Wales, one of these Boards has been established for Newcastle, but the Marine Board of New South Wales has direct control wherever local Trusts are not in existence.

Jurisdiction.—The Board, in shipping transactions of a general nature, acts in conjunction with the London Roard of Trade, and has jurisdiction over all British ships, as defined in the Imperial Merchant Shipping Act of 1854 (17 and 18 Vic., cap. 104). It supervises all matters relating to steam navigation, and transactions in connection with the issue, suspension or cancellation of certificates of competency and service, the framing of harbour regulations, the preservation of porta, harbours, rivers, &c., the licensing, appointment, and removal of pilots, the regulation of lighthouses, lights, and river-marks, moorings, licenses to lighters, waterman's, steam ferry, and other boats, harbour and river steamers, &c.

Wollongong Harbour Trust.—Under the authority of the Wollongong Harbour Trust Act, 1889 (53 Vic. No. 19), the full management and control of the port of Wollongong have been vested in twelve Commissioners, who act independently of any other body. For particulars of this Trust see part "Local Government," page 845.

<sup>•</sup> Showing red inside and eclipse over Mermaid Reef. † Subsidiary red over Fish Rock.

Maintenance, Lights and Lighthouses on Coast of New South Wales.—The total amount paid for Salaries during 1894 was £12,745; for Repairs and Stores, £1,069; or a total of £13,814 for maintenance.

Lighthouses of other Colonies Subsidised.—Up to the year 1892 an annual amount was paid by the New South Wales Government towards the maintenance of lighthouses at Wilson's Promontory and Gabo Island, Victoria, but this subsidy has now been discontinued. During 1893 New South Wales contributed £533 towards the maintenance of lighthouses at King's Island and the Kent Group of Islands, the control of which is under the Government of Tasmania. In 1895 the subsidy of £519 was paid for the service of year 1894, and during November, 1895, a sum of £232 was granted for the first six months of that year.

Life-boats and Life-saving Appliances.—There are only two Life-boats proper on the coast of New South Wales, one being at Sydney and the other at Newcastle. The steam tugs subsidised by the Marine Board at the ports and rivers (see Table No. 27) are, however, available for the purpose of giving assistance to vessels in distress; and there is a Government pilot steamer at Sydney, in addition to which all the whaleboats at the various pilot-stations are fitted with cork linings, &c., and have rendered excellent service in saving life. Life-saving appliances are also kept at Richmond River, Clarence Biver, Macleay River, Trial Bay, Port Macquarie, Manning River, Newcastle, Sydney, Wollongong, Kiama, Shoalhaven, and Twofold Bay.

# No. 24.—WRECKS and DISASTERS to Shipping within the Jurisdiction of New South Wales, 1894.

Inquiries by Marine Board.—In addition to the casualties to shipping shown below, there was one vessel—the Woolton—lost at sea. During 1894 twenty-eight Inquiries were held, of which twenty were heard by the Marine Board at Sydney, and eight by the local Marine Board at Newcastle. Fourteen masters were examined for loss of vessels, eleven of whom were exonerated, two had their certificates suspended for three and six months respectively, and one master was censured. During the same period five Inquiries relating to collisions were held. Three masters (two at one inquiry) were reprimanded, one suspended, and two exonerated. Four inquiries were held into the grounding of vessels, all of the masters of which were exonerated. One inquiry was held into the burning of a steamer's boiler. The engineer's certificate was suspended for three months.

#### No. 21.—Vessels SOLD in New South Wales during 1894.

Sales, Mortgages, &c., of Vessels.—All vessels registered under the Imperial Merchant Shipping Act, 1851 (17 and 13 Vic. No. 104), may be sold or mortgaged or otherwise dealt with.

All legal transactions with respect to Shipping must be registered at Shipping Registry Offices, where all the necessary forms are obtainable free of charge. The Return given below includes information from the offices of the Registrar of Shipping, Sydney and Newcastle; the Records of these two offices, which contain complete information for New South Wales, may be searched without fee.

PART I. 30

#### No. 25.—CERTIFICATES OF COMPETENCY GRANTED by the Marine Board of New South Wales 1893-4.

	Nature of Certificate.	1893.	1804.	Nature of Certificat	ė.	1	1893.	1894.
Master	Foreign	8 5 17	12 5 28	Engineer 2nd Class	••	::	8 7 86	8 7 36
Mate	Foreign Service (1st Mate Only Mate 2nd Mate	11 1 10	11 2 8	Marine Surveyor			4	
	(Coast Trade	A	4	Pilotage			87	95

Master. To obtain a master's Foreign going certificate, it is necessary that the candidate should be at least 21 years of age, and have served six years at sea. For the coast trade the minimum age is 20 years, and the service at sea four years, one year of which must have been as mate.

one year of which must have been as mate.

Mate.—To obtain a mate's Foreign-going certificate a first mate must be at least 10 years of age, and have served five years at sea, one year of which must have been as second mate. For position of "only" mate the candidate must be at least 19 years of age, and have served five years at sea. For second mate the minimum age is fixed at 17 years, and the service at sea four years. For the coast trade a mate must be at least 19 years of age, and have served three years at sea.

Engineer.—A candidate for a first-class certificate of competency or service must be at least 22 years of age, and for the second and third-class certificates the minimum age is fixed at 21 years.

Marine Surveyor.—Certificates of Competency are issued to those who can pass, or have passed, the examinations necessary for an extra first-class engineer's certificate, or to master mariners who have been in command of foreign-going ships for not less than five years, or these who are in possession of extra master's certificates. Certificates of Service are issued to persons who have served as Marine Surveyors in any part of New South Wales for three years prior to 1881.

Pilot.—Appointments to the Pilot service are made by the Marine Board, and all pilots are Government officers. At Sydney there is a Government pilot steamer and five pilots, six pilots are stationed at Newcastle, and fourteen are in charge of the various out-stations.

Pilotage.—Certificates may be granted to masters of both Beltich and Foreign ships on searches.

Pilotage.—Certificates may be granted to masters of both British and Foreign ships on passing the necessary examination, provided they have been three times in and out of port with their vessels as masters or watch-keeping officers.

Pilot Dues.—Captains of vessels of any nationality who have obtained exemption certificates are not liable for pilot due

Examinations by Marine Board.—Complete information relating to examinations for certificates is given in a

handbook issued by the Marine Board.

Port Jackson.—Laws and regulations to be observed in the harbour of Port Jackson may be found in a handbook issued by the Marine Board.

#### No. 26.—WATERMEN LICENSED by the Marine Board of N.S.W., 1890-4.

Port or Station.		1890.	1891.	1892.	1893.	1894.	Port or Station.	1890.	1891.	1892.	1893.	1894.

Hawkesbury River		9	9	9	9	9			7		555	

Waterman's License.—A fee of 10s. is charged, which entitles the holder to ply for hire for an indefinite period, subject to good character. During 1894 fifteen licenses were issued. The above figures show the total number of licenses issued to the end of each year, and do not of necessity represent the number of watermen plying for hire.

Fisherman's License.—The annual fee for a fisherman's license is 10s. These licenses and those for fishing boats are issued by the Fisheries Commissioners. For further particulars see Part V, page 527.

#### No. 27.—TUG SERVICE.—Tugs subsidised by the Marine Board of New South Wales, 1894.

Subsidised Steam Tug Service. - The Marine Board of New South Wales subsidise tugs at the places mentioned in the following table for the purpose of towing vessels in and out of port or river. The tugs are not allowed to leave the station without the sanction of the Board, and the master must endeavour to be in the vicinity of the station when vessels are ready for sea, and in cases where vessels are in actual danger he must promptly render assistance. The maximum rate for ordinary towing is fixed at 4d. per registered ton with a minimum of £1 10s. Disputes arising with respect to special service; must be settled by arbitration. The masters of tugs are required to take pilots off to vessels signalling for services of a pilot. The sum of £7,225 was paid by the Marine Board as Government subsidy during the year 1834.

Harbour of Wollongong Tug Service.—The Wollongong Harbour Trust Commissioners have a tug of 43 tons subsidised for the purpose of towing vessels in and out of the port, and during the year 1894 paid £500 as subsidy for the tug service. The towing rates are similar to those of the Government subsidised steam tugs.

Private Tng Service.—The nominal tariff for towing in and out of port is 8d. per register ton; but this rate, owing to competition, especially in fine weather, is very often lowered, and consequently no fixed rate can be quoted, the matter of payment for towing resting entirely with the parties interested.

#### No. 31.—REVENUE of MARINE BOARD of New South Wales, 1894.

Pilotage Rates.—Ships of war, cable-laying vessels, whalers, and pleasure yachts are exempt from pilotage that and vessels in distress are charged half-rates. A minimum pilotage charge of £2 los, is made upon arrival and also on departure of vessels not exempt at the ports of Sydney and Newcastle, and £1 5s. at other coastal ports, for made is charged on shipping over these limits. The amount collected during 1894 for pilotage was £31,402.

Removal Dies.—Whenever the master of any ship shall be desirous of removing from one place of mooring or melorage in a port to another, the Harbour-master must be notified and permission obtained for such removal. If the larbour-master certain fees, ranging from £1 for any ship not exceeding 300 tons to £3 for those exceeding 1801 tons, are charged. The amount collected and paid in o the Treasury during 1894 as removal dues was £4,836.

Earbour and Light Rates.—Every registered vessel is subject to a half-yearly rate of 4d, per ton on the set tessels. The subject to a half-yearly rate of 4d, per ton on the set tessels. The subject to a half-yearly rate of 4d, per ton on the set tessels. The subject to a half-yearly rate of 4d, per ton on the set tessels. The subject to a half-yearly rate of 4d, per ton on the set tessels. The subject to the properties of the properties

Imperial Passenger Acts, was £1,761.

Revenue for all Ports.—The amount collected for all ports during 1894 was:—Pilotage, £31,402; Removal & £4,503; Harbour and Light Rates, £21,212; and Fees, £1,761. Total Revenue, £59,211.

The Revenue of the Marine Board, with the exception of Fees, is, under the authority of the Navigation Act, paid

h the Collector of Custon

# No. 32.—DREDGE SERVICE.—Work performed and Expenditure for the year 1894.

Dredge Service.—All dredges are owned by the State, and the Dredge Service of New South Wales is administered by the Public Works Department.

# No. 86.—WHARFAGE ACCOMMODATION, 1894.—Wharfs used for Loading and Unloading Goods.

Wharfage and Tonnage Rates.—Under the provisions of the Wharfage and Tonnage Act of 1880 (44 Vic. No. 8) rates of this character are imposed on all vessels berthing at public or sufferance wharfs. A common tariff and scale of charges have been adopted. Pamphlets giving wharfage and tonnage rates are obtainable at the Government Printing Office.

Townage Rates.—Tonnage Rates of one farthing per registered ton per diem are levied on all vessels fully laden, and one halfpenny on those partly laden discharging at the warfs; vessels loading of 240 tons register and above are subject to rate of one halfpenny per diem; under this limit a fixed rate is imposed. For steamers the rates are levied on the gross somage measurement. During a certain period, known as "Free Lay Days," vessels fully laden discharging are exempt from townage rates. The number of "Free Lay Days" is regulated by the tonnage of the vessel. The rents received from Government wharfs, leased to private companies, are accepted in lieu of tonnage rates.

Wharfage Bates.—In addition to these charges, all goods landed are subject to "Inward Wharfage Rates," and goods shipped to "Outward Rates," the latter being one-half the former. Goods arriving from Australasian Colonies or Pacific Islands landed at public wharfs and "Entered" for Transhipment are exempt from wharfage rates. In some cases the Government wharfs are leased to private companies, and the rent of the wharf is accepted in lieu of tonnage rates, but wharfage rates are collected, as in the case of ordinary wharfs.

Revenue of Public Wharfs.—Sydney.—The total revenue collected for public wharfs during 1894 at the port of Sydney was £48,568, of which £24,199 were wharfage rates, £5,673 tonnage dues, and £18,726 rent, &c. Neucastle.—At the port of Newcastle no wharfage rates are imposed; the tonnage rates collected at this port during 1994 amounted to £8,334, which, added to the total collections for the port of Sydney, gives a revenue for public wharfs of £56,932.

Tides.—Port Jackson.—The self-recording tide-gauge, situated at Fort Denison, was set up in 1871, since which time there has been a continuous record of tides. The average rise and fall of the ordinary tides is 3 feet 4 inches; but the spring tides awage a rise of 5 feet 8 inches. Newcastle.—The tide-gauge is situated at the pilot's house, Newcastle. The average time and fall of the ordinary tides is 3 feet 3 inches; but the spring tides average a rise of 5 feet 9 inches.

Wharfage Accommodation, Newcastle.—In addition to cranes and shoots enumerated above, and the shoots belonging to the A.A. Co., the following facilities for shipping coal at Newcastle are in operation, viz.:—2 shoots belonging to the Waratah Coal Co., and 2 shoots at Hexham (Brown's Private). The estimated capabilities of all cranes and shoots are as follow:—Hydraulic cranes 20,000 tons per day, and private shoots 3,200 tons per day.

"Sufferance Wharf."—Any private wharf for which permission has been granted by the Collector of Customs for the landing of goods subject to the payment of Customs duties, in pursuance of the Customs Regulation Act (42 Vic. No. 19), is denominated a "Sufferance Wharf." A vessel may discharge dutiable goods at a wharf other than a public (Government) or a private sufferance wharf, provided that a special permit has been obtained from the Collector of Customs, and the duties on the goods paid in addition to the expenses of a special Customs superintending officer. The regulations with respect to vessels discharging into lighters are of a similar character, which, however, the extra provision that the carge received into the lighters must be landed at a public or private sufferance wharf.

This Table ends on page 39.

Wharfage Accommodation.—The above return contains a comprehensive list of wharfs, but at a few ports although all necessary accommodation exists information was not obtainable.

Depth of Water at Wharfs.—The depth of water given at a few of the wharfs at low tide is less than that stated at the draft of a vessel that can be taken at each jetty. The apparent inaccuracy is accounted for by the fact that owing to the soft nature of the bed a vessel may without danger be moored at hirth-tide and allowed to settle in the silt as the tide accedes, but it is customary to load and unload when the tides are favourable.

Wollongong Harbour Wharfs.—In accordance with Act 53 Vic., No. 8, all matters in connection with the harbour of Wollongong, including wharfs,—In accordance with Act 53 Vic., No. 8 when the wollongong Harbour Trust Commissioners. Provision has been made at the Belmore Basin, Wollongong, for practically unlimited wharfage accommodation for the brithing of vessels.

berthing of vessels.

Wharf Association.—The Wharf Association, Sydney, is composed chiefly of the private owner nuth of Dalgety's new wharf. The officers of the association allot berths to vessels, and take over the off the wharfs of the members.

#### No. 37.—DOCK ACCOMMODATION—SYDNEY AND NEWCASTLE— 1894.

Government Docks—Regulations.—The regulations with reference to the Sutherland and Fitzroy Dry Docks, Sydney, ate that all vessels belonging to Her Majesty's Navy, the Colonial Government, and war vessels of other nations will be admitted to repair in the Government Docks, Sydney Harbour, free of any dock dues or rates, but they will be required to repay all actual expenditure of stores, wages, and material. All other vessels up to 4,000 tons gross register will be admitted on payment of sixpence per ton for the first day or part of a day, and fourpence per ton per day or part of a day afterwards, subject, however, to a minimum charge of twenty pounds for the first day and fifteen pounds per day afterwards. The dock dues for larger vessels are:—

Per ton, first day or part of a day-					Per ton second day, and each succeeding day or part	
				d.	of, a day— d.	
4,000 tons and under		••	• •	6	4,000 tons and under 4

Government Docks.—Vessels Docked.—During 1894, 40 vessels were docked at the Sutherland Dock, and 72 at the Fitzroy Dock, making a total of 112, of which 10 were British ships of war. The gross tonnage of these vessels was 69,369.

Receipts and Expenditure.—The receipts during 1894 amounted to £3,727, and the expenditure to £3,207, the latter being exclusive of interest on capital expenditure.

# PART II.—COMMERCE.

The Collector of Customs has authority under various Acts to administer affairs relating to Customs; the body of the law, however, is contained in the "Customs Regulation Act of 1879" (42 Vic. No. 19) and the "Customs Duties Act of 1871" (35 Vic. No. 16). Under the provisions of the first-mentioned Act a Board of Commissioners of Customs is established, which consists of there persons. The functions of the Board are to hear and determine disputes between officers of the Customs and the general public in matters relating to the Department. The decisions, are, however, subject to disallowance by the Governor and the rulings of the Supreme Court and Privy Council. In the exercise of their duties the Commissioners have power to frame rules, orders, and ferms for the general conduct of business in relation to matters submitted to them, but have no administrative powers whatever in the working of the Customs Department.

Regulations for Commerce.—The "Customs Handbook, 1898," published at the Government Printing Office, contains all particulars relating to Regulations for Shipping and Commerce.

British and Foreign Transit Trade.—The trade of New South Wales shown with certain countries, particularly the United Kingdom, Belgium, France, Germany, Italy, Austria, and China, cannot be taken as a complete statement of the commerce between those countries and New South Wales, as the outward trade of the five first mentioned countries is swollen by goods sent from other European countries for shipment at British, Belgian, French, German, and Italian ports. Goods forwarded to New South Wales from China are in several instances sent via Hong Kong, and are credited to this British Possession.

The Customs Returns show the quantities and values of goods from the original port of shipment only, and not from the country of production or manufacture. Where transhipments have taken place, care is taken to trace the original port of shipment.

No. 1.—IMPORTS and EXPORTS (Seaward and Overland) of New South Wales, from and to EACH COUNTRY, 1894.

Coin and Gold Bullion Overland.—The value of the Coin and Gold Bullion imported and exported durir the year 1894, Overland, was £78,381 and £43,446 respectively.

For further particulars see pages 250 and 256.

# No. 3.—GENERAL IMPORTS (Seaward and Overland) of New South Wales during 1894.

Callection of Trade Returns.—The quantities and values of the imports and exports are in nearly every instance those furnished by importers and exporters or their authorised agents. In the case of the imports, the particulars are obtained under declaration; but this procedure is not generally adopted for the export returns, although the Collector of tratours has power to demand particulars of goods, under declaration if necessary. No official valuations are made, but the entries are, nevertheless, checked and amended if necessary by competent officials connected with the Customs.

Valuation of Imports.—Articles Free or subject to Specific Duties.—The values given are understood to represent the values at the port of shipment, with the cost of freight, insurance, packing, and porterage added.

Articles subject to Ad Valorem Duties.—The values given are supposed to represent the market values of the goods from cost of packing and cases) at the time and place of exportation, in addition to 10 per cent. thereon. The values of goods, both specific and ad valorem, are in every instance exclusive of Duty.

British and Foreign Transit Trade—Imports.—The Import trade of New South Wales shown with certain countries, particularly the United Kingdom, Belgium, France, Germany, Italy, Austria, and China cannot be taken as a supplete statement of the trade between these countries and New South Wales, as the outward trade of the first five mentioned countries is swollen by goods sent from other European countries for shipment at British, Belgian, French, Germann, or Italian ports. Goods forwarded to New South Wales from China are in several instances sent via Hong Kong, and are credited to this British Possession

The Customs Returns show the quantities and values of goods from the original port of shipment only, and not from the country of production or manufacture. Where transhipments have taken place, care is taken to trace the original port of shipment.

Tariff.—The present tariff came into force on the 2nd December, 1891, under the "Customs Duties Act of 1891" (55 Vic. No. 16). See page 289.

Proof Spirit.—Alcohol of the specific gravity of 0-92 at 60° Fahr. is proof spirit. The standard of proof spirit by which all mixtures of alcohol and water are judged contains 57-27 per cent. by volume, and 49-50 by weight, of alcohol-Spirits other than bitters, essences, sarsaparilla, tinctures, &c., are subject to a duty of 14s. per gallon of proof spirit, but a proportionate reduction in the duty is allowed on spirits to 16-5 under proof, of less strength the duty is enforced as at that strength. The returns of spirits given in the general imports and exports are stated according to measure, whereas the quantities shown in the "Customs Revenue Collections" are gallons of proof spirit.

\*Horses.—Imports.—The large values here accounted for by the fact that valuable racehorses enter New South Wales to take part in race meetings held in this Colony. The traffic is chiefly by the railway, as the high average prices for horses shown by the returns of the railway stations at the borders demonstrate.

† Live Stock—Queensland. The Statistics have been compiled with the assistance of the Overland Stock Returns of Queensland.

# No. 4.—GENERAL EXPORTS (Seaward and Overland) of New South Wales during 1894.

Articles for Consumption and Use on Voyage.—Dutiable articles, obtained for ships' requirements are classified as Exports, and are considered part of the trade of New South Wales with the countries to which vessels are bound. As information is not available regarding the exports of "Free" goods, required by vessels on voyage, the following returns do not include the amount and value of such articles.

British and Foreign Transit Trade—Exports.—The Export trade of New South Wales with certain countries, particularly the United Kingdom, Belgium, France, Germany, Italy, Austria, and China, cannot be taken as a complete statement of the trade between New South Wales and these countries, as the outward trade to the five first-mentioned countries is swollen by goods sent via United Kingdom, Belgium, France, Germany, and Italy, to other European countries. A considerable quantity of the goods forwarded to China are sent via Hong Kong, and apparently wrongly credited to this British Possession.

Valuation of Exports.—Articles of Export are valued at the port of shipment or inland station at which the goods leave New South Wales.

Proof Spirit.—Alcohol of the specific gravity of 0.02 at 60° Fahr, is proof spirit. The standard of proof spirit by which all mixtures of alcohol and water are judged contains 57.27 per cent. by volume, and 40.50 by weight, of alcohol. Spirits other than bitters, essences, sarsaparilla, tinctures, &c., are subject to a duty of 14s, per gallon of proof spirit, but a proportionate reduction in the duty is allowed on spirits to 16.5 under proof; of less strength the duty is enforced as at that strength. The returns of spirits given in the general imports and exports are stated according to measure, whereas the quantities shown in the "Customs Revenue Collections" are gallons of proof spirit.

<sup>\*</sup>Horses—Exports.—The large values here shown are accounted for by the fact that valuable race-horses returning to reclonics from race meetings held in New South Wales are included. The traffic is chiefly by the railway, as the high age prices for horses shown by the Returns of the Railway Stations at the Borders demonstrate.

† Live Stock, Queensland.—The Statistics have been compiled with the assistance of the Overland Stock Returns of rasiand.

<sup>\*</sup> Domestic Export of Wool.—The export of Wool during the Calendar Year does not represent the clip of the Wool Season, as the outward trade during the year January to December includes portions of the clips of two Wool Seasons. The commercial wool year commences on the 1st July and ends on the 30th June. The bulk of the sheep are shorn between the months of May and November.

<sup>\*</sup>Gold Returns, 1894.—The value of the Gold coin and Gold bullion imported in 1894 largely exceeded that of the Gold coin exported, and as it has been decided that where there is an excess of imports over exports the whole of the gold coin exported is classed as "Other Produce or Manufacture," no credit has been taken for the manufacture of the gold into coin at the Sydney Mint.

# No. 5.—OVERLAND TRADE.—IMPORTS of New South Wales, 1894.

(Included in General Imports Returns, pages 57 to 109.)

Names, &c., of Overland Stations. -- For trade returns of Overland Stations, and the names and localities of same, see page 55.

## No. 7.—GOODS "REINTRODUCED" under Certificate during the year 1894.

(Not included in General Imports and Exports Returns.)

Reintroduction Certificates.—Goods ferwarded from coastal ports (Sydney and Newcastle), or from inland stations Riverina District or Broken Hill), for reintroduction into New South Wales, via Victoria or South Australia, must be overed by a "Reintroduction Certificate" issued by the Customs authorities, in order to be exempt from payment of mport duties upon readmission into the Colony. The list below includes a large number of "Free" goods (N.S.W.) which have been reintroduced under Certificate, as, owing to the dissimilarity of the Tariffs, import duty would have been harged by other colonies, unless the goods were protected by Certificate.

Certificates are granted for goods to be reintroduced within one month from the date of issue, after which time the roods are subject to full import duty. The general Imports returns given in Table No. 3 (pages 57 to 109) and Exports Returns Table No. 4 (pages 110 to 246) do not include the trade under Reintroduction Certificates.

#### Goods reintroduced under Certificate into New South-Wales AT SYDNEY AND NEWCASTLE from THE RIVERINA DISTRICT via Victoria and South Australia.

#### No. 11.—IMPORTS and EXPORTS of New South Wales—Seaward and Overland-also Value of Trade per Inhabitant-1884-94.

Adjustment of Import and Export Trade Returns, 1884-94.—The Returns relating to the two branches of Commerce have been in some years altered. The figures now given are to be accepted in lieu of those published in the previous issues of the Statistical Register. The adjustments were caused by a recast of the figures relating to gold and live stock. As regards the former article, it has been decided that where there is an excess of Exports of gold coin over Imports of gold coin and gold bullion, the difference represents the Domestic export; when opposite conditions obtain the whole of the gold coin and gold bullion, the difference represents the Domestic export; when opposite conditions obtain the whole of the gold coin has been classed as Other produce or manufacture, no credit being taken for the manufacture of the gold into coin at the Sydney Mint. The live stock returns on the Queensland Border, so far as they relate to Horses, Horned Cattle, and Sheep, have been amended, with the assistance of the data supplied by the Chief Inspector of Stock, Queensland.

# No. 12.—WOOL EXPORTED—the PRODUCE (according to Customs Returns) of New South Wales—1884-94.

Sydney and London Wool Sales.—For full information relating to prices, bales sold, &c., see Part V, section III., page 517.

The Commercial Wool Year.—The figures given in the Returns represent the export during each calendar year, which includes portions of the clips of two seasons. The commercial wool year, however, commences on the 1st July of one year and ends on the 30th June of the following. The bulk of the sheep are shorn between the months of May and November.

### No. 16.—REVENUE collected by the CUSTOMS DEPARTMENT during 1894.

The present Tariff came into force on the 2nd December, 1891. The Act was assented to on the 2nd March, of the following year as the Customs Duties Act of 1891, (55 Vic. No. 16.)

Cost of Collecting Customs Duties, Excise and Miscellaneous Collections.—The net Revenue collected by the Customs Department for 1894, exclusive of the Marine Board and Public Wharfs Departments receipts (the expenditure of these Departments being kept distinct from that of the Customs), was £2,278,071, and the expenditure including the value of the stores and stationery supplied during the year, was £74,102, or £3 5s. 1d. for every £100 collected. No allowance, however, has been made for the interest on capital expenditure on the buildings and lands, owned by the Government used for transacting Customs business the estimated value of which is £186,625.

Net Revenue Collected by Customs Department

Gross Revenue Collected by Customs Department

Drawbacks and Refunds

For Pilotage, Removal Dues, Harbour and Light Rates, and Wharfage and Tonnage Rates, see Part I. "Shipping."

† Shipping Fees.—The fees collected under this head are not an item of Revenue of the Customs Department, but there being no Shipping Masters outside Sydney and Newcastle, the Customs officials collected at other ports.

Confiscations.—All goods seized by the Customs are submitted at auction sales held periodically; and should the um officed be less than the amount of duty leviable the goods are withdrawn from sale and destroyed.

<sup>\*</sup> Ports at which Wharfage and Tonnage Rates are levied.—Both classes of rates are collected at Sydney Coff's Harbour, Woolgoolga, and Byron Bay. At Newcastle Tonnage Rates only are imposed, as Wharfage Rates are abolished on the 1st June, 1882, under the authority of the 12th section of the "Wharfage and Tonnage Rates Act, 1880." The rates collected at Newcastle are an item of Customs Revenue; the Wharfage and Tonnage Rates collected at Sydney are paid into the Treasury, and included under the head of Miscellaneous Receipts of General Revenue. At no other port are rates of either class collected by the Government. During July, 1890, a considerable number of additional wharfs were proclaimed "public or legal wharfs"; no further action however has been taken.

# No. 17.—REVENUE Collected by the CUSTOMS DEPARTMENT during years 1890-4.

Import Tariff.—The Tariff of late years has undergone many revisions. (See alterations of Customs Tariff from the year 1871, page 298).

Present and Previous Tariff Compared.—Table No. 23, commencing at page 289, clearly shows the rates of duty under the previous tariff and those under the present, also articles now subject to duty which under the previous tariff were admitted free.

Tax on Chinese.—The first Act [25 Vic. No. 3] to regulate and restrict the immigration of Chinese came into operation, February, 1892. Under its provisions a tax of £10 per head was imposed on Chinese immigrants to New South Wales, and Certificates of Naturalisation were disallowed; this statute was repealed in November, 1897, and till December, 1881, no restrictions were in force against Chinese entering the Colony. In that year, however, an Act [45 Vic. No. 11] was passed which imposed for a second time a tax of £10 per head. In 1883 this Act was repealed, and a more stringent one 182 Vic. No. 4] adopted. No Chinese unless they come under exemption clauses of the Act, are now permitted to enter New South Wales either by sea or land without the payment of a tax of £100, while the granting of Certificates of Naturalisation has been suspended by the Act. Chinese naturalised in other colonies are not entitled to the right of Eritish citizenship in New South Wales.

Tobacco Factory Licenses.—Under the provisions of the "Tobacco Act of 1884," "A" and "B" licenses for the manufacture of tobacco, cigars and cigarettes, are issued. The cost of the "A" licenses ranges from £5, for the manufacture of an amount not exceeding 5,000 lbs.; to £50, for the manufacture of an amount not exceeding 50,000 lbs.; and the "B" licenses from £100, for the manufacture of an amount not exceeding 350,000 lbs. Persons taking out "A" licenses, are small manufacturers, who generally confine their transactions to the manufacture of tobacco and cigars, while those obtaining "B" licenses are proprietors of large factores where tobacco and cigarettes are chiefly manufactured. During 1884, 18 "A" licenses and 6 "B" licenses were intores.

Tobacco-Licenses to Sell.—An annual fee of 5s. is imposed on persons selling tobacco, eigars and eigarettes. The year commences from the date of issue of license.

## No. 18.—REVENUE collected by the CUSTOMS DEPARTMENT—Collections at each PORT and STATION, 1892-4.

Inland Bonds and Stations,—No Import returns were collected during 1894, at Brewarrina, Deniliquin, and Morpeth. At the two first mentioned stations goods were received under Bonding Certificates only, whilst the Inward trade of Morpeth was recorded at Newcastle. Only Export returns were collected at Brewarrina and Bourke.

Changes in Tariffs.—For changes in Customs (Import) and Excise Tariffs see, pages 298 and 290 respectively.

#### No. 20.—Goods Shipped for DRAWBACK during 1894.

Drawback of Customs (Import) Duty.—A drawback of the full duty paid on importation is allowed on goes if exported in original packages as imported, provided that the Collector of Customs is satisfied that in all respects the goods are in the same condition and of the same value as when they were entered for duty on importation. Drawbacks of duties are allowed on ale, beer, wine, opium, medicines, tollet preparations containing spirit, but not on intoxicating spirits, but not on intoxicating spirits, tobacco, cigars, cigarettes, tinctures, perfumed spirits, Florida water, and bay rum. Unlike Refunds there is no limit to the period in which Drawbacks may be obtained.

Drawback of Excise Duty.—Drawback is allowed on beer only, although refunds are also made on beer which has been spoiled or become unfit for use after removal from the Brewery.

Bonding Warehouses (for use of the Public).

Bonding Warehouses.—Under the authority of the Customs Regulation Act of 1879, License Fees are collected as Bonding Warehouses. For every warehouse with a storage capacity of 50 tons and under an annual fee of £50 is imposed, and for every additional 10 tons, £1; the maximum fee, however, is fixed at £300. The amount of license fees collected during 1894 was £10,146. In addition, the warehouse-keepers give security, by bond or otherwise, for goods warehoused. Under the provisions of the same Act, 489 licenses to carry dutiable goods were issued to the end of 1894. No fee is attached to the license, but the licensee is obliged to enter into a conditional bond.

10 Per Cent. Ad valorem.

All goods imported into New South Wales and not enumerated in specific, 15 per cent. Ad valorem, and Free Lists.

With few exceptions, the articles now subject to 10 per cent. ad valorem duty were, under the previous tariff (Act 1887), admitted free.

## No. 24.—CUSTOMS (Import) TARIFF ALTERATIONS from the year 1871.

Exemptions from Import Duty.—A reservation has always been made that all goods imported for the supply of Her Majesty's Service shall be exempted from duties and imposts of every description whatever.

Date when passed.	Act.	To take effect from	Alterations made.
22 May, 1871 28 Nov., 1873	all previous Acts.)		Specific duties largely increased.  Ad Valoren duties of 5 per cent. imposed.  The number of articles subject to duty reduced.  Duty imposed on Sarsaparilla containing more than 25 per cent. of proof spirit.
6 Feb., 1880	43 Vic. No. 16 (amending	10 Dec., 1879	Ad Valorem duties of 5 per cent. abolished.
2 April, 1884		20 Feb., 1884	Duties imposed on Stearine and Cigarettes.  Duties on Cigars, Tobacco, and Opium increased.  The limit of under-proof allowance of spirits fixed at 16.5.  The reputed contents of cases containing Spirits, Beer, and Wine regulated.
28 Sept., 1896	50 Vic. No. 16 (repealing the 1871, 1873, 1880, and 1884 Acts, or the unrepealed portions of them.)		
8 July, 1897		1 Oct., 1887	The number of articles charged specific duties largely reduced.
	,	1 Oct., 1887	Ad Valorem duties of 5 per cent. abolished.
2 March, 1892. (still in force.)		30 March, 1887 30 March, 1887 2 Dec., 1891	Duties on Malt and Hops abolished. Duties on Spirits and Spirituous Compounds increased. New schedule of specific duties at lower rates. The number of articles subject to specific duties increased. Ad Valorem duties of 10 and 15 per cent. imposed. 10s. per ton duty imposed on Pig-iron. Duty on Tea abolished.

## No. 25.—EXCISE TARIFF, 1894.

	Article.		Authority.	Rate of Excise Duty.					
Colonial Distilled Spirits Tobacco Cigars and Cigarettes Beer				•••	•••	51 Vic. No. 6 47 Vic. No. 12 amended by 51 Vic. No. 7 47 Vic. No. 12 50 Vic. No. 38	P proof gallon, P lb., P lb., P liquid gallon,	8. 14 1 2	d. o 3 6

## No. 26.—EXCISE TARIFF ALTERATIONS from the year 1866.

Date when passed.	Act.	To take effect from	Duty.	Alterations made.							
	SPIRITS DISTILLED WITHIN THE COLONY.										
19 Jan., 1866	29 Vic. No. 15 (repealing pre- vious Acts).	29 Nov., 1865	♥ proof gallon, 9s. 5d. and 10s.	Under various Acts the Excise duty on colonially distilled spirits had been gradually raised from 2s. 6d. per proof gallon, imposed April, 1830 (Act 11 Geo. IV, 9) to 6s. 5d. in September, 1855 (Act 19 Vic. 16). Under Act 29 Vic. No. 15 the Excise duty was fixed at 9s. 5d. per proof gallon if distilled from sugar upon which Customs duties had been paid, or 10s. if distilled or made wholly, or in any proportion exceeding 10% of the whole, from materials upon which no Customs duties had been paid.							
6 Feb., 1889	43 Vic. No. 17 (repealing pre- vious Act).	10 Dec., 1879	129.	Duty raised to 12s. per proof gallon.							
8 July, 1887 (still in force).	51 Vic. No. 6 (repealing pre- vious Act).	30 Mar., 1887	148.	Duty raised to 14s. per proof gallon.							
		BEER BREW	ED WIT	THIN THE COLONY.							
8 June, 1887 (still in force).	50 Vic. No. 38	3 June, 1887	₩gallou 3d.	Prior to the passing of this Act there was no Excise duty on beer brewed in New South Wales. The Act defines "beer" to include ale, porter, and every other malt liquor or fermented beverage purporting to be beer, or made in imitation of beer, or malt liquor, and whether brewed wholly or in part from any other substance than malt and fixes the duty at 3d. per gallon.							
	TOBA	CCO MANUFA	CTURE	D WITHIN THE COLONY.							
10 April, 1884	47 Vic. No. 12	20 Feb., 1884	₽ Ib. 1s.	Prior to the passing of this Act there was not any Excise duty on tobacco manufactured in New South Wales. The duty was fixed at 1s. per lb. on tobacco manufactured or cut in any tobacco factory. The Act also provided for the imposition of license fees to be paid by manufacturers and vendors. (For amount of fees, &c., see page 230.)							
8 July, 1887 (still in force).	51 Vic. No. 7 (amending Act).	30 Mar., 1887	1s. 3d.	Duty increased to 1s. 3d. per lb.							
	CIGARS AND	CIGARETTES	MANU	PACTURED WITHIN THE COLONY.							
10 April, 1884 (still in force).	47 Vic. No. 12	20 Feb., 1884	39 lb. 28. 6d.	The "Tobacco Act of 1884" imposed an Excise duty of 2s. 6d. per lb. on cigars and cigarettes, manufactured in any tobacco factory, and the provisions as to license fees for the manufacture and sale of tobacco apply equally to cigars and cigarettes.							

### No. 27.—IMPORTATIONS PROHIBITED (Acts 42 Vic. No. 19, & 45 Vic. No. 7).

Cigars or Cigarettes in ships under 40 tons register, or in outer packages containing less than thirty pounds net weight, or less than five thousand in number each, or containing any other goods.

Counterfeit coin or false money, purporting to be sterling coin of the realm, and not being of the established standard in weight or fineness.

Indecent or obscene books, paintings, drawings, cards, engravings, photographs, or other indecent or obscene productions or articles.

Infected cattle, sheep, or other animals, and hides, skins, horns, hoofs, or any other part of cattle or other animals which the Governor may, by proclamation, prohibit in order to prevent the spreading of any contagious disease.

Opium (except when made up in the form of drugs) in ships under 40 tons register, and in packages each containing less than thirty pounds net weight, or containing any other goods.

Snuff or tobacco in ships under 40 tons register, and in packages each containing less than twenty-five pounds net weight, or containing any other goods.

Spirits (not being perfumed or medicinal spirits) in ships under 40 tons register, and (unless bottled) in casks or other vessels containing less than twelve gallons of liquid measurement, and not duly reported as being part of the cargo or stores of the importing ship.

Grape-vine cuttings or grapes are prohibited at outstations and out-ports, but may be landed at Sydney under supervision of officers of the Agricultural Department.

Murray River Trade not restricted.—The restrictions on tonnage mentioned above do not extend to vessels on the River Murray, provided due notice is given to Customa' Officers.

Importation of Arms, &c.—The importation of arms, ammunition, gunpowder, or other explosives, may be prohibited by proclamation or order of the Governor-in-Council whenever deemed expedient.

# No. 28.—EXPLOSIVES, &c., within the meaning of the GUNPOWDER and EXPLOSIVES ACTS of 1876.

Explosives and Explosive Substances.—Under Act 40 Vic. No. 1, the masters of vessels arriving at any port of New South Wales with explosives on board must display the specified flag, and keep same flying till all explosives have been landed. The officers of the Mercantile Explosives Department superintend the landing and storage of all explosives. Provision is made for the licensing of private magazines, the registration of premises for keeping explosives, and the issue of licenses to persons for dealing in explosives, &c. The rates for lighterage, storage, and delivery of gunpowder, &c., and the fees for the various licenses are specified in the Act.

Magazines, Licenses, &c.—The Government magazines are situated as follows:—

For Gunpowder, &c.—Goat Island, Middle Harbour (floating), and Newcastle (floating).

For Nitro-glycerine compounds—Broken Bay.

For Gun-cotton—Middle Harbour (floating).

The number of private magazines or premises registered for keeping explosives at the end of 1894 was 591, and the licenses issued to persons dealing in gunpowder, &c., at the same date were:—Ordinary (to keep not more than 25 h.), 1,165; and Special (to keep more than 500 h.), 67.

#### EXPLOSIVES.

Gunpowder.

Nitro-glycerine.

Dynamite.

Lithofracteur.

Blasting Powder.

Picric Powder.

Gun Cotton.

Pyrolignoine

Any Explosive Preparation of Vegetable Fibre.

Fulminate of Mercury, or of other Metals.

#### EXPLOSIVE SUBSTANCES.

Petroleum.

Kerosene.

Picrate of Potash.

Any new explosive which may be manufactured after the passing of the Act.

Coloured Fires.

Cartridges, or Ammunition of which an explosive forms a part.

Fireworks.

Rockets.

Detonators.

Every adaptation or preparation of explosives or explosive substances.

#### INSPECTOR OF KEROSENE.

Under Act 35 Vic. No. 1, power is given for the appointment of one or more inspectors, who test all kerosene imported or refined in the Colony, and no kerosene must be delivered to purchasers till a certificate has been obtained from the inspector. The present holder of the office of Inspector of Kerosene is the Superintendent of the Metropolitan Fire Brigade.

# PART III.—Public Finance.

### Section I.—CONSOLIDATED REVENUE FUND AND TRUST FUNDS.

### No. 1.—ESTIMATES for 1895.—Amount authorised to be expended for period 1st January to 80th June (HALF-YEAR), 1895.

Estimates of Probable Expenditure, Ways and Means, and Appropriation Act.—Prior to the Budget or Financial Statement being delivered, the "Estimates of the Probable Expenditure" from Consolidated Revenue, are submitted to the Legislative Assembly under the provisions of the 54th clause of the Constitution Act. When the Treasurer desired to submit his Budget, the usual practice is that the House resolves itself into a "Committee of Supply," and votes an item of expenditure, after which the House resolves itself into a "Committee of Ways and Means," to cover the supply voted, and in moving the necessary formal resolution, the Treasurer delivers his Budget or Financial Statement. Subsequently the Estimates-in-Chief, Supplementary Estimates, Additional Estimates, and any other estimates for appropriations from Revenue are considered as opportunities occur, until the whole are disposed of, and having been covered by votes in "Committee of Ways and Means," an Appropriation Bill is then introduced, and, if passed, is transmitted to the Legislative Council for concurrence, and, if agreed to, it is then returned to the Speaker of the Legislative Assembly, in whose custody it remains until the close of the session (unless he is previously authorised by a resolution of the Assembly to present it to the Governor for assent), when, immediately prior to the prorogation, it is by him presented to the Governor for assent, after which it becomes the "Appropriation Act" for the year for which the supply was granted.

Supply covered by Autororisition Act.—Under the Annual Appropriation Act, the sums necessary for the

Supply covered by Appropriation Act.—Under the Annual Appropriation Act, the sums necessary for the administration of the Executive and Legislature, and the nine Ministerial Departments are appropriated. There is, however, a considerable yearly expenditure under "Special or Permanent Appropriations," which is authorised under various Acts (see page 321), and consequently forms a yearly primary charge on the Consolidated Revenue.

Temporary Supply Bills.—When the Appropriation Act providing for the annual expenditure from Consolidated Revenue does not become law till after the commencement of the year for which the supplies were required, or when payments for urgent services not authorised by law are found necessary, Temporary Supply Bills to meet current needs are passed. Under the Annual Appropriation Act, no authority is given to advance money from Revenue in anticipation of Loan Votes, but provision for such expenditure may be made in the Temporary Supply Bills. During the ten years ending with 1895, Temporary Supply Bills have been passed in every year but three (1890, 1891, and 1896).

Change of Financial Year.—On 1st July, 1895 a new financial year was inaugurated, and from that date each

fiscal year will commence on 1st July of one year and end on 30th June of the year following.

# No. 4.—EXPENDITURE BY APPROPRIATIONS for Services of each year, 1885-94.

Expenditure for Services of each year.—Under the present system of Appropriations sums may be expended for the services of a year, four or five years after the financial or revenue year has expired—as for instance, the amount expended for the services of 1885 was £9,823,576, of which £7,587,243 were spent in 1885, £1,671,613 in 1886, £98,704 in 1887, £6,70 in 1888, £933 in 1889, and £9,043 in 1891—consequently the expenditure side of the account for financial year 1885 was not closed till 1891.

### No. 6.—POSITION OF "GENERAL ACCOUNT" on 31st December, 1894.

What constitutes the "General Account."—The "General Account" consists of the Trust Funds subject to the Audit Act, the Consolidated Revenue Fund, the two Suspense Accounts (one created in 1892 and the other in 1894), the General Loan Account, and the Trust Funds not subject to the Audit Act.

What constitutes the "Public Account."—Prior to 1871 the proceeds of loans formed part of the "Consolidated Revenue Fund Account." In the year named a change in the treatment of loan funds was effected, and henceforth all subsequent loan issues were treated apart from the Public Account. From 1871 the Public Account therefore consisted of the Consolidated Revenue Fund, and what was termed the Old Loans Account (which included the balances of all loans floated up to 1870). During 1879 the Trust Funds were made part of the Public Account. No further change took place till 1891, when the "Old Loans Account" dropped out through being finally closed, and from that date the Public Account, as defined by the Treasury, consists of the Consolidated Revenue Fund and the Trust Funds subject to the Audit Act must be mentioned, however, that the Audit Act recognizes only one "Public Account" whether the transactions are connected with Consolidated Revenue, Trust Funds, or Loans.

<sup>\*</sup> For Revenue in Detail, see page 327. † For Expenditure in Detail, see page 328.

Deficiency Debt of 1886 and previous years.—The actual deficiency amounted to £2,502,182. To cover the overdraft an Act was passed in September, 1889, giving authority to issue Bills to the value of £2,600,000, of which amount only £2,502,884 were issued—£1,907,100 on 31st December, 1880, and the balance in the succeeding year—the whole of which were purchased from Trust Funds held by the Treasury. The Bills are being paid off by anamal instalments of £150,000; the amount outstanding on 31st December, 1894, was £1,752,884.

Maximum Deficiency Consolidated Revenue Fund, 31st July, 1895.—According to the above statement the maximum deficit (accumulated deficiency and estimated liabilities outstanding) on the 31st July, 1895, was £2,927,851. of which amount £1,752,884 represented Treasury Bills, and £1,174,767 actual and anticipated cash overdraft.

Special Suspense Accounts.—The "Centennial Park Account" (51 Vic. No. 9), and the "General Post Office New Street Resumption Account" (53 Vic. No. 13), were originally part of the Consolidated Revenue Fund. The former was opened in 1897 and placed in suspense during 1894, the latter was opened in 1890 and placed in suspense in 1892. The debit beliances on the 31st December, 1894, were, respectively, £199,411 and £335,613. Transactions in former years connected with these two accounts have been excluded from the Consolidated Revenue Fund Account.

# No. 9.—GROSS REVENUE and RECEIPTS on account of the CONSOLIDATED REVENUE FUND for year ended 31st December, 1894.

General, Territorial, and Consolidated Revenue.—Prior to the date of the passing of the Constitution Act, the Revenue of the Colony was divided into two branches, the General and Territorial. The collections under the former were expended by the local authorities, while the Territorial or Land Revenue was expended for local purposes by the Imperial Government. Under the 47th clause of the Constitution Act the Revenue were amalgamated under the term "Consolidated Revenue Fund," the expenditure from which thenceforth being subject to appropriation by the New South Wales Legislature for the Public Services of the Colony.

Audit of Accounts.—Under the terms of the Audit Act of 1870 (33 Vic. No. 18) the Treasurer is required to furnish the Auditor-General, within three months after each financial year has closed, with a statement giving the transactions under the Consolidated Revenue Fund Account and other branches of the Public Accounts during the year. This officer is directed by the Act to audit the Treasurer's Annual Statements, make a report thereon, and present the result of his labours to Parliament within six months after the receipt of the information from the Treasury. The Auditor-General is appointed by the Governor and Executive Council, but he cannot be removed from office without the sanction of both Houses of the Legislature. The returns given in this publication for all years are according to the audited statements.

Survey Fees.—The bulk of these fees is collected on measurements of Conditional Purchases, the fees received for leasehold lands being but a small part of the total amount.

This table ends on page 315.

Quit Rents.—Quit rents are a relic of the Land Grant System which prevailed in the early period of settlement. For further particulars see "Wealth and Progress," chapter "Settlement."

# No. 10.—GROSS EXPENDITURE from the CONSOLIDATED REVENUE Fund, for year ended 31st December, 1894.

Annual Revenue Appropriation (Votes), and Special or Permanent Revenue Appropriations.—The annual expenditure connected with the Executive and the Legislature and the nine Ministerial Departments (pages 316 to 321) is provided for by the "Appropriation Act," and the remaining yearly expenditure (pages 321 and 322) is authorised under Special Acts passed at various periods. The latter expenditure is a primary charge on the Consolidated Revenue Fund.

Schedules A, B, and C.—The Civil List under the Constitution Act (18 and 19 Vic., cap. 54), provided for the Syment of salaries, pensions to certain officials, and State Aid to public worship. Schedule A provides for the salaries of 26 Governor and his Private Secretary, the Chief Justice, and Puisne Judges, the Colonial Secretary, the Colonial Treasurer, at Attorney-General, and the Auditor-General. Schedule B provides for pensions to Judges, &c., and political and other Gers, and Schedule C provides for the payment of Ministers of Religion who were in receipt of State Aid prior to the swing of the "Grants to Public Worship Prohibition Act (28 Vic. No. 19; the expenditure under this Schedule will in the curse of time cease. Additional expenditure under these Schedules has been authorised by the following Acts, viz.:-9 Vic. Nos. 5 and 18, 28 Vic. No. 7, 45 Vic. No. 15, 50 Vic. No. 35, and 51 Vic. No. 19. There is, however, is all expenditure under the Supplement to Schedule B, for pensions to widows of pilots and military pensions, which is abject to the Annual Appropriation Act, for which see page 316.

" " Loans	•		171,933	<b>}</b> 491,146
Gross Expenditure			£	9,828,376

<sup>\*</sup>Advances.—Under the Appropriation Act sums are voted under the head of Advance Accounts, the chief of which are the "Treasurer's Advance Account" and the "Prevention of Scab in Sheep Account." Provision, however, cannot be made under the same Act for advances in anticipation of Loan Votes (see page 307).

Treasurer's Advance Account.—This account was first established in 1871, and the amount yearly voted from that date to 50th June, 1995, was as follows:—

	£	1		£	1		£	1	£	1		£
1871	 30,000	1876		60,000	-	1881	 100,000	1896	 200,000	1891		200,000

1875	 NH.	1880		100,000		1885	 100,000	1890	 200,000	1895.	half ve	ar 50,000

1875 . Nil. | 1880 ... 100,000 | 1885 ... 100,000 | 1890 ... 200,000 | 1895, half year 50,000 of other Governments; (3) to pay expenses of an unforceseen nature, which will afterwards be submitted for Parliamentary appropriation, the whole amount to be adjusted not later than the 31st December of the year following the vote. During 1894 it was decided that the "Advance Account" would be operated upon within the revenue instead of being transferred to the "Treasurer's Advance Trust Account," consequently in the annual statement of the Public Accounts there will be shown only the extent of the account was burdened with numerous intronussions, which are now avoided by the new system of handling the "Advance Vote."

### SUPPLEMENTARY STATEMENT.-PROBATE, ADMINISTRATION, AND SETTLEMENT.

Probate Transactions.—For information regarding the applications for Probate and Letters of Administration granted in Supreme Court, see Part VIII, "Law and Crime."

Stamp Duties Act.—The existing Act (44 Vic. No. 3) was passed in 1880, and provided for the imposition of duties from the 1st July of the same year. In 1886 an amendment was attached, under Act 50 Vic. No. 10, which came into operation on 31st August of that year. It provides for a graduated scale of duties on the estates of deceased persons, in lieu of the 1 per cent. general rate. The classification is as follows:—Where the value of the estate is under £5,000, 1 per cent.; £5,000 and under £12,500, 2 per cent.; £12,500 and under £25,000, 3 per cent.; £25,000 and under £50,000, 4 per cent.; over £50,000, 5 per cent. No Succession Duties are enforced.

\*Estates under the Value of £200 gross exempt.—Under the provisions of the Probate Act of 1890 Amendment Act (50 Vic. No. 30) passed in 1893, no stamp duty can be levied on estates under the value of £200 gross, with the exception of Settlements. The estates during 1893 and 1894 numbered 254 and 538, valued at £23,005 and £49,500, respectively. These values have been included in the total values shown for Probate and Letters of Administration.

Exemptions.—There are several exemptions to Stamp Duties, a complete list of which will be found at the end of the "Stamp Duties Act of 1830."

## No. 15.—Gross Revenue from PUBLIC LANDS, 1889-94.

Auction Sales.—The area submitted for auction annually must not exceed 200,000 acres (1884 Land Act).

anction sales.—Inc area submitted for auction annually must not exceed 200,000 acres (1834 Land Act).

Conditional Purchases.—Under the 1861 Act the completion of the purchase could be indefinitely postposed by paying 5 per cent. on the unpaid balance. Under the 1875 Act the instalment principle was first introduced. Payments were—5s. per acre deposit, annual instalments—principal and interest—of 1s. per acre, and 5 per cent. on unpaid balance. Under the 1834 Act the deposit per acre was reduced to 2s., and the rate of interest on unpaid balance was reduced to 4 per cent. For Conditional Purchases without residence the deposits and instalments are double those prescribed on ordinary Conditional Purchases, and for Special Areas the deposits and instalments are fixed by proclamation in the Government Gasette, and vary according to circumstances. The land laws have been amended by the Crown Lands Act of 1885. For complete information relating to Land Settlement see "Part V, Section I."

Royalty on Minerals.—Royalties are collected under the 1884 Mining Act (48 Vic. No. 10). Prior to 1891 the provisions of the Act were not enforced, owing to a doubtful clause.

### 16.—GROSS REVENUE and RECEIPTS, Consolidated Revenue Fund, 1885-94.

e Consolidated Revenue Cash Account closes on the 31st December. The Treasury officials are, however, ntil the 31st March to prepare for transmission to the Auditor-General the accounts for the year. Up to the 31st rections in transfers can be made; the totals of each sub-head as established by the Treasury in the annual report t March are not varied, notwithstanding that similar statements of the Auditor-General attached, may in some show alight differences. The distribution of the Revenue and Expenditure under each sub-head may however be between the 31st March and the date when the Auditor-General's report is issued.

nue proper to be taken.—To illustrate the expansion of the Revenue, the figures in the "Supplementary Statement" showing net revenue proper should be taken.

### No. 17.—GROSS EXPENDITURE from Consolidated Revenue Fund during each year, 1885-94.

Accumulated Surplus of 1882 and previous years.—At the end of 1877 the "Accumulated Surplus," after all Outstanding Liabilities up to that date had been met, amounted to £2,500,270. The Revenue for 1878, 1879, and 1890, was not sufficient to meet the money appropriated and spent in those years, so that the balance at close of 1880, after all liabilities had been met, was reduced to £1,896,320. The surpluses of 1881 and 1882 however increased the fund to £4,421,162 at the end of the latter year. Between 1882 and 1885 considerable sums were spent out of the Accumulated Surplus under special appropriations and otherwise, with the result that this fund became practically exhausted at the end of 1886. As late however as 1890 small payments were nade from the Accumulated Surplus, but for liabilities contracted under the Appropriation Acts of 1883 and former years. Until 1883 the Government had, therefore, a reserve fund to meet any revenue deficiency arising, but from 1883 no further assistance could be obtained from this source.

\* Exclusive of amounts paid as Salaries to the Commissioners for Bellivages and the reaction to the countries.

\* Exclusive of amounts paid as Salaries to the Commissioners for Railways, and the pension to the ex-Commissioner.

Net Expenditure proper to be taken.—To illustrate the expansion of the National Expenditure, the figures in the "Supplementary Statement" showing the net expenditure proper should be taken.

## No. 18.—COST OF ORDINARY ADMINISTRATION AND OF OTHER SERVICES, 1885-94.

• 1893 and 1893 Expenditure.—The expenditure for 1892 is exclusive of a large sum paid in London during that year for interest on the Public Debt; 1892 expenditure on Railways, Tramways, &c., Services is consequently understated, while the loss on the same Services for 1893 is correspondingly increased. The figures given for both these years must be taken with this qualification.

#### No. 19.—TRUST FUNDS, 1894.

Trust Funds part of General Banking Account.—The General Banking Account consists of the "Public Account," (that is the Consolidated Revenue Fund and Trust Funds), the "General Loan Account," and the Special Trust Account, viz.: the Railway Loan Redemption Fund, Treasury Bills Redemption Fund, Treasury Notes Withdrawal Account, and Colonial Treasurer's Supreme Court Moneys Accounts. In establishing the daily balance the aggregate credit of the respective accounts is set against the aggregate debit, and so long as the former exceeds the latter the Government Account is in credit. This arrangement is for interest purposes only. No interest is allowed on the current account by the Bank of New South Wales; the London and Wostminster Bank, however, allows interest on the daily credit in excess of £20,000. The loss that would accrue by having a large credit balance is avoided by placing a portion of the funds at fixed deposit. The amount so allotted on the Sist December, 1894, was £1,025,000.

Page of Interest on Trust Funds Pade 2014.

Rate of Interest on Trust Funds Reduced.—With the exception of a portion of the sun deposited in the Treasury by the Savings Bank of New South Wales, a general rate of 4 per cent. was allowed to the 31st Decomber, 1894, on all Trust Funds entitled to interest. On the 1st January, 1895, the rate was reduced to 3 per cent. on all accounts except those on which the old rate could not be altered till the terms of the existing arrangements had expired, the amount to the credit of such being £1,160,000.

#### DESCRIPTION OF TRUST PUNDS.

The two classes of Trust Funds.—The funds are divided into two classes, those operated upon directly by the Treasury, and those operated upon by officers of departments in whose names the accounts stand. The funds operated upon directly by the Treasury are subject to the Audit Act, and with the Consolidated Revenue Fund constitute the "Public Accounts" as defined by the Treasury; the latter class of funds are not subject to the Audit Act, nor do they form part of the Public Account, they are, however, used in the "General Banking Account."

#### Trust Funds which are subject to the Audit Act.

Public Instruction Endowment Account,-Under the "Church and School Lands Dedication Act, 1880," the Answers muswment account.—Under the "Unurch and School Lands Dedication Act, 1880," the income derived from Church and School Lands has been placed to an account called the "Public Instruction Endowment Account," from which sums are transferred annually to the Consolidated Revenue Fund, the balance being paid into Trust Fund Account. Prior to the passing of the Act, five-sevenths of the annual income was apportioned to the Church of England, Roman Catholic, Presbyterian Church of Scotland, and Wesleyan Methodist denominations; and two-sevenths for the purpose of education in undenominational schools. For further particulars regarding Church and School Lands, see "Part V."

Civil Service Superamuation Account (48 Vic. No. 24).—The Act which came into operation on 1st January, 1985, provides for the superamunation and retiring allowances of Civil Servants. For five years after the Act came into force an annual sum of £20,000 was paid into the account from the Consolidated Revenue. From 1st January, 1885, annual seductions of 4 per cent. have been made on the salaries of all officers subject to the provisions of the Act, and the contributions of such are paid to the credit of the fund, and in addition, the balance remaining after claims have been met of the £3,500 annually paid from Revenue under Imperial Act, 18 and 19 Vic., Cap. 54, to meet expenses in connection with pensions to superannuated officers, is also paid to the credit of the account.

Police Reward Fund.—The fund is sustained by a molety of each fine imposed for offences under the Police Acts, in which a constable is the informer; by fines imposed upon constables under the "Police Regulation Act of 1862," 25 Vic. So. 16; by penalties or damages awarded to the police on summary convictions; and by the proceeds of sales of unclaimed goods remaining in possession of police for twelve months. Under the 31st clause of Act 25 Vic. No. 16, sums are transferred annually from this fund to the Police Superannuation Fund to make good the deficiencies in the latter account.

dice Superannuation Fund.—This fund was established under Police Act 14 Vic. No. 38; it is now, however, erated upon under "Police Regulation Act, 1862," 25 Vic. No. 16. The fund is chiefly supplemented by annual deductions
£2 per cent. from the pay of all members of the police force, and by transfers from the Police Reward Fund. From the accumulated credit the superannuation allowances and gratuities to the members of the police force are paid.

Trust Moneys Account (20 Vic. No. 11).—This Act directs that certain moneys received in trust by various officers of the Supreme Court shall be paid into the "Public Account" under such rules as the Act empowers the Judges of the Represse Court to frame.

Special Deposits Account.—This account includes those trust funds for which no separate annual balance-sheets are made, owing to the Treasury not being obliged by law to publish them. Several important Trust accounts are included in the total, notably the Government Savings Bank, Savings Bank of New South Wales, Assurance Fund Real Property Act, and

#### Trust Funds which are not subject to Audit Act.

Under this head there are Nine Accounts, three of which, the Railway Loan Redemption Fund (to which an annual sum of £75,000 is paid till the accumulated funds amount to £1,000,000), the Treasury Bills Redemption Fund, and the Treasury Rotes Withdrawal Account, are regulated by special Acts; of the two last-mentioned, the former has no funds in secretic, and the other a very small amount. The remaining six accounts, the Cohenial Treasurer's, Master in Equi (established 1893), Master in Lunacy (established 1897), Curator of Intestate Estates (established 1892), Registrar of Bankrup' (established 1893), Registrar of Probates (established 1893), and Prothonotary (established 1892), represent trust money's the Departments named, which are either invested in Government securities or paid into the Bank of New South Wales's used in the "General Banking Account."

## Section II.—LOAN EXPENDITURE and PUBLIC DEBT.

#### No. 21.—LOAN APPROPRIATION—"Loan Act of 1894."

Appropriation of Loans.—When it is proposed to carry out any Public Works or Services with borrowed money as estimate of the probable cost is prepared and introduced to the Legislative Assembly in the ordinary way, by message from the Governor. The Estimates are then referred to the "Committee of Supply," and dealt with in the same manner as the Estimates from Revenue Proper. A Bill, however, must be passed giving authority to borrow the money required.

Loan or Revenue Appropriations for Works or Services exceeding £20,000.—If any proposed work (except Military and Navs! Defence Works and Maintenance Works for Rallways) is estimated to cost a sum exceeding £20,000, it is dealt with under the "Public Works Act of 1888." The proposed work is submitted and explained by the Minister to the Assembly (as prescribed by section 13 of the Act), and by a resolution of the House it is referred to the "Parliamentary Standing Committee on Public Works" for a report thereon. After such report, the Assembly by resolution declares either that it is expedient, or that it is not expedient, to carry out the proposed work, or it may be remitted for further considention to the Committee. On approval, the Minister introduces a separate Bill to sanction the carrying out of each of such works, which is dealt with in the usual way, and on becoming law the authorisation of the work is absolute.

Parliamentary Standing Committee on Public Works.—Under the provisions of the "Public Works Act of 1888" (51 Vic. No. 37, as amended by 52 Vic. No. 28, and 53 Vic. No. 11) a Parliamentary Standing Committee on Public Works is appointed during the first session of each Parliament. Its functions are to report to Parliament upon proposals for, and the carrying out of, public works, except those connected with the Military and Naval Defence of the Colony and works constructed under the "Government Railways Act of 1888." The Committee consists of thirteen Members of Parliament, five of whom are chosen from the Legislative Council and eight from the Legislative Assembly. The Committee confines its investigations to works estimated to cost over £20,000, whether the proposed expenditure is from Loans or Consolidated Revenue; at or under this amount Parliamentary sanction is obtained for the expenditure without reference to the Committee. During 1894 the remuneration paid to members of the Committee was £4,200.

Unfunded Debt.—As Treasury Bills do not form part of the Funded Debt, the Bills disappear from the Debt Statement when the last payment in redemption thereof has been made.

## No. 26.—PARTICULARS of EACH LOAN floated by New South Wales to 1st January, 1895.

First Loan raised under Responsible Government,—Loan 19 Vic. Nos. 38 and 40 was the first raised under sponsible Government, although authorised under Act of Council.

First Loan raised in London.—In 1855 New South Wales placed on the London market the first instalment of a er cent. loan for £683,300. This was the first external loan raised by a colony of Australasia.

Nors. — In some of the earlier years the interest was fixed at a daily rate, in such cases an equivalent yearly rate quoted.

\* £25,000 of this amount was repaid by the Government of Victoria.

† The total amount over-raised on two issues of this Act, viz., £7,365, was paid over to the Sydney Railway Company.

## Raised on the Security of the Consolidated Revenue (See note, page 311). Loans included in "Old Loans Account."

"Old Loans Account."—The £450,000 loan initialed "Under various" (commonly known as the "Tailings oan") was floated during 1871 for the purpose of adjusting the amounts short and over raised under Act 17 Vic. No. 34, and all subsequent Acts to 34 Vic. No. 2. These loans constituted what is termed the "Old Loans Account," which lomed part of the Consolidated Revenue Fund till 1891, when the account was finally closed by the balance at the end of that year (£132,326 0s. 4d.) being transferred to the "General Loan Account" under the provisions of the Loan Act 54 Vic. No. 33, as amended by Act 55 Vic. No. 35.

## No. 33.—FUNDED STOCK QUOTATIONS on Sydney Stock Exchange during each month of 1894.

Monthly Stock Quotations.—The prices given are the monthly quotations during 1894 on the Sydney Stock Exchange, for the New South Walcs 4 per Cent. Funded Stock (New), due 1912.

Local Transactions in Debentures and Funded Stock.—The transactions on the Sydney Stock Exchange in New South Wales Government securities are chiefly confined to dealings in the New South Wales (New) Funded Stock, due 1912. Quotations for Debentures and New South Wales 4 per Cents. (Old Funded Stock) are rare, as holders of these securities are not disposed to part with them. There are no Inscribed Stock quotations.

### No. 34.—PARTICULARS of the £832,000 (Inscribed Stock) Conversion Loan (Act 57 Vic. No. 17), floated in London, 20th September, 1894.

The Imperial "Colonial Stock Act, 1877," provides for the inscription and transfer of stock raised in the United Kingdom and for stamp duty to be levied thereon. It also defines the position of the British Government as regards Colonial indebtedness, and provides that every document connected with stock transactions shall have printed upon it a distinct intimation that no liability, direct or indirect, is incurred by the British Government in respect to such stock, unless the loan is under Imperial granantee. Local Acts have been passed in conformity with the provisions of the Imperial Statute by each Colony of Australasia; the New South Wales Inscribed Stock Act (48 Vic. No. 12) was passed in 1883.

First Issue of Inscribed Stock.—From 1842 to 1833 it was the general practice to raise loan moneys under the form of debenture bonds. In the latter year, however, the "Inscribed Stock Act of 1883," as previously mentioned, was passed with the object of providing for the issue and inscription of stock, and from that date the system of raising loans by after the negotiation of the £2,000,000 Debenture Loan of 1882 the holders of the scrip had the option of exchanging the bonds for inscribed stock, a privilege which was availed of to the extent of £1,185,300.

Stock Agents in London.—Under the 9th clause of the "Inscribed Stock Act," Stock Agents are appointed in London to carry out certain regulations defined by the Act in clause 7. The Act provides that two or more persons shall be appointed to act as agents, one of whom shall be the Agent-General of New South Wales. The committee, as at present constituted, numbers 6 persons, the Agent-General being Chairman.

The Cost of Regotiation of Inscribed Stock Loans by the Bank of England is § per cent. commission, and by the Loadon and Westminster Bank, § per cent. Stamp duty is 12s. 6d. per £100 stock; brokerage charges § per cent.; and, is addition, about 4th per £100 for incidental expenses.

Bonus or Accrued Interest Account.—The accrued interest or bonus would have amounted to £5,513 8s. had the instalments of the loan been paid on the due dates, but according to the prospectus, persons paying in advance were allowed discount at the rate of 1 per cent. per annum. The discount on the sum so paid, in advance, amounted to £266 12s. 5d., and the accrued interest or bonus actually paid was reduced by reason of the prepayments from £5,313 8s. to £4,646 17s. The net proceeds of the loan, after allowing for charges (£12,234 19s. 10d.) and bonus (£4,646 17s.) were, therefore £269 561 15s. 24.

to £4,646 17s. The net proceeds of the loan, arter anowing for changes (\*\*Least 100 Aur.), and the proceeds of the loan, corresponding the half-year's interest due on the 1st March, 1895, amounting to £14,560, was paid partly from the proceeds of the loan, and partly from Consolidated Revenue, the amount paid out of the former being £4,380 4s. 7d., and from Consolidated Revenue £10,179 15s. 5d. The latter amount includes the £2 7s. 8d. received as interest on instal-

ments not paid when due.

## Section III.—STATE RAILWAYS AND TRAMWAYS.

## No. 37.—STATE RAILWAYS and TRAMWAYS.—Quarterly Returns, 1894-5.

Railway Commissioners.—Under the Government Railways Act of 1888 (51 Vic. No. 35) the administration of the State Railways and Transways was placed in the hands of three Commissioners, with large executive powers amounting almost to independent control.

Change of Railway Year.—Under the provisions of the above mentioned Act, the date of the "Railway Year" was altered from the last January to 31st December, to the 1st July to 30th June, the change taking place during the first year of the new administration.

## No. 39.—STATE RAILWAYS.—Operations, 1855-95.

First Railway section opened.—Railway construction in New South Wales was commenced in 1850, and the first length of line—Sydney to Parramatta—was opened on 25th September, 1855. A uniform gauge of 4 ft. 8j in. has been adopted for the Railway and Tramway systems.

Tramways classed as Railways.—The Camden-Campbelltown line, opened in March, 1882, and the Kogarah-Sams Souci line, opened in September, 1887, were transferred to Railways in 1885 and 1880 respectively; and from the last-mentioned dates the returns of these lines have been included with those of Railways.

## Section IV.—POSTMASTER-GENERAL'S DEPARTMENT.

### No. 46.—POSTMASTER-GENERAL'S DEPARTMENT, 1894.

Amalgamation of Departments,—During February, 1893, the three separate departments under the control of the Postmaster-General—the Post Office, Electric Telegraph, and Money Order and Government Savings Bank—were amalgamated, and the Secretary of the first-named department was appointed to take charge of the whole, under the designation of Deputy-Postmaster-General.

Government Savings Bank. -See "Part IV," for transactions of the "Government Savings Bank."

#### REVENUE AND EXPENDITURE, 1894.

Postmaster-General's Department.—The total receipts for 1894 of this Department were £760,889, and the expenditure (exclusive of an amount of £33,984, paid from Votes of other Departments) was £884,856, showing a loss on the transactions of the year of £123,967. Adding the interest (£30,820) on the cost of buildings owned by the Government, and used as Post and Telegraph Offices, and the interest (£33,259) on the cost of construction of Telegraph lines, also the amount of Votes previously stated, the total expenditure was £982,919, or a total loss during 1894 of £222,030.

Postal and Telegraphic Conference, 1895.—A Conference of Representatives from each of the seven Colonies of Australasia met at Hobart, Tasmania, on the lat February, 1895, for the consideration of subjects of general importance in connection with the Postal and Telegraphic Service.

<sup>\*</sup>Registered Letters.—The figures given for 1894 and previous years only represent those registered letters which have passed through the General Post Office, Sydney. Statistics were not collected in these years of the destination of the letters, neither were accounts kept of the business of other offices.

Re-direction.—No charge is made for the re-direction of letters, letter-cards, post-cards, newspapers, books, magazines, commercial and printed papers, or packets, provided that the articles are re-posted not later than the next day after being lett at the original address, and do not appear to have been opened.

Registration Fee.—With the exception of Notices of Objection to the retention of names on the List of Voters issued under the Parliamentary Electorates and Elections Act, on which the fee is 2d., all classes of mail matter are charged 2d for Registration.

Lotteries, Sweeps, &c.—Under the 19th clause of Act 56 Vic. No. 31 the Postmaster-General is empowered to prohibit all mail matter connected with lotteries, sweeps, &c., passing through the post.

The falling off in registered letters passing through the General Post Office in 1893 and 1894 was largely due to this cause.

No. 48.—POSTAL.—DEAD LETTERS, &c., 1894.

Unclaimed Letters, &c.—Letters and Packets posted in New South Wales, addressed to places within the Colony, remain at the address awaiting delivery for one month; when posted in the Australasian Colonies they remain for a period of three months, and these posted in other Countries, six months. Newspapers are kept for one month.

Prohibition of Delivery of Letters, &c.—The Postmaster-General is empowered under the Postage Acts Amendment Act of 1833 (55 Vic. No. 31), to prohibit the delivery of all letters, &c., addressed to persons who he has reasonable rounds to suppose are engaged in receiving money for or in connection with horse-racing, lotteries, &c. The names and addresses of these persons are notified in the Government Gazette. Letters received in the Post are re-directed to the senders.

## No. 49.—POSTAL.—Mail Routes, &c., 1894.

Contributions—Ocean Mail Service, Sydney to London, 1894.—Via Susz.—The contribution paid by New South Wales towards the cost of the "Federal" Ocean Mail Service (P. & O. and Orient Co's.) was £25,992; the net cost is estimated to be £12,877. Via San Francisco.—A sum of £4,000 was paid to New Zealand for the conveyance of Mails between Sydney and San Francisco by steamers of the Union S.S. Co.; the net cost is estimated at £1,892. Via Vancouver.—During 1983 a contract was concluded for a regular monthly service between Sydney and Vancouver, British Columbia, by steamers of the Canadian-Australian Line; the net cost for 1894 is estimated at £7,846.

Mail matter carried by non-subsidised Lines.—The mail matter carried by the Queensland Royal Mail Company the Messageries Maritimes Company, and Nord-Deutscher Lloyd's, is paid for according to weight.

#### MAIL SIGNALS.

The following signals are hoisted on the "Flagstaff," at the General Post Office, Sydney, to denote the approach and arrival of English and Foreign Mails:—

Steamers with Mails by route named.	Signalled at first port connected by telegraph.	Approach to Sydney Heads.  Day-time.	Mails ready for delivery.
London, Brindisi, and Adelaide. London, Naples, and Adelaide.	(Auckland) Union Co.'s Flag  (King George's Sound) P. & O. Co.'s Flag.  (King George's Sound) O. S. N. Co.'s Flag.  (King George's Sound) French Mail Steamship Co.'s M. M. Flag.  (Adelaide) Nord-Deutscher Lloyd Flag.	Mails by these steamers are landed at Adelaide, and brought overland to Sydney, except when the Railway Time Table from Adelaide offers no advantage over transit by steamer to Melbourne, whence	Blue Flag. White Flag. Green Flag. Green and Red Flag. Blue and White

## No. 50.—NEWSPAPERS.—Number registered for transmission, 1893-4.

Hewspapers.—Under Act 56 Vic. No. 31, passed in June, 1893, newspapers are required to be registered at the General Post Office, and both newspapers and supplements must be printed in New South Wales, from type set up therein, in order to multie the publications to be transmitted as newspapers. The fee for registration at the General Post Office is five shillings. If posted to places in New South Wales within seven days of publication, newspapers are forwarded free, but a clarge for transmission is made after that period. These newspapers, if forwarded to Queensland, Victoria, South Australia, Western Australia, Tasmania, New Zealand, British New Guinea, and Fiji, are charged at the rate of one half-penny each.

Telegraph Lines under Construction.—At the close of 1894 there were 26 miles of line (posts) under construction.

The value of messages which have passed over New South Wales lines from and to places outside the Colony been included.

† Includes £18,667 revenue from telephones.

## No. 52.—TELEPHONES, 1890-4.

Telephones.—Telephone Bureaus for the use of the public, on payment of a small charge, are open at the head office, Sydney, and in thirteen of the suburbs. There are telephone stations in the country used in conjunction with the Electric Telegraph Service.

#### SUBSIDIES AND GUARANTEE CONTRIBUTIONS OF NEW SOUTH WALES, 1894.

Cable Subsidies and Guarantees.—Each of the Colonies, except Queensland and New Zealand, contributes pro-rata to population for the subsidy to cable to Europe, and the short cable to Tasmania. The New South Wales Government does not bear any of the expense of the alternative line, Adelaide to Banjowanjie, ria Roebuck Bay, Western Australia. Each Colony, except Queensland, guarantees against loss in connection with reduced rates on the New Zealand cable, whilst New South Wales and Queensland each guarantees the French Telegraph Company against loss—not exceeding £2,000—on the cable to New Caledonia. Communication was established with this island on the 19th October, 1893.

### No. 55.—POSTAL NOTES, 1894.

Postal Notes.—Postal Notes are issued under Act 56 Vic. No. 31. They are obtainable at all Money Order Offices, and range in value from 1s. to 20s., the price charged being 1d. to 4d. If unobliterated postage stamps to any amount not exceeding 5d. (but not fractions of a penny) are attached, the value of the Note and the stamps will be paid. Postal Notes, which are negotiable by bearer, may be exchanged between New South Wales and each of the Australasian group except Western Australia and New Zealand.

### PART IV.—FINANCIAL INSTITUTIONS.

### No. 1.—SYDNEY BRANCH, ROYAL MINT.

Branches of Royal Mint.—The Sydney and Melbourne Branches of the Royal Mint are the only ones in existence in the British Possessions, the Mints at Calcutta and Bombay being established on a different basis. The Sydney Branch was opened on 14th May, 1855, and that of Melbourne on 12th June, 1872. Gold only is coined in the Branch Mints, the silver and bronze coin required for circulation in the Australasian Colonies being obtained from the London Mint. The expenditure of the Colonial establishments is borne by the respective Governments, the amount granted annually to the Sydney Mint by New South Wales being £15,000; this amount, however, is refunded to the Government under the head of Mint Receipts.

### NOTE CURRENCY.

Notes of Banks of Issue (under authority of Bank Note Act, 1893) were legal tender within New South Wales, from 9th April, 1894, to 9th October, 1895, except at the head or chief offices of the Banks in Sydney.

### GOLD-VALUE PER OUNCE STANDARD.

Standard or sovereign gold has a fineness of 22 carat, and is worth £3 17s. 10½d. per ounce; pure gold, or 24 carat, is worth £4 4s. 11½d. per ounce. The whole of the gold contained in deposits sent to the Sydney Branch of the Royal Mint for melting, assaying, and coining, is accounted for at the rate of £3 17s. 10½d. per ounce, standard or sovereign gold.

### SILVER-VALUE PER OUNCE STANDARD.

### Mint Charges.

Gold deposited at the Sydney Mint for melting, assaying, and coining is subject to a charge per ounce, and the charges are deducted from the gross value of the deposit. The charges are—

	Gold raised in New South Wales.	Gold certified to be the produce of any Colony or Country but N. S. Wales
(1) In deposits of less than 500 ounces, standard.	charged for a deposit under	5d. per ounce, five shillings being charged for a deposit under 12 ounces.
(2) In deposits of 500 ounces and over, but less than 5,000 ounces, standard.	12 ounces. 4d. per ounce	3d. per ounce.
(3) In deposits of 5,000 ounces, standard, and over.	2d. per ounce	1d. per ounce.

Silver retained.—In addition to the above, the Mint authorities retain all silver contained in deposits, but payment is made for the silver in excess of 2 per cent, at a rate from time to time notified in the Gazette. The rate paid during 1894 was 1s. 9d. per oz.

### No. 1.—SYDNEY BRANCH, ROYAL MINT—continued.

Light Gold and Silver Coins.—Light gold coins in parcels of not less than £50 nominal value are received at the Sydney Mint and recoined free of charge, but depositors are required to bear the loss by abrasion. The worn silver withdrawn from circulation is forwarded to Eugland for recoinage.

Seignorage.—The difference between the nominal value of silver and the average price per standard ounce paid by the London Mint represents the seignorage or gross profit. The coinage or nominal value of silver per standard ounce is 5s. 6d., and the price per ounce paid by the London Mint during 1894 averaged 294d. The difference, 384d., represents the seignorage accrued; against this, however, must be placed the loss to the Imperial Government by purchase of worn silver at its nominal value, but after making all allowances for loss by abrasion, minting, &c., the seignorage must be considerable.

### BANK NOTE COMPOSITION PAID DURING 1894.

Bank Note Composition.—Prior to the passing of the Bank Notes Act of 1893, the composition payable by the Banks of Issue under the Stamp Duties Act of 1880 was at the rate of 2 per cent. on the average value of notes in circulation. Under the provisions of the Act mentioned, the rate was increased to 2½ per cent. The Queensland National Bank (Limited) has no note circulation in New South Wales.

874 PART IV.

### No. 3.—BANKS OF ISSUE OPERATING IN N. S. WALES—continued.

### BANKS' EXCHANGE SETTLEMENT, OR BANKERS' POOL.

Banks' Exchange Settlement, or Bankers' Pool.—This institution was established on the 18th January, 1804, in order to facilitate the exchange of notes, cheques, &c. between the 13 banks of issue transacting business in New South Wales. The "Pool" consists of £700,000 in gold, the contribution to which by each bank is regulated by the volume of the business transacted. The gold, which is placed in the hands of three Trustees, is deposited in locked boxes in the vaults of three of the banks, and cannot be circulated or disturbed. No bank is permitted to allow its daily credit balance to fall below 25 per cent. of its fixed contribution to the £700,000. Country cheques, &c., are forwarded direct to the different country branches, and eventually are included in the balances due in Sydney between the various banks.

### QUARTERLY SWORN RETURNS OF LOCAL BUSINESS, 1890-5.

Quarterly Sworn Returns of Banks of Issue.—Under the provisions of the Banking Act, 4 Vic. No. 13, as amended by 5 Vic. No. 24, the Banks of Issue are obliged to furnish quarterly sworn returns of transactions within E. S. Wales only according to the sub-headings given in the following Table. The figures are established on the weekly accounts, and represent the average liabilities and assets for the quarter.

<sup>\*</sup>Total Assets.—Prior to 1893 it was the practice with some Banks to include the excess assets of branches operating outside the Colony; the total assets and the "balances due from other banks" for 1892 and previous years must, therefore, be accepted with this qualification.

### MONTHLY SWORN RETURNS OF COIN AND GOLD BULLION AND NOTE CIRCULATION, 1894.

Bank Notes Act, 57 Vic. No. 13. Under the provisions of this Act, a monthly statement of the average amount of coin and bullion held by the banks in the Colony, and the average amount of notes issued or circulated in the Colony, must be published in the Gazette. Bank notes were declared under the same Act to be legal tender, except at the head or chief offices of the banks in Sydney. The Act has effect for eighteen months from April, 1894. The Bank of North Queensland does not furnish returns under the Act, consequently the figures apply to only twelve banks.

### No. 4.-LOCAL BUSINESS OF LIMITED LIABILITY COMPANIES (other than Banking) receiving Money on Deposit, for the June Quarter, 1895.

Companies farnishing Returns.—The Companies were incorporated under the "Companies Act of 1874." During 1879, Act 42 Vic. No. 21 was passed, which provided for the extension of the provisions of the Banking Act, 4 Vic. No. 13, as amended by 5 Vic. No. 24, to Limited Liability Companies receiving money on deposit within New South Wales.

Companies not furnishing Returns.—Companies formed prior to the Act, and those registered subsequent to

1579, which do not receive money on deposit, are not required to furnish returns. The subjoined table gives the list of only those Companies which are obliged to furnish quarterly returns.

### No. 5.—SAVINGS BANK OF NEW SOUTH WALES.

The Savings Bank of New South Wales was established under Act 2 William IV No. 13, in 1832. The Act provided that the Governor should be President, and the management be vested in nine trustees, one of whom was to be vice-president.—Under an amending Act, passed in 1853, the number of trustees was not allowed to exceed eighteen, but the trustees were to nominate a managing trustee, who, if not already a trustee, became one by virtue of his office. A further Act was passed in 1862 termed the Savings Bank Consolidation Act.

Ratio of Assets to Liabilities.—The ratio of Assets to Liabilities on the 31st December, 1894, was £1 1s. 3\d. for every £1 liability.

### CLASSIFICATION OF DEPOSITS, 1890-5.

Deposits.—Sums to any amount from one shilling may be deposited in the Savings Bank of N.S.W., but with the exception of the funds of Friendly Societies, Charitable and other Public Institutions, deposits exceeding £200 do not been interest on such excess. The bulk of the deposits of over £200 probably belongs to the institutions referred to. The rate of interest allowed on accounts closed during 1894 was 4 per cent., and on accounts remaining open on 31st December, 5 per cent.

### No. 6.—GOVERNMENT SAVINGS BANK.—(Post Office Banks).

Deposits.—Sums of one shilling or any multiple of that amount may be deposited in the Post Office Savings Bank, but with the exception of the funds of Friendly Societies, Charitable, and other Public Institutions, deposits exceeding £200 do not bear interest on such excess.

Deposit rate reduced.—The rate on deposits received during the currency of each year has been reduced from 4 to 3 per cent.; the higher rate, however, is allowed on all sums remaining to the credit of depositors during the full calendar year. This change took effect from 1st October, 1894, in respect of all accounts opened on and after that date, and on all accounts opened prior to that date, from 1st January, 1895.

## No. 8.—BENEFIT BUILDING AND INVESTMENT SOCIETIES registered under Friendly Societies' Act of 1873.

Benefit Building and Investment Societies.—There societies are registered under the Friendly Societies' Act of 1873 (37 Vic. No. 4), which repealed the former statutes relating to the societies, viz. :—7 Vic. No. 10, 11 Vic. Nos. 10 and 58, 14 Vic. No. 11, 17 Vic. No. 26, and 29 Vic. No. 8. Under the provisions of the existing Act any number of persons may form themselves into, and establish societies for the purpose of raising money by subscription to enable members to creek or purchase dwellings, &c., which must be secured to the society by mortgage until the amount of shares has been fully paid.

<sup>\*</sup> Fire and Life Companies.—The proportion of life business obtained by these offices is relatively very small compared with the total business.

### No. 11.-FIRE INSURANCE.

Return of Net Risks under Fire Brigades Act.—Under the 15th Clause of the Fire Brigades Act, 1884, the Insurance Companies holding risks within the proclaimed area under the Fire Brigades Board of Sydney are required to furnish annually to the Board the amount held at risk (within the proclaimed area) by each Company on the preceding 31st December, less the sums reinsured with other contributing Companies under the Act. The total subsidies for 1895 were £0,000 from 41 Companies and the Fire Underwriters' Association for risks held outside the Colony; the amount to be contributed by each Company towards the cost of maintenance for the year is established by the Board from the returns supplied by the Companies.

### No. 13.—WEIGHTS and MEASURES. PANDARDS OF WEIGHTS AND MEASURES.

The Weights and Measures Act (16 Vic. No. 34), which was passed in December, 1852, repealed the original Act (3 Wm. IV. No. 4). Under the provisions of the existing Act, the standard Imperial Weights and Measures of Great Britain are declared to be the standards for New South Wales. The Act also provides that all articles sold by weight must be sold by Aroirdupois, except gold, silver, platina, diamonds, or other precious stones, which are to be sold by Troy weight, and drugs, which, when sold by retail, may be sold by Apothecaries' weight.

### INSPECTION OF WEIGHTS AND MEASURES.

Inspectors.—The Inspectors of Weights and Measures administer three Acts, viz., the Bakers' Act (6 Wm. IV. No. 1), the Coal Delivery Act (9 Vic. No. 8), and the Weights and Measures' Act (16 Vic. No. 34). In the country districts the impectors are appointed by the local Magistrates, the persons selected being generally Sergeants of Police.

Fees paid into Treasury, 1894.

Fees paid into Treasury.—The fees for testing weights and measures are fixed by the Act, but for examining scales and testing weighing machines, weighbridges, and Troy weights the fees are fixed by the Minister for Justice. The amounts received in the Metropolitan area are paid into the Treasury, but those collected in the country are retained by the inspectors.

### PART V.—(SECTION I.)

### LAND SETTLEMENT.

### No. 1.—ALIENATION and OCCUPATION of LAND in New South Wales on 31st December, 1894.

Area alienated to 1894.—During 1894 an area of 506,433 acres (page 393) was disposed of under the various forms of alienation. The area alienated at the end of 1893, after allowing for 184,048 acres (page 390), representing net Disallowances, Forfeitures, Voidances, and Reductions in Area made during 1894, was 44,168,889 acres, which, added to the area alienated and in process of alienation during the year 1894—506,433 acres—gives a total of 44,675,322 acres.

ALIENATION.	Acres.	Acres.

Purposes, Roads, Streets, and Travelling Stock Routes)		25,358,657
Total area of New South Wales (exclusive of water)		195,882,150

<sup>\*</sup> Miners' Rights, Mineral Licenses, and Business Licenses.—This area is exclusive of Crown Lands held in virtue of Miners' Rights, Mineral Licenses, and Business Licenses, the extent of which is not known.

<sup>†</sup> Conditional Leases are in a certain sense Alienations, as the holder has the option of purchase as an additional conditional purchase. See Table No. 16, and foot-note to page 407.

The area alienated in holdings over 1 acre in extent is 41,736,073 acres. See Table No. 22, page 413.

f Area of New South Wales.—The total area of the Colony, as shown on page 418, is 198,848,000 acres.

### No. 2.-LAND SALES during 1894.

Land Laws.—The body of the existing law is contained in the Crown Lands Act of 1884 and the Supplementary Acts of 1889 and 1895. Under the 1884 Act the Colony was divided into three great territorial divisions—Eastern, Central, and Western, the boundaries of which, however, were amended by Government Gazette notice in August, 1885. The Eastern Division covers an area of 60,452,000 acres, the Central 55,460,000 acres, and the Western 79,970,000 acres. The boundaries of the 141 counties existing were not altered. Under the same Act provision was made for each of the three divisions to be divided into Land Board Districts, and these again to be sub-divided into Land Districts. The number of the former at the end of 1894 was 14 and the latter 103.

### No. 3.—TRANSFERS of CONDITIONAL PURCHASES, 1889-94.

Transfers of Conditional Purchases.—The number of transfers intimated to the Treasury during 1394 was 7,949, embracing 15,489 C.P.'s, but as considerable numbers were transferred more than once during the year, the number of Conditional Purchases actually transferred was reduced to 11 235. No C.P. can be transferred (except in special cases) till the full term of residence (5 years) has expired. Under the 1895 Act the period has been increased to ten (10) years.

Total wholly aliena Conditional Purchases—Applications received dur	ted d	uring the	e year oage 399)	The state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the s	2,256 2,617	92,077 2 1 414,355 0 0
Gross alienations during year (exclusive of	resun	ptions b	y Crown)—see p	page 397.	4,873	506,432 2 1

Surrenders, Exchanges, and Road Resumptions.—Transactions under the two former are made under the 46th section of the 1889 Act, and the latter under the 42nd section of the same Act. Being merely land exchanged for land without any monetary consideration the extent of the area of Crown Lands is not thereby affected.

Resumptions and Purchases.—The total alienations represent the gross area, no allowance being made for the gifts of land and the resumptions and direct purchases made from private owners on behalf of the various departments, for particulars of which see Table No. 8, page 397.

AUCTION SALES DURING 1894.

(For explanation of Auction Sales see Table No. 5, page 392.)

No. 8.—LAND RESUMPTIONS and PURCHASES during 1894.

Land acquired by the State.—Land may be acquired by resumption, by purchase, by exchange, by surrender, and by gift. Resumptions are made under the "Public Works Act" (51 Vic. No. 37) the "Lands for Public Purposes Acquisition Act" (44 Vic. No. 16) and the Crown Lands Acts of 1884 and 1889. All resumptions, other than those made by the Minister of Public Instruction and the Commissioners for Railways, are dealt with by the Government Land Valuer. Conveyances of land to the Crown are made by the Crown Solicitor.

### No. 9.—PARTICULARS relating to CONDITIONAL PURCHASES.

Land available for Conditional Purchase.—Lands held under the following forms of lease are not available for conditional purchase:—pastoral, homestead, conditional, scrub, snow-land, special, inferior, and artesian well, residential, mineral, and auriferous; also, the area in the Western Division is not available for ordinary conditional purchase. The only lands that can be conditionally purchased are the unoccupied lands outside reservations and areas under occupation license and annual lease in the Eastern and Central Divisions, and lands under conditional lease, if not within reserves, may be applied for as conditional purchases by the holders thereof.

Division,   A	uthority.   Limit o		Condition	9.				
Eastern, Act of 1895 Fixed according The applicant shall commence and continue for the first five years to reside on								

### The applicant shall commence and continue for the first five years to reside on the selection within three months after the confirmation of the application. The annual rent shall equal 11 per cent. of the capital value during the first five years. At the expiration of that period a grant is issued, transferring the land in perpetuity to the lessee, on the payment annually of a rent equal to 21 per cent. of the capital value. Provision is made for a revaluation of the selection by the Government every ten years. An applicant may appoint a deputy to fulfil the residential conditions during the five years prior to the issue of the grant, but the applicant will be required to pay an annual rent equal to 31 per cent. on the capital value during the before mentioned period and effect greater improvements, but on issue of grant his residence on the selection must be continuous. to capabilities Central. Western of land for the maintenance of one family, but no selection must exceed 1,280 acres.

Special Areas unselected on 31st December, 1894 (Conditional Purchases).—Of the 377,280 acres unselected, 59,951 acres are classified as Suburban or Population Areas, and 317,329 acres are defined as Country Lands.

#### No. 13.—CONDITIONAL PURCHASES.

#### APPLICATIONS MADE AND CONFIRMED, AND DEEDS ISSUED.

Confirmations.—The system of confirming applications was first introduced under the Act of 1884, and was established primarily with the object of minimising the possibility of conflicting applications.

Deeds Granted.—Deeds are granted on receipt of notice from the Land Board, certifying that the conditions of purchase have been fulfilled under the 1884 Act. No certificate has issued under five years from date of application; the Act of 1895, however, extends the period to ten years.

#### No. 14.—LOCAL LAND BOARDS.—Transactions of Courts, 1894.

Local Land Boards.—Under the Crown Lands Act of 1884 (48 Vic. No. 18) Local Land Boards were established in thes everal Land Districts. The former, on the 31st December, 1894, numbered 14, and the latter, 103. The Members of each Board cannot exceed three in number, and are appointed by the Governor. The Chairman receives a fixed salary, and the other members are paid by fees.

## No. 15.—LAND APPEAL COURT.

#### REFERENCES BY MINISTER AND LOCAL LAND BOARDS, 1894.

Reference by Minister.—An appraisement made by the Local Land Board may be appealed against, but on the receipt of any appraisement not so appealed against the Minister for Lands must either accept the same, or within one month refer it to the Land Appeal Court. The amount determined by the Land Appeal Court shall be flual and conclusive.

Reference by Board.—The Local Land Board, instead of giving decisions in cases within its jurisdiction may, after taking evidence, refer such cases for decision to the Land Appeal Court, which has full power to deal with cases so referred.

#### APPEALS SUSTAINED, DISMISSED, &c., 1894.

Land Appeal Court.—The Land Act of 1889 constituted the Court under the name of the Land Court, with a President and two colleagues. The first sitting took place on the 3rd March, 1890. By virtue of the "Judicial Offices Act" (55 Vic. No. 26), the title was changed in 1892 to Land Appeal Court, and members were designated as Commissioners. Any appraisement, recommendation, determination, decision, or award of any Local Land Board may be appealed against to the Land Appeal Court. The Court is itinerant, thus saving time and expense. Appeals to the Supreme Court are heard by the Full Court.

Decisions of Supreme Court. - During 1894 the Land Appeal Court was requested to state special cases for the decision of the Supreme Court in fifteen instances, four of which were withdrawn and eleven proceeded with. Of the latter six were confirmed, three reversed, and two were not finally dealt with.

#### No. 16.—PARTICULARS relating to OCCUPATION.

Forms of Lease under Land Acts.—Prior to the 1884 Act the only forms of lease granted were Pastoral, Annual, Special, and Pre-emptive. Under the 1884 Act provision was made for each of these forms of lease to be continued except the pre-emptive, which was abolished. Under the same Act, Occupation Licenses, Conditional and Homestead Leases were established. The supplementary Act of 1889 provided for five additional forms of Lease, which were as follows, viz. :—Scrub, Snow Land, Artesian Well, Residential, and Inferior Land, and under the Act of 1895 two other forms of Lease were added, viz. :—Settlement Leases for Agriculture and Grazing and Improvement Leases.

Division in which Lease may be granted.	Currency of Lease under Crown Lands Acts of 1884, 1889, and 1895.	Limit of Area.	Remarks.
		Pastoral Leases.	
Eastern, Central, Western.	Eastern Division—Leases expired, 1800. Central Division—10 years currency from 1885; leases expired 1895, but in a proportion of cases extensions varying up to 5 years have been granted under the provisions of section 43, Act 1889. Western Division—15 years currency (1884 Act); 21 years currency from 1800 (1830 Act). In both cases the term has by the Act of 1896 been extended to 23 years.		Areas under pastoral lease are exempt from conditional or unconditional sales or any form of lease.
		Occupation Licenses	
,	Pages January 4 5	ORDINARY.	(Yanga baja angan anganatan Barana ara ara 19
Eastern, Central, Western.	From January to December-Renewal is subject to payment of license fee.	No limit fixed	Lands held under occupation license are available for conditional purchase or conditional lease in the Eastern and Central Divisions, and to homestead lease in the Western Division.
		PREFERENTIAL.	
Eastern, Central.	do do	No limit fixed	Under the 33rd section of the Lands Act of 1889, the holder of a pastoral lease in the Eastern Division, and under section 4 of the Act of 1895 the holder of a pastoral lease in the Central Division, has a preferential right to an occupation license on area hitherto heid by him under pastoral lease. This privilege has been extended by the Act of 1895 to ceses where land is withdrawn for purposes of settlement from land held under pastoral lease in the Central or Western Division. Other conditions are similar to those of ordinary occupation license.
		Homestead Leases.	
Western	Fifteen years currency from 1885 (1884 Act); 21 years currency from 1890 (1889 Act); 28 years by Act of 1895.	Maximum, 10,210 acres; mini- mum, 2,560 acres. Under	conditional purchase. Linkle held under annual lease or occupation license are available for
		Conditional Leases. GAZETTED.

<sup>\*</sup>Artesian Well Leases.—The area under this form of Lease is included with that under Occupation License. Until belification in the Gazette the area is subject to the Occupation License Fee only. At the end of 1894 there were 29 leases that the control of the same purpose was 122,880 acres.

During each of the two previous years the area occupied for the same purpose was 122,880 acres.

Conditional Leases converted into Additional Conditional Purchases.—From the 1st December, 1889, the date the Land Act of 1889 came into force, to the 31st December, 1894, 504,312 acres, originally taken up under Conditional lease, have been converted into Additional Conditional Purchases.

Miners' Rights, Mineral and Business Licenses.—The above figures are exclusive of land held under these forms of tenure, the area of which is not known.

Bents collected from Leaseholds.—The amount of Rent collected on the Leases is that stated by the Lands Department, which differs somewhat from the Treasury Returns shown in "Part III, Public Finance."

† Church and School Lands, 1890-4.—The particulars for 1894 are accurate, but the figures for the previous years can only be accepted as approximately correct.

1895	59,020	41,736,073	1,309,659†	344,035	38,279,488	1,802,891

<sup>†</sup> The area of Crown lands under cultivation in 1887 was 5,168 acres; in 1883, 5,011 acres; in 1880, 4,610 acres; in 189, 4,874 acres; in 1891, 5,460 acres; in 1892, 5,487 acres; in 1893, 7,702 acres; in 1894, 7,942 acres; and in 1895, 16,305.

NOTE.—The figures for the years 1881 to 1894 have been adjusted since last issue, as it became evident that during the period certain Crown Lands had been returned by occupiors as allenated holdings.

a and $b$ )	23,485,372	27,529,151	51,348,848	107,313,371
Balance	32,014,628	27,930,849	28,623,302	86,568,779
Area in occupation, but leased for short terms* .	. 12,555,338	26,335,780	24,318,954	63,210,122
Area not held under any form of lease, including road, stock routes, unoccupied reserves, &c.	19,459,240	1,595,069	4,304,348	25,358,657

<sup>\*</sup>There are 44,332,599 acres held under occupation license and annual lease, and 18,616,892 acres under pastoral lease in the Central Division. The last-mentioned leases terminate during 1895; but, in accordance with section 43 of the Act of 1889, renewals have been granted for various short terms. Leases of the following areas will expire during the year mentioned:—

1895							3,767,145 ac	eres.
1896			••				516,614	••
1897	• •	• •		• •	• •	• •	1,226,315	**
1898 1899	• •	• •	• •	• •	• •	• •	1,338,559	**
1900	••	• •	•••	• •	• •	••	1,216,152 10,444,633	**
1901	• • •		••			•••	46,053	,.
	Total						18,555,501 a	

Notwithstanding these renewals, however, the Act of 1895 provides for the withdrawal of half each leasehold to uncet the requirements of settlement as they arise, compensation being allowed in the form of a further extension of lease for the other portion. PART V.—(SECTIONS II, III, IV, AND V.)

#### No. 26.—AGRICULTURAL DEPARTMENT—OPERATIONS.

#### AGRICULTURAL COLLEGE EXPERIMENTAL FARMS AND NURSERY.

Hawkesbury Agricultural College and Farm.—The buildings and furnishings of this College and Farm, now in their fourth year of existence, are approaching completion. At present the buildings occupied by the students are remote from the operations of the farm. During 1894 there were 55 students enrolled, one being non-resident, and 16 were awarded the College diploma, which is accompanied by the "Burdekin" medal, founded by Mr. Sydney Burdekin. The Minister's and the Principal's prizes (gold medals), as well as book prizes for various subjects, are awarded annually. Theoretical and practical instruction is afforded by experts in every branch of agriculture, and experimental work is carried on with creat and other crops, fertilisers, the analyses of soils, dishorning and spaying of cattle, etc. The live stock belonging to the farm and college during 1894 consisted of 27 horses, 12 bullocks, 242 dairy cattle, 36 pigs, and 15 sheep. The principal operations were:—

Acres.	Crop.	Yield per acre.	Acres.	Crop.		Yield per acre.
137	Oats and wheat	 25 cwt.	25	Turnips		4 tons.
16	Lucerne	 2 tons.	2	Linseed		3 cwt.
30	Sorghum	 7 ,,	1	Buckwheat		5 bushels.
55	Maizo	 50 bushels.	9	Pumpkins	••	3 tons.
30	Barley	 15 ,,				

An orchard 30 acres in extent, and a vineyard of 10 acres have been planted, and the growing of plants for scents has been commenced. Dairying is carried on, the yield of milk for 1894 being 18,821 gallons. Instruction is given in cheese-making, general dairy work, and the management of poultry and bees. The students are also taught to kill and dress sheep carpentry and blacksmith's work, fencing, and mechanical trades.

Murrumbidgee Experimental Farm.—This farm is situated near the town of Wagga Wagga, and although only recently established, about 9½ miles of boundary fencing have been erected, and the experimental paddock of about 110 acros has been enclosed with rabbit-proof wire netting; about 76 acres have also been laid out as orchards and vinespards, and several thousands of trees and vines planted. There is no natural water supply, but a large tank has been excavated. Experiments have been made with wheat (over 400 varieties having been sown to test their rust-resisting capacities), rye, barley (especially malting varieties), peas, turnips, potatocs, tobacco, sorghum, millets, sugar-beet, cow peas, and other crops. Seeds are sent from the farm for distribution amongst farmers in different localities, not a few of whom attended by special invitation at the farm on 1st December, 1894, to test the results of the experiments made in wheat culture.

Richmond River Experimental Farm.—This is situated at Wollongbar, on the southern side of the road from Lismore to Ballina. Experiments are conducted with the view to determine the most suitable fodder plants for these districts; and many varieties of sugar-cane, some procured from Jamaica, as well as different semi-tropical and tropical plants and fruits, have been planted in order to test their value and suitability.

Plantation Trial Stations.—Advantage has been taken of some of the Artesian Bores in the arid country between the Darling River and the Queensland Border to show what crops and trees can be grown in those districts by means of irrigation. Plantations of fruit and forest trees, date palms, sugar-cane, cereals, grasses, and potatoes, have been made at the following stations:—

Plantation Sta	tion.		Road where situated.	Plantation Station.		Road where situated.
Native Dog Bore	••		Bourke to Barringun.	Byerock Tank		Byerock.
Berringun Bore			,, ,,	Waddell Tank		Bourke to Byerock.
Belalie Bore		••	1) ))	Moongulla Bore		Collarendabri to Angledool.
Enngonia Bore	••		Enngonia.	Dingle Ridge Bore		,, ,,
Coolabah Tank			Coolabah.	Pera Bore		Bourke to Wansaring.
					- 1	

Irrigation Blocks.—At the Pera Bore an area of 640 acres has been sub-divided into 20-acre blocks, and offered on lease as irrigation farms. If this experiment prove successful, it is intended to take similar action at some of the other bores.

#### Sericulture.

Booral Mulberry Plantation.—At Booral, near Newcastle, in order to test the practicability of sericulture being made a profitable industry, the Government has rented a plantation of white mulberries 13 acres in extent, for a period of three years from September, 1894, and silk worms are being reared. At the expiration of the lesse it is proposed to continue the operations at the Hawkesbury Agricultural College Farm, where a large number of white mulberry trees have been planted.

New Italy.—At the settlement of New Italy, near the Richmond River, a number of Italian families who arrived in the Colony in 1881, on the failure of the Marquis de Ray's scheme for the colonisation of New Ireland, have planted considerable area with white mulberry trees, and have initiated sericulture with prospects of its developing into a profital industry.

Government Grant.—During the year 1894 a special grant of £200 was voted in aid of the Women's Co-operation of New South Wales.

## No. 27.—AGRICULTURAL, PASTORAL, and HORTICULTURAL SOCIETIES—Incomes and Government Subsidies, 1894.

Subsidies to Agricultural Societies.—The sum of £10,000 was voted by Parliament for 1996 to meet the expenses of subsidising the Agricultural, Pastoral, and Horticultural Societies of New South Wales. The amount of subsidy granted is in the proportion of 10s. for every £1 raised by subscriptions and donations, but a society is not entitled to receive any subsidy unless the subscriptions of members during the year amount to at least £100.

#### No. 50.—RABBIT EXTERMINATION.

"The Rabbit Muisance Act of 1883."—This Act (46 Vic. No. 14) came into operation on 1st May, 1883. Under its provisions a tax was imposed on stockowners having not less than 200 horses or cattle, or 1,000 sheep, at a rate not exceeding 14d, per head of large stock and 1d, per sheep. In addition to the amount of the tax the owners or occupiers of the land had to contribute at least 25 per cent. of the total amount expended. It was also found necessary to supplement this revenue by £503,786 from the Consolidated Revenue during the period the Act was in operation.

"The Rabbit Act of 1890,"—From 1st July, 1890, to 31st December, 1894, the Government expenditure on account of the rabbit pest has been limited to the sum of £22,761, under the provisions of "The Rabbit Act of 1890" (54 Vic. No. 29), and almost the whole of this has been devoted to the erection of rabbit-proof netting.

and almost the whole of this has been devoted to the erection of rabbit-proof netting.

Wire Metting Fences.—A wire netting fence, 346 miles in length, following the boundary between New South Wales and South Australia, has been erected by the Government of the former Colony, the cost of the repairs of which are shared by the Government and the owners of the holdings adjoining the fence. On the northern boundary a similar fence was erected by, and at the sole expense of, the Queensland Government, which also undertakes its maintenance. The supervision of the Eastern Barrier fence, which follows the railway line, has been undertaken by the Railway Commissioners. The fences along the western side of the railway line, extending from Narromine in the west to Corowa in the south, have also been rendered rabbit-proof. It is estimated that the total length of fencing erected is 14,500 miles.

#### No. 51.-WATER CONSERVATION.

#### PUBLIC WATERING-PLACES.

On the 31st December, 1894, there were 215 Public Watering-places, consisting of Dams, Tanks, Wells, and Bores; of these 105 were leased at rentals ranging from £1 to £126 per annum. The leases were let by public tender, and the tenants were permitted to take stock on agistment; to depasture a limited number of their own; to cultivate the land, and to retain the fees charged for the watering of stock. On the same date 31 were unleased and placed in charge of caretakers, who remit to the Treasury all moneys collected; 3 were placed under Trustees, and 31 were open watering-places.

#### No. 53.—FISHERIES.

"The Fisheries Act, 1881" (44 Vic. No. 26), which repealed Acts 28 Vic. No. 10, 31 Vic. No. 10, and 31 Vic. No. 20, was the first formal attempt to legislate with the view of protecting the natural supplies of fish (including oysters, lobsters, and prawns) and to regulate and control their capture. This Act, as amended May, 1883 (46 Vic. No. 25), regulates the description and mesh of nets that may be used, provides for close seasons, the issue of licenses, imposition of penalties, etc. The administration of the Act is entrusted to five Commissioners, appointed by the Governor-in-Council, whose term of office is five years, and whose jurisdiction extends over the entire Colony. The "Sunk Nets Act" (56 Vic. No. 15) and the "Fisheries Act Amendment Act" (58 Vic. No. 4) were passed as Supplementary Acts during the years 1892 and 1894 respectively.

Divisions of Fisheries.—The fisheries on the seaboard are distributed into three divisions—the Home, the Northern, and the Southern; and the Inland Waters Fisheries comprise Lake George, The Murrumbidgee, The Darling, and The Murray.

Sales of Fish.—The amounts realised were £29,647 during 1893, and £25,368 during 1894.

Fish Condemned.—The quantities of fish condemned during 1894 were: Under size, 14 baskets; unfit for food 1.076 baskets.

Private Fish Markets.—Two other fish-markets are held at Redfern, Sydney—one is private, and the other is conducted on the co-operative principle. Returns for 1893 and 1894 were not procurable.

"Oyster Fisheries Act, 1884" (48 Vic. No. 6).—Under this Act the Commissioners grant leases on the following conditions:—(1.) No leased area measured along the foreshore shall exceed 2,000 linear yards. (2.) Deep water or natural oyster beds shall not exceed 25 acres, or be leased at a less annual rental than £2 per acre. (3.) The term of any leased area shall not exceed 15 years, renewable from time to time during the 12th year. Any portion of the shore of a tidal water (not exempted or created a public oyster reserve under the Act), may be taken on annual lease, the rental being fixed at £1 for every 100 yards or portion thereof. During 1891, 20 applications for leases of from 100 to 1,000 yards, representing a total of 4,560 yards, were made; the deposits paid on these applications amounted to £47. The rentals received from leases for 1894 were £1,488.

## No. 55.-MINERS' RIGHTS, MINERAL and BUSINESS LICENSES, 1890-4.

Miners' Rights, Mineral and Business Licenses are issued under the 1884 Mining Act. The annual fee for the first mentioned is 10s., and £1 for each of the others. A Miner's Right entitles the helder to mine for gold only, while a Mineral License confers on the helder the power to mine for all minerals other than gold. Any helder of a Business License or Miner's Right is allowed to take up an area of \(\frac{1}{2}\) acre of Orown Lands within town boundaries and 1 acre outside those limits, under certain conditions.

### No. 57.—DIAMOND DRILLS.

Terms for using Diamond Drills.—These drills are lent to private persons upon payment of (1) £2 2s. for cost of inspection; (2) £22 per week for cost of diamonds, and wear and tear of machinery; (3) Wages of the foreman and his assistants; (4) Cost of tubes damaged or destroyed or that cannot be withdrawn from the bore. In lieu of the above, arrangements may be made for the work to be done at a fixed price per foot for various depths. In all cases the cost of the carriage of the machinery to and from the boring site must be paid by the applicants. The Minister has power to reduce these rates under certain conditions by any sum not exceeding 50 per cent.

# PART VI.—MANUFACTORIES AND WORKS.

## No. 1.—Manufactories and Works of each kind—Number of WORKS and HANDS EMPLOYED in the Metropolitan and Country Districts, 1884-94.

In this and all subsequent tables only establishments at work during the whole year are included, the only exception being in the case of Sugar Mills. (See Note to Table No. 17).

The establishments referred to in this part are those which would fall under the operations of a Factories Act if such were in force. The total number of hands employed in the manufacturing industries is larger than herein shown; single workers are not included, nor for the most part are hands employed in workshops not using steam or other power, unless such establishments employ more than 5 hands. At the Census of 1891 there were approximately 53,200 persons employed in the enumerated industries, as compared with 46,135 shown in the Statistical Register for the same year.

<sup>\*</sup>The returns of this year as they were published in the Statistical Register of 1892 showed a total of 48,632 hands. This included a number of persons engaged in trades of which returns were obtained under the provisions of the "Census and Industrial Returns Act." These were not included in other years, and they have therefore been omitted from this

comparative table.

Previous to 1892 the statistical year ended March 31st; thus 1884-1885 refers to the year beginning on April 1st, 18 an lending March 31st, 1885. For 1892 and subsequent years the statistical year coincides with the calendar year.

### No. 6.—Manufactories and Works of each kind—HANDS EMPLOYED in some of the principal industries, 1884-94.

Establishments where more than one Industry is carried on.—When more than one kind of work is carried on in one establishment, it has frequently been found impossible to distinguish the number of hands engaged in the various industries—in such cases the total has been credited to the principal industry.

Manufacture W-1					Hands er	nployed.

### No. 19.—TOBACCO FACTORIES—HANDS EMPLOYED, LEAF used, TOBACCO, &c., manufactured, and Power and Value of Plant, 1886-94.

Tobacco manufactured from locally-grown leaf.—The figures representing the New South Wales grown leaf are obtained by subtracting from the total quantity of tobacco manufactured the weight of the imported leaf used. It is probable the figures are too high as ingredients other than tobacco leaf are used in the making of tobacco.

	actories.	Hands employed			Tobacco I	Leaf used.	Tobacco, C	garettes		Plant or schinery.

### No. 21.—RATES OF WAGES paid per week in various Trades and Occupations, 1894.

Note—Piecework.—In the numerous instances in which work is done and paid for as piecework, weekly rates of wages have been calculated on the assumption that a week is equal to forty-eight hours' work, and the rates quoted show, therefore, the amount of wages which would be earned by workmen doing a full week's work.

Note. — In all Government contracts a minimum rate of wages to be paid is set out, forty-eight hours being considered as a week's work. On it being proved that any contractor, or in the event of any portion of the work being sub-let, any sub-contractor, is paying a lower rate than has been set out, the Minister has power to cancel the contract. The minimum rates to be paid are decided according to the locality and other circumstances affecting each particular contract. No standard rates for general use have been fixed. Only the year of the separation of the Colony of Victoria, the population of the District of Port Phillip is not included in the figures here presented.
Separation of Victoria and Queensland.—The figures in the above table are for what constituted New South Wales

Census Report. - For particulars of the Muster of 1821, and the eleven Censuses which followed, see the Statistician's Report on the Census of 1891.

Separation of Victoria and Queensland.—The figures in the above table are for what constituted New South Wales at each of the dates given, so that what are now Victoria and Queensland are included in the total for each year prior to the separation of these Colonies. Victoria was separated from New South Wales on the 1st July, 1851, and Queensland on the 10th December, 1859.

## No. 3.—CENSUS of 1891.—Population in DIVISIONS.

For fuller information see "Census 1891, Statistician's Report."

Lord Howe Island.—This island (situated 436 miles N.E. of Sydney) is a dependency of New South Wales.

Aborigness.—The aboriginal population for the Census years cannot be compared, as the number counterated in 1881 only included those who were civilized or in contact with Europeans.

Chinese.—In 1881 the Chinese numbered—males, 10,141; females, 64; total, 10,206; and in 1891, males, 13,575 females 601; total, 14,156—which shows an increase of males, 3,414; females 537; total, 3,951.

No. 4.—CENSUS OF 1891.—Population in MUNICIPALITIES.

Boroughs and Municipal Districts—Municipalities Act.—Under the provisions of Act 31 Vic. No. 12 the Municipalities were divided into two classes, Boroughs and Municipal Districts, although the name of "Municipality" i common to both Institutions. A borough shall, upon its first incorporation, contain an area of not more than 9 square miles with a population of not less than 1,000; a numnicipal district must not exceed 50 square miles, and shall contain a population of at least 500. The boundaries of each class of division must not overlap.

Svdnev-The City of Sydney is classed as a Municipality, but is incorporated under pecial Act.

Aboriginas The Abo	and and as a 1				<del></del>	· · · ·		4				000 41

Aborigines.—The Aboriginal population was not included in the Census of 1861, while in 1871 and 1881 the wandering tribes were passed over, and only those who were civilized or in contact with Europeans were enumerated. It is probable that the numbers for these years were, approximately—in 1861, 15,000; in 1871, 12,000; and in 1881, 10,000.

No. 9.—CENSUS of 1891.—AGES.

Aborigines.—The 1861 and 1891 returns are exclusive of Aborigines; the 1871 and 1881 figures, however, include those who were enumerated. See explanatory note, Table No. 8.

Read and Write and Read only in a Foreign Language.—Under the headings of Read and Write, and Read only, the 1891 return includes, as the former part of the Table shows, those who have been educated in a foreign language only. In previous censuses this information was not obtained.

## No. 12.—CENSUS OF 1891.—OCCUPATIONS.

For fuller information see "Census of 1891, Part 8, Occupations."

Aborigines.—The Aborigines are not included for the years 1861 and 1891; but for 1871 and 1881, while the wandering Aborigines were passed over, those who were civilized or in communication with Europeans were enumerated, so that the totals for 1871 and 1881 include 983 and 1,643 Aborigines respectively. In the above table also those unspecified as to conjugal condition have been distributed by proportion amongst the other numbers.

#### Excess of Immigration over Emigration, by Sea (as recorded).

Excess of Immigration.—It is believed that not a few persons leave New South Wales without their departure being recorded; the figures given, therefore, are somewhat in excess of the truth.

Chinese Immigration.—Under Act. 52 Vic., No. 4, passed in the year 1888, no Chinese, unless exempted by the Act, are allowed to enter New South Wales either by see or land without the payment of a tax of £100 each. The exemptions are—Chinese who are British subjects by birth, who have been naturalised in New South Wales, or those who arrive on a special mission under the authority of the British or Chinese Governments, and members of crows of vessels who land in the performance of their duties. Naturalisation of Chinese in New South Wales is now prohibited by the Act. Chinese naturalised in other Colonies are not entitled to the right of British citizenship in New South Wales.

#### No. 19.—STATE-ASSISTED IMMIGRANTS-1832-94.

State-Assisted Immigration.—General State-assisted immigration ceased in the year 1887, but those who arrived under that system, and are still residing in New South Wales, may, under special regulations, send for their wives and families. All the immigrants who arrived during 1894 were nominated in the Colony. Reference may be made to records relating to the arrival of immigrants since 1832, and copies of certificates of birth, &c., may be obtained by immigrants at the office of the Immigration Agent, Chief Secretary's Department, Sydney.

Expenditure, 1894.—During 1894 the amount expended on State-assisted immigration, exclusive of office expenses, was 28,108. Of this sum the proportion raid by immigrants amounted to 6010 method the context of t

Expenditure, 1994.—During 1894 the amount expended on State-assisted immigration, exclusive of office expenses, was 22,108. Of this sum the proportion paid by immigrants amounted to £210, making the net cost to the State £1,898. The amount of passage money required to be paid by each person is graduated according to age, and ranges from £1 for children 3 years and under 14 to £15 for married persons over 40 years of age, and unmarried persons over 35 years of age.

Beligions of State-Assisted Immigrants.—The only classification of religions made by the Immigration authorities is that shown in the above table.

## No. 20.—NATURALISATION.—Persons of EACH NATIONALITY Naturalised in New South Wales, 1849-1894.

Esturalisation Act.—The first Act empowering the Governor to grant letters of naturalisation in New South Wales was assented to in 1828 (9 Geo. IV, No. 6). The next important Act passed was 11 Vic., No. 39, as amended by 17 Vic., No. 8. This was repealed in 1876 in lavour of the Act now in force (39 Vic., No. 19.) An alien who has resided in New South Wales for a term of not less than five years may apply to the Governor to be naturalised. Should a certificate of naturalisation be granted, the applicant must take the cath of allegiance prescribed by the Act. The Chief Secretary is required to record all certificates of naturalisation, and to receive a fee of one pound for each certificate issued. The register of certificates of naturalisation that have been granted may be inspected upon payment of a fee of one shilling.

Maturalisation of Chinese.—A clause in the Chinese Immigrants Regulation and Restriction Act of 1961 (25 Vic. No. 3) provided that certificates of naturalisation should not be granted to Chinese. The Act was, however, repealed on the 20th November, 1967, but since the date of the passing of the Chinese Restriction and Regulation Act of 1888 (52 Vic., No. 4), no certificates of naturalisation can be issued to Chinese in New South Wales.

Maturalisation Certificates.—Certificates of naturalisation granted in other Colonies do not confer the right of British citizenship in New South Wales.

#### MARRIAGES BY MINISTERS OF RELIGION AND DISTRICT REGISTRARS, 1885-94.

Marriages by Ministers of Religion.—At the close of 1894 there were 1,130 Ministers of Religion registered under Act 19 Vic. No. 34 for the celebration of marriages.

Marriages by District Registrars.—In addition to registered Ministers of Religion registered in accordance with the Act, District Registrars appointed by the Government for the registration of Births, Marriages, and Deaths may perform the marriage ceremony, conditionally that the persons about to be married declare that they conscientiously object to be married by a Minister of Religion.

# No. 24.—MARRIAGES.—DIVORCED PERSONS RE-MARRIED during each year, 1885-94.

Divorce.—Under Act 55 Vic., No. 37, assented to 9th May, 1892, and 56 Vic., No. 36 (18th June, 1893), the grounds on which Divorce may be granted have been largely extended, and to the causes previously existing, viz.:—Adultery since marriage on the part of the wife, and adultery and cruelty on the part of the husband, there have been added desertion, habitual drunkenness with cruelty and neglect, &c., in gaol under conviction, and violent assaults. This explanation accounts for the increase since 1892 of the number of marriages dissolved. See also Divorce returns, Part VIII, Statistical Register, "Law and Crime," and statistics in reference to Divorced persons published in the supplement to Statistical Register, "Vital Statistics."

Re-marriages.—The number of those persons who were divorced in New South Wales, and again married in the Colony, cannot be separated in the following table, which shows the Re-marriages of persons who had been divorced either in New South Wales or elsewhere.

Year.	Marriages Dissolved, (Decrees		l Persons wh Re-married.	o were	Year.	Marriages Dissolved. (Decrees		d Persons wi Re-married.	o were

Suicides.—The number of suicides in this table does not agree with the verdicts at inquests as given on the next page, for in many instances where an open verdict was returned the case has been tabulated "accident" or "suicide" according to the weight of evidence.

#### No. 28.—DEATHS.—INQUESTS and Magisterial Inquiries as to CAUSES of **DEATH, 1894.**

Inquests.—In all cases of violent and unnatural deaths, casualties by which death ensues, sudden deaths, persons found dead, persons dying in gaols, lock-upe, and hospitals, persons committing suicide, and persons executed in gaols, it is the duty of the Coroner of the district to cause an inquest to take place, if he have reasonable grounds to believe that death was caused by violent or unnatural means. In all cases of deaths in gaols inquests must be held. A Coroner is empowered to issue a warrant for the exhumation of a body, to summon jurors and witnesses, and to commit persons for trial who have been found guilty, by a jury, of murder or manslaughter. See Part VIII, "Law and Crime."

Magisterial Inquiries.—In a district where no Coroner has been appointed, or is unable to hold the usual inquest, a Magistrate may hold an inquiry; but, owing to the fact that he is not empowered to commit a suspected person for trial, he must terminate the inquiry, in all cases where facts are disclosed which point to the criminality of a person, and then direct the Police to prosecute at the nearest Police Court.

### No. 3.—DEPARTMENTAL POLICE DISTRICTS.

Departmental Police Districts.—The Colony is divided into ten Departmental Police Districts, each of which is in charge of a Superintendent of Police; these districts are subdivided into sub-districts in charge of an Inspector or Sub-inspector of Police. The head-quarters and sub-districts and the police force attached to each district are shown in the following table. The numbers given for the Metropolitan District include 14 Detectives and 41 Constables in course of instruction, under orders for transfer, &c.

Gazetted Police Districts.—The Departmental Police Districts (Inspector-General's Office) are in no way identical with the gazetted Police Districts (Department of Justice), as several of the latter are contained in one of the former, while the boundaries of each class are in no way common. The number of gazetted Police Districts on 31st December, 1894, was 95, and the number of Courts of Petty Sessions 231.

Police Reward Fund \ For amounts to credit, and description of Funds, see Part III., Public Finance, pp. 330 Superannuation Fund \ and 331.

# No. 5.—APPREHENSIONS and POLICE SUMMONSES—(Males).

Persons accused of Crime.—A person accused of an offence is either apprehended by the Police or proceeded against by private or Police summons. With the exception of those committed by Supreme Court Judges, Chairmen of Quarter Sessions, and Coroners, all persons whose names are entered on the charge-sheet of the Police must be brought before a Magistrates' Court, to be dealt with summarily or committed to the Quarter Sessions or Central Criminal and Circuit Courts.

Charge Cases and Police Summonses.—The statement of charges and summonses made by the Police differs from that obtained from the Magistrates' Courts, as the Police have excluded all cases withdrawn and struck out; the returns of Courts of Petty Sessions, however, include these cases.

DISPOSAL OF CASES, 1885-94.

Decrease in Apprehensions and Police Summonses.—The returns for 1894, both as regards apprehensions and summonses, exhibit a falling off, the latter especially so. Prior to 1894 it was the custom of the police suthorities to include the cases remanded every time they came before the Court; in 1894 such cases appear once, and only in the district in which the cases were finally dealt with. The cases withdrawn and struck out are also excluded from the 1894 returns. The large decrease in the police summonses is owing to the returns being limited to summonses initiated and prosecuted by the police, summonses, in which the police initiated only, which were included in former years, have been omitted.

Disposal of Police Summons Cases .- Prior to 1893 no Returns were collected showing how Summons Cases were disposed of.

Apprehensions, 1894.—According to the returns furnished by the police, there were 39,380 cases summarily dealt with during 1834 in which arrests were made. Similar returns from the Magistrates show 38,870 cases (page 637), or 510 less than the number given by the police. For comparison purposes the returns of Magistrates' Courts should be accepted.

# No. 7.—APPREHENSIONS and POLICE SUMMONSES—continued.

Police Summonses—Religions—As the "Description Books" do not disclose any further information with reference to police summonses than the nature of cases and how disposed of, it is impossible to supply a return of Religions.

# No. 9.—MAGISTRATES' COURTS.—CASES Summarily dealt with during 1894.

Magistrates' Courts.—The Magistrates' Courts or Courts of Petty Sessions in the Metropolitan District are presided over by six Stipendiary Magistrates who were appointed under Act of 1881, (46 Vic. No. 17), and in the Country Districts Police Magistrates and Justices of the Peace adjudicate, the latter being honorary officers. Police Magistrates are salaried officers, appointed under the provisions of Act 20 Vic. No. 32, to act in concert with the honorary Justices of the Peace in Country Districts. When sitting alone, they can exercise the powers and jurisdiction otherwise conferred by law only on benches consisting of two or more Magistrates. The jurisdiction of Magistrates is limited to offences involving a penalty of six months imprisonment and under in all cases except those under the "Distillation Acts" and the "Customs Regulations Acts," when sentence of twelve months can be imposed, and two years for cases under the "Chinese Restriction and Regulation Act of 1888," and the "Children's Protection Act 1892." All persons, except those committed by Supreme Court Judges, Chairmen of Quarter Sessions, and Coroners, who are entered on the charge sheet of the police must be trought before Magistrates to be by them summarily dealt with or committed to the Courts of Quarter Sessions, or Central Criminal or Circuit Courts.

Criminal and Quasi-Criminal Invisation—The number of Courts of Courts of Quarter Sessions, or

Criminal and Quasi-Criminal Jurisdiction,—The number of cases given in the table includes all those cases within Criminal Jurisdiction, and also those within Quasi-Criminal Jurisdiction, that is to say, cases in which orders have been made, and the persons to whom the order was made against have been imprisoned for disobeying or neglecting to obey the orders of the Court.

Police Summonses.—The police summonses given represent only those summons cases which the police initiated and prosecuted.

Metropolitan Courts.—For Magistrates Courts in the Metropolitan area, see Table No. 11, page 639.

Apprehensions, 1894.—According to the returns furnished by the Magistrates there were 28,870 cases summarily dealt with during 1894 in which arrests were made.

Similar returns from the Police show 39,380 cases (page 631), or 510 more than the number given by the Magistrates.

For comparative purposes the Magistrates return—as shown above—should be accepted

### PART VIII .- Section I.

### No. 9 .- MAGISTRATES' COURTS-continued.

\* Whipping.—Under the Criminal Law Amendment Act (46 Vic. No. 17), provision has been made for whipping as an additional punishment, chiefly for offences classed as wanton and unprovoked assaults and indecent exposure. The Corr. adjudicating must, however, consist of two or more Justices, one of whom shall be a Police or Stipendiary Magistrate. In the Metropolitan District the cases are decided before two Stipendiary Magistrates.

### AMOUNT OF FINES PAID EACH YEAR, 1885-94.

Maximum Fines.—Under the Distillation Act a fine of £100 may be imposed, and under the Chinese Restriction and Regulation Act a penalty of £500 may be inflicted for each Chinese in excess of the number fixed by the Act, carried by a vessel arriving in New South Wales.

Fines paid to Municipalities, &c.—The figures in the subjoined table are exclusive of fines paid to Municipalities, Transit Commissioners, informers, &c.

# No. 10.—MAGISTRATES' COURTS.—PERSONS brought before the Courts during 1894.

Persons Committed for Trial.—The Returns of Courts of Quarter Sessions (Table No. 12, page 641), and the Central Criminal and Circuit Courts (Table No. 14, page 644), show that 1,372 persons were dealt with, while the number committed for trial at Magistrates' Courts was 1,493. The last mentioned returns include persons tried and those awaiting trial, while the Superior Court returns include only the number dealt with. The returns of the Magistrates' Courts, however, are somewhat overstated, as in some instances persons committed on more than one charge appear once for each offence

### No. 14:- CENTRAL CRIMINAL AND CIRCUIT COURTS.

Central Criminal Court.—A Judge of the Supreme Court presides over the Central Criminal Court held at Sydney. Al accused persons are tried by a jury of twelve. Under Section 336 of the "Criminal Law Amendment Act" the right to challenge jurors was extended to misdemeanors as well as felonies. The limit both to the Crown and the accussed is fined it is in all cases other than capital for which the right of challenging is extended to 30. The verdict of the jury most is manimous. If a verdict is not arrived at the prisoner is liable to be tried again by another jury.

Circuit Courts,—In addition to the Civil and Criminal Sittings of the Supreme Court at Sydney, the Judge preside over Circuit Courts in civil and criminal jurisdiction at 15 centres in different parts of the Colony, the causes in the Civil jurisdiction are however confined to Common Law and Divorce. Causes in Equity, Probate, and Eankruptey, a well as the transactions of the Vice-Admiralty Court, are heard in Sydney only.

### No. 16.—PERSONS CONVICTED—ALL COURTS, 1890-4.

Persons Committed for Trial and the number dealt with.—The Magistrates' Returns include persons tried and those awaiting trial, while those of the Superior Courts include only the former. The number awaiting trial is, however, overstated, as in some instances persons committed on more than one charge appear once for each offence.

Persons-Not cases,-Prior to 1893 the returns did not distinguish cases from persons.

### PROPORTION CONVICTED IN EACH JURISDICTION.

Decrease in Returns of Magistrates' Courts.—Prior to 1804 the returns of Magistrates' Courts were overstated by the inclusion, in many instances, of cases instead of persons, remands from other courts, and orders of justices, which should not have been included in either criminal or quasi-criminal jurisdiction.

# No. 18.—DISTINCT PERSONS Committed to Gaols under Sentence DURING

1894, Distinguishing the NUMBER Convicted ONCE, TWICE, &c.

Licenses (Ticket of Leave).—See Table No. 32, page 666.

First Offenders' Probation Act of 1894 (57 Vic. No. 23).—Under the provisions of this Act a person, convicted on the first offence, may be set at liberty on certain conditions instead of being sent to prison. Although the sentence is to be passed in the usual form, the Court has power to suspend its execution, upon the offender entering into a recognizance with or without sureties, for his good behaviour, for a period of not less than twelve months. The offender is examined for the purpose of future identification, and must report himself to the police at least once in every three months. Should he fail to do so, or seriously misconduct himself during the period of probation, he is liable to be arrested, committed to prison to complete his sentence, and the recognizance forfeited. If, however, his conduct has been satisfactory, he shall be discharged from the sentence and the conviction for which it was imposed shall not be brought against him on any subsequent occasion.

Others.—Under this heading are included all occupations represented by less than five persons, and those described as being "of no occupation."

# No. 23.—PERSONS (Males) committed to Gaols UNDER SENTENCE (counted once every time they were received), and TERMS of IMPRISONMENT, 1894.

Comptroller-General of Prisons.—Under Act 37 Vic. No. 14, the office of Comptroller-General of Prisons was established, and prison regulations are enforced under the Prisons Regulations Act of 1840 (4 Vic. No. 29).

Terms of Imprisonment.—The terms of imprisonment for the several offences are defined in the Criminal Law Amendment Act of 1883 (46 Vic. No. 17) and the Criminal Law and Evidence Amendment Act of 1891 (55 Vic. No. 5).

Licenses-Ticket of Leave,-(See table No. 32, page 666.)

Remission of Sentences.—Prisoners, by continuous good conduct and industry, become eligible for a remission of sentence, in proportion to the term served by them, in accordance with the following scale:—In cases of cumulative sentences, the united period shall be deemed the term of sentences. Sentences not exceeding five years, a service of five-sixths; sentences beyond five, but not exceeding ten years, a service of three-fourths of the term, except in sentences commuted from capital convictions, and prisoners serving sentences not exceeding twelve months. Prisoners under such sentences, however, are not debarred from having the circumstances of their cases taken into consideration. The figures given in Table No. 32 include persons obtaining remissions but not those out on licenses.

## No. 25.—CLASSIFICATION of SENTENCES of persons (counted once every time they were received) committed to Gaols under Sentence during 1894.

Penal Servitude.—Penal servitude is not awarded if the term of imprisonment is less than three years. In the case of male prisoners it is taken to mean hard labour on the roeds or other public works, and for female prisoners hard labour in gaol. This punishment is practically the same as that of hard labour.

Hard Labour.—Prisoners under sentence of hard labour are, after examination by the Medical Officer, placed to work at occupations which the gaol authorities consider come within the meaning of the sentence.

Without Labour (Imprisonment only).—Prisoners undergoing a sentence of imprisonment without labour are treated differently to others, and, if they entirely maintain and clothe themselves, are exempted from any work; otherwise they contribute to their own support by performing such labour as may be provided.

Sentences to Irons.—Under section 405 of the Criminal Law Amendment Act a prisoner who has been convicted of a felony attended with violence to the person, or committed by the offender when armed, or by means of any threat, is liable to be kept in irons for any portion, not exceeding the first three years, of his term of punishment.

Commuted.
 † Persons executed. -- Five persons suffered the extreme penalty of the law during 1884, the sentences of death passed on three other prisoners having been commuted. For Return of Executions, see Table No. 20, page 664.

### PART VIII .- SECTION I.

0. 26. being itenc and persons of the General of 3

## SONERS in GAOLS on the 31st December, 1894.

AOIS.—These terms are Departmental, the only difference between the two classes of mer are larger and more important, and have greater facilities for the employment of ur, as well as for the better classification of the prisoners.

The small lock-ups which have been proclaimed gaols for the detention of short-sentenced local trial. The buildings belong to the Department of the Inspector-General of Police, but the occupies a portion for the retention of these persons. The gaolers are police constables, from the Department of the Comptroller-General of Prisons.

The principle of the treatment of the comptroller-General of Prisons.

The principle of the treatment of the comptroller-General of Prisons.

The principle of the treatment of the comptroller-General of Prisons.

The principle of the treatment of the comptroller-General of Prisons.

mination.—Persons under examination are not allowed any communication in the prison, except with it unless specially sanctioned by the Justice conducting the examination.

Debtors are not required to wear prison clothing, nor to perform work, and are treated in separate working made by the Judges of the Supreme Court.

ics.—Lunatics of the Criminal class when placed in Gaol are kept in separate wards, under the supervision of reon. They are generally transferred to the Hospital for Criminal Insane, at Parramatta, but in some cases the prisoner.——detained in the observation wards of the ordinary gaols. For number in the institution at Parramatta, as well as in ordinary gaols, see Statistical Register, Part X "Religion, Hospitals, and Charities."

# No. 27.—EMPLOYED and UNEMPLOYED PRISONERS in Gaols on the 31st December, 1894.

Trial Bay Prison and Breakwater.—Prisoners under sentences to penal servitude, or to hard labour on the real and public works, or to imprisonment with hard labour, become eligible for employment upon the public works at Trial Bay Prison under the following conditions, viz.:—Prisoners under sentences from three to five years, who have not been punished for misconduct within the previous six months, and favourably recommended by the Gaolers, at a period, twelve months before they would become eligible for discharge under the ordinary remission regulations, and a participation of such discharge; in sentences of five to ten years similarly at a period of eighteen months anterior to discharge; tences of ten years and upwards at a period of two years anterior to discharge. The Breakwater now under construct the superior of the prisoners engaged in work, who are entirally the control of the Comptroller-General of Prisons, receive small monetary remuneration, as well as being supplied with a good of the prison pattern.

Prisoners in Police Gaols.—As prisoners in confinement in Police Gaols are not employed in any class of labour they have been excluded from the above return.

No. 28.—PUNISHMENTS and DEATHS in Gaols, 1894.

Gaol Punishments.—A Visiting Justice is appointed under Act 4 Vic. No. 29 to visit each Gaol. He is empowered to hear and determine all complaints which may be made against a prisoner of disobeying the rules of the Gaol, or of having committed any offence, and may pass a sentence of confinement in a solitary cell for a term not exceeding seven days.—In the case of repeated offences, a charge made before two or more Justices of the Peace renders the prisoner liable to a sentence of close confinement for one month, and if the offence has been committed by a prisoner convicted of felony, or under sentence of hard labour, a punishment of personal correction may be awarded.

## No. 30.—PRISON ACCOMMODATION, 1894.

Parramatta Gaol Lunatic Ward.—At this gaol there is a separate lunatic ward with twenty-two separate cells, which are not included in the number given in the following table.

Trial Bay.—In addition to the accommodation shown, there are "Associated Huts" at Trial Bay Prison, in which 108 prisoners may be placed.

Separate Treatment.—Prisoners sentenced to terms of not less than three years, either to the roads or to imprisonment with hard labour, are, during the first nine months of their sentence, placed in the "Separate Treatment" Division.

## No. 32.—PRISONERS LIBERATED UPON LICENSE, 1891-4.

Licenses (Ticket of Leave)—Under section 409 of the "Criminal Law Amendment Act of 1883" (46 Vic. No. II), a person under sentence may be granted a written license to be at large within limits specified in the license, but not elsewhere, during the unexpired portion of the sentence. Sureties are required (unless under exceptional circumstances) of good behaviour and observance of the conditions of the license. The person to whom the license has been granted required to report himself periodically to the Police, and is liable to have his license cancelled and to be committed to good undergo the remainder of the sentence upon any breach of the conditions. The system was first adopted in September, 1991.

## Section II.—CIVIL JURISDICTION.

No. 33.—Particulars of LICENSES issued by Magistrates.

Licensing Districts.—The Colony is divided into Licensing Districts, which are proclaimed by publication in the Government Gazette, and in each of which a Licensing Court has jurisdiction. At the close of 1894, 114 of these districts had been so proclaimed.

had been so proclaimed.

Metropolitan Licensing Court.—The Stipendiary Magistrates for the time being, and such other person or persons as the Governor may appoint, not to exceed seven in all, of whom three form a quorum, constitute the Metropolitan Licensing Court. There are two places of sitting, viz., the Central and Water Police Courts.

Country Licensing Courts.—In the Country Districts the Court is composed of three members, one being termed the "official," and the other two "appointed" members. The "official" member is the Police Magistrate resident within or nearest to the district, if residing within 10 miles of the Court House. The "appointed" members only hold office for a limited time, but may be reappointed. With a few exceptions there is only one place of sitting in each District, and that is generally held at the town from which the District is named.

Class of License.	Act under which Issued.	Period for which Issued.	Date of expiration of License.	Annual Fee.	Amount collected, 1894.	Remarks.
Publican's	45 Vic. No. 14 and 46 Vic. No. 24.	1 year	12 months from issue.	£ 15 and 30	93,507	If no other licensed house is within 10 miles, and premises are necessary for public accommodation, the license fee is reduced to £15.
Railway Refresh- ment.	<b>,,</b>	<b>,,</b>	<b>"</b>	30	600	For the sale of liquor to travellers at approved railway stations. (See
Packet	<b>"</b>	"	"	3 to 15	144	page 46.) Passenger vessels under 250 tons pay £3; 250 and under 1,000 tons,
Booth or Stand	,,	Not exceeding 7 days, or in- cluding renew- als, 29 days.	At termination of period for which issued.	(For period for which issued.)	2,714	£10; 1,000 tons and over, £15.  Issued to holder of publican's license to sell liquor at any race meeting or other place of public amusement.
ColonialWine,Cider, and Perry.	,,	l year	12 months from issue.	3	1,500	For the sale of Wine, Cider, or Perry, the produce of fruit grown in an Australian colony, in quan- tities not exceeding 2 gallons. ## LICENSES UNDER THE "DISTILLATION ACT," 1894.

(Granted by Customs Department.)

Distillation Act.—Distillation can only be carried on, under the Distillation Act, in such places as shall be licensed by the Governor of New South Wales, and appointed by proclamation published in the Gazette. The fees for Licenses are charged proportionately from date of issue to 31st December each year. Such Licenses are remeable annually at the Treasury on receipt of a certificate from the Chief Inspector of Distilleries. The Act provides for the issue, free of charge, of Licenses to distil naphtha, to the Australian Gas Light Co., and to any other company or person manufacturing coal gas.

License to distil Spirit	3.	License to distil Scent, or for scientific purpose.	or any	License to Apothecaries, for medical purposes.

### SLAUGHTERING LICENSES.

Slaughtering Licenses.—During 1804 the control of these licenses was placed under the Board of Realth. See further particulars, Table No. 83, page 667.

## No. 36.—LOCAL OPTION Vote, 1895.

Local Option.—Under the provisions of the Licensing Act of 1882 (45 Vic. No. 14), as amended by the Licensing Act of 1883 (46 Vic. No. 24), a local option vote is taken every three years in every Municipality, or Ward of a Municipality, at the election for Alderman, in which the ratepayers may vote either "Yes" or "No" on two questions:—(1) Whether as new publicans' licenses shall be granted during the ensuing three years in that Municipality or Ward, and (2) Whether as removals of publicans' licenses shall be allowed within the same period. It is necessary that there shall be a majority of over eleven-twentieths of the votes polled to make the vote operative in the negative. At the polls that have hitherto best taken only a small proportion of the voters have exercised their local option votes.

Triennial Vote.—Although the local option vote is taken once in three years in every Municipality or Warl of a Municipality, the year when it is taken is not the same in all. The following table shows those Municipalities and Wards where the vote was taken during 1895:—

	Municip	ality or	Ward.			N	(1.) ew Publica: Licenses.	ns'	Publ	(2.) Removal o icans' Lice	( 11 <b>666</b> .

### No. 38.—SHERIFF—Transactions, 1894.

Sheriff.—The duties of the Sheriff include the provision of everything necessary for the preservation of order in the Supreme Court. The Sheriff must be present personally or by deputy at all Jury Courts throughout the Colony, and whenever Criminal Courts are sitting at Darlinghurst, he is in constant attendance. It is his duty to execute all process in Supreme Court writs of ha. fa., ft. fa., and warrants of estreat, and to deal with fines and the recovery of fines. The Sheriff has charge of all imprisoned debtors and prisoners under committad to trial, and makes the arrangements necessary for the execution of prisoners sentenced to death. With the exception of juries required at District Courts, all juries in civil and criminal cases are summoned by and are under the charge of the Sheriff.

## No. 39.—JURORS Summoned and Allowances paid, 1894.

Jurors.—Common and Special jurors are liable to be called upon to serve once in each year for the Civil Courts. The qualification for the Common jury is a yearly income of at least £30, or property to the value of £300. For the Special jury owners or tenants of property of a yearly value of not less than £100, Justices of the Peace, bankers, merchants, and some others of specified occupations are qualified.

Allowances to Jurors.—If a juror reside within 8 miles of the town where the Court is held, he is allowed 5s. per day: if beyond 8 miles, 10s. per day. An additional 5s. per day is granted if a juror is more than three days on the same panel. Travelling expenses, at the rate of 1s. per mile (one way) for every mile a juror is distant from the town, are also allowed. This scale of allowances is made to Coroners' juries and jurors attending the District, Supreme, and Circuit Courts and Courts of Quarter Sessions. Prior to 10th May, 1892, Coroners' juries were not paid.

Appeals and New Trial Motions.—During 1894 there were 8 appeals from the judgments of these Courts, of which 6 were confirmed and 2 reversed. There were also 13 motions for new trials, 7 of which were granted, 5 refused, and 1 withdrawn. The right of appeal can only be exercised in causes in which the amount claimed exceeds £10, and must be made either on points of law or in respect to the admission or rejection of evidence.

Causes tried by Jury.—Of the 4,689 causes heard during 1884, only 53 were tried by Jury. When the amount in dispute exceeds £20 either of the parties may, by giving notice to the Registrar of the Court, have a Jury summoned.

## No. 42.—SUPREME COURT—Transactions.

Constitution.—Under the provisions of Act 4 Geo. IV, cap. 96, a Charter of Justice was issued on 13th October, 1823, for the establishment in New South Wales of a Court of Judicature, to be styled the Supreme Court of New South Wales. Act 9 Geo. IV, cap. 83, repealed the above Act, but confirmed and extended the provisions relating to the Supreme Court. Under section 3 of this Act the Supreme Court and its duly appointed Judges were declared to have, within New South Wales and its dependencies, the like jurisdiction and authority as the Judges of the Courts of King's Bench, Common Pleas, and Evidencies in England regessed.

Wales and its dependencies, the like jurisdiction and authority as the Judges of the Courts of King's Bench, Common Pleas, and Exchequer in England possessed.

Judges.—There are seven Judges attached to the Supreme Court, the Chief Justice, and the six Puisne Judges. The Chief Justice and four Puisne Judges devote attention chiefly to Common Law and criminal cases, another Judge to Equity, another to Bankruptcy and Probate, and another Puisne Judge is Judge of the Divorce Court. The Chief Justice was appointed Judge Commissary of the Vice-Admiralty Court by the Admiralty, and one of the Puisne Judges acts as Deputy. The Supreme Court has no jurisdiction in this Court. A Judge can only be removed from office upon the Address of both Houses of Legislature. Pensions are demandable by the Judges upon permanent disability or infirmity or after fifteen years' service. The amounts of such pensions, as well as the salaries, are secured and regulated by various Acts.

Terms.—There are four Terms during each year, the dates of which are fixed by the Judges, as are also the days the Court Sittings commence, the duration of Vacations, and the dates for holding Circuits.

#### Common Law Jurisdiction.

## No. 42.—SUPREME COURT.—Transactions—continued

Equity Jurisdiction.

Equity.—By Act 9 Geo. IV Cap. 83, the Supreme Court of New South Wales was constituted a Court of Equity, and empowered to perform all things necessary to such equitable jurisdiction as the Lord Chancellor can in England. The Equity Act, 1880 (44 Vic. No. 18), and subsequent Acts (48 Vic. Nos. 18 and 23, and 50 Vic. No. 36), regulate the practice and procedure of the Court.

<sup>\*</sup> Information not obtained prior to 1894.

#### MASTER IN EQUITY.

Master in Equity.—The office of Master in Equity in New South Wales combines the duties of "Accountant General," "Registrar," "Head of the Records and Writ Office," and of "Taxing Officer," as well as those performed in England by the Judges in Chambers through their Chief Clerks.

Fands held in Trust by Master in Equity.—The Trust moneys received by the Master in Equity are invested in various ways; the bulk of the funds, however, is placed to the Government Account, and either invested in securities or used in the "General Banking Account" in the Bank of New South Wales.

#### MASTER IN LUNACY.

## (Transactions outside Equity Jurisdiction.)

Master in Lunacy.—By the passing of Act 42 Vic. No. 7, Commissions de Lunatico Inquirendo were abolished and the Supreme Court, or a Judge thereof, on application to his satisfaction, is empowered to make declarations in lieu thereof. The same statute enacted that the Master in Equity for the time being should be Master in Lunacy, and it confers upon him arge powers of management. For further particulars and transactions, see Part X, "Religion, Hospitals, and Charities."

Maintenance and Fees paid into Consolidated Revenue.—The figures given in the following table for maintenanc comprise the sums contributed by the friends of the insane persons, and also those paid for that purpose from estates under the control of the Master in Lunacy.

		Classif	lcation					1890.	1891.	1892.	1893.	1894.

Tota	l paid	l into t	he Cor	nsolida	ted R	evenue	€	11,059	12,287	13,350	13,480	14,370

#### Trust Funds of Insane Persons and Patients.

Estates of Insane Persons.—Act 56 Vic. No. 23, passed 1893, extended the powers of the Master in Lunacy to enable him to mortgage, let for any term not exceeding five years, sell, or otherwise deal with estates of insane patients, exclusive of debts and claims allowed by the Master, up to €500. In excess of that sum the Master can apply to the Court or to a Judge of the Court. He can also bring and defend actions and suits on behalf of a patient. By this Act the Master in Lunacy is also authorised to charge a percentage on the clear annual income of insane persons and patients whose estates are under his care and management at a rate not exceeding 5 per cent. per annum.

Trust Funds held by the Master in Lunacy.—The Trust moneys held by the Master in Lunacy are placed to the Government Account, and either invested in Government securities or used in the "General Banking Account" in the Bank of New South Wales.

1894	£ 41,784	£ 11,800	£ 16,215	£ 69,790

## No. 42.—SUPREME COURT—Transactions.—continued.

#### Probate Jurisdiction.

Probate and Administration.—By the Probate Act of 1890 (54 Vic. No. 25), the jurisdiction previously vested in the Primary Judge in Equity was transferred to the Supreme Court and its Probate Jurisdiction, and such Judge as might be appointed Probate Judge. The duties performed by the Prothonotary and Ecclesiastical Clerk were at the same time transferred to the Registrar of Probates.

Gross and Net Value of Estates.—The figures from the Probate Court and Stamp Duties Department (see Part III—Public Finance) relating to transactions in the estates of deceased persons do not agree. The Court gives the gross value of the estates, and includes those estates which, after investigation, are found not to be subject to duty. The number of petitions is also swollen by probates on some estates being taken out a second time. The amount given by the Stamp Duties Department represents the net value of the estates, and only those estates subject to duty appear in the returns.

Estates of the Value of £1,000—How dealt with.—Prior to the passing of the existing Act all applications for probate and letters of administration (except where the gross amount of the estate did not exceed £100) were made in open Court, and also applications to pass accounts of executors or administrators. Under the present Act the Registrar grants probate and letters of administration where the estate does not exceed £1,000 in value, it being only necessary to apply in open Court in cases beyond that amount. It is now also only necessary to apply in Court for the allowance of executors' and administrators' accounts where commission is applied for, or in case of appeal from the decision of the Registrar.

Small Estates—Value £200 and under.—In pursuance of the provisions of the "Probate Act of 1890 Amendment Act" (56 Vic. No. 30), passed June, 1893, estates under £200 in gross value do not pay any stamp duty. Probates and Letters of Administration may be granted without the intervention of a solicitor in estates sworn not to exceed £300.

#### CURATOR OF INTESTATE ESTATES.

Curator of Intestate Estates.—This officer is appointed by the Supreme Court under Act 54 Vic. No. 25. He is empowered to apply for an order to collect the estate of any deceased person leaving real and personal estate who shall have died intestate, and leaving no widow or next of kin resident within the jurisdiction of the Court, or when the person shall have died testate but leaving no executor, or no executor willing and capable of acting in execution of his will, and in a few other instances.

#### UNCLAIMED MONEYS, 1885-94.

Unclaimed Moneys paid into Consolidated Revenue,—After paying all proved and allowed claims, balance in the hauds of the Curator are paid into the Treasury to the Colonial Treasurer's Curator of Intestate Estates Account. Moneys not claimed within six years, are paid into the Consolidated Revenue Fund, and used for the public service of the Colony. A rightful claimant may afterwards, however, obtain payment thereof, but without interest from the date of payment to the Treasury.

Balance of Intestate Estates belonging to Minors.—The moneys belonging to minors are paid under order d Court, and invested in the Savings Bank of New South Wales on account of minors, till they arrive at the age of 2L. The amount so invested on the 31st December, 1894, was £963.

#### Bankruptcy Jurisdiction.

Bankruptcy.—The law is administered by a Judge in Bankruptcy, who is assisted by the Registrar and Deput-Registrars, under Act 51 Vic. No. 19, and amending Acts. The existing Act came into force on the 1st January, 1888, print to which date the transactions in Bankruptcy and Insolvency were carried out under a Commissioner of Insolvent Estates.

Composition and Arrangement.—The creditors have power to accept, and the Judge to approve, of a proposal for a composition, or for a scheme of arrangement, provided that it has been confirmed by a majority in number representing three-fourths in value of all proved creditors.

Trustees.—When the creditors accept a proposal for a composition, one or two Trustees may be appointed in place of, or in addition to, the Official Assignee.

<sup>\*</sup>Bankruptcy Estates Account.—Each Official Assignee pays all moneys received by him to the Registrar in Bankruptcy who places the amount to the credit of the "Bankruptcy Estates Account," from which all charges (other than peremptory, such as auction charges, rent, &c.), fees, and dividends are met. Each Official Assignee is obliged under the 94th section of the Act to furnish the Registrar with quarterly statements showing the transactions in each estate during that period.

Official Assignees.—Official Assignees are appointed by the Executive Council when, in the opinion of the Judge, an addition to their number may be required. On the 31st December, 1894, three had been appointed. In each estate the Official Assignee receives 2½ per cent. commission on the amount realised, and 2½ per cent. on the amount of dividends declared. The Judge may also grant special remuneration.

### CERTIFICATES ISSUED UNDER EXISTING ACT TO 1894.

Sequestration Orders Annulled.—The Judge annuls sequestration orders in cases where he is of opinion that a sequestration order ought not to have been made, or where it is shown that the debts of the bankrupt have been paid in full.

Release of Estate.—A bankrupt may have his estate released from sequestration after the acceptance and approval of a composition or scheme of arrangement, or if all the creditors are paid in full, or have given him a legal quittance of the debts due.

Certificate of Discharge.—Three months from the date of sequestration a bankrupt may give notice by advertisement of his intention to apply for a Certificate of Dischargo. The application is heard within thirty days of the date of the first publication of the advertisement, and the Judge receives a report from the Official Assignee, and may either grant or refuse an absolute order of discharge, suspend the operation of the order for a specified time, or grant an order subject to conditions respecting future earnings or income of the bankrupt.

## LOCALITIES IN WHICH ESTATES HAVE BEEN SEQUESTRATED, 1894.

Registrar and Deputy Registrars in Bankruptcy.—Persons resident in the country parts of the Colony, usually Police Magistrates and Registrars of District Courts, are appointed District Registrars in Bankruptcy, and have the same powers and jurisdiction as the Registrar in respect of the examination of bankrupts, issuing of summons, &c. Appeals from the Registrar or District Registrar are made to the Judge in Bankruptcy, who also deals with questions in priority of claims.

#### Divorce and Matrimonial Causes Jurisdiction.

First year of Divorce Act.—Prior to the passing of the Matrimonial Causes Act of 1873 (36 Vic. No. 9), the Supreme Court of N.S.W. had no jurisdiction in divorce. The existing Act (55 Vic. No. 37) was assented to on the 9th May, 1892, but did not come into force, owing to an informality, till the 6th August. During 1893 an amending Act (56 Vic. No. 36) was attached.

Decrees nisi.—After a decree sisi has been granted, it can be made absolute at any time subsequent to the date fixed by the Court for that purpose. Neither party can re-marry until after fourteen days from the date of the decree sisi having been made absolute.

Judicial Separation.—In addition to the principal causes for which a divorce may be obtained, judicial separation can be granted for desertion extending over two years.

#### RESTITUTION OF CONJUGAL RIGHTS AND NULLITY OF MARRIAGE.

RESTITUTION OF CONTURED REPORTS AND MULLITY OF MARKIAGE.

Restitution of Conjugal Rights,—Before a suit can be brought there must have been a request of a conciliatory character to the other party to return to cohabitation.

Mullity of Marriage,—Petitions may be granted in cases of marriages which are void by the law of the land; where some statutory requirements have not been observed; or in which one of the parties is incapable to perform the duties of marriage.

<sup>\*</sup>Divorce Causes heard in Country.-Prior to 1892, no Divorce Causes were tried outside Sydney.

#### GROUNDS OF SUITS FOR WHICH PETITIONS WERE GRANTED, 1872-94.

Grounds for Divorce.—The chief grounds for divorce under the old Act were adultery since marriage on the part of the wife, and adultery and cruelty on the part of the husband. In addition to the foregoing causes, petitions for divorce can now be granted on the following grounds:—

Husband v. Wife.—Desertion for not less than three years; habitual drunkenness for a similar period; being a mprisoned under a sentence of three years or upwards; attempt to murder or inflict grievous bodily harm, or repeated assaults on him within one year previously.

Wife v. Husband.—Adultery, provided that at the time of the institution of the suit the husband is domiciled in New South Wales; desertion for not less than three years; habitual drunkenness for the same period; being imprisoned for three years or upwards, or having within five years undergone various sentences amounting in all to not less than three years; attempt to murder or assault with intent to inflict grievous bodily harm, or repeated assaults within one year previously.

Period of Domicile.—To entitle either party to seek relief on any one of these grounds he or she must have been domiciled in the Colony for the purpose of the suit. When a wife seeks for a decree on the ground of three years desertion, if she was domiciled in New South Wales when the desertion commenced, she shall not be deemed to have lost her domicile by reason of her husband having thereafter acquired a foreign domicile.

<sup>•</sup> From these verdicts leave to appeal to the Privy Council was granted in two instances, one appeal was dismissed, and one was not proceeded with.

## No. 44.—EXTRADITION COURT, 1884-94.

Extradition Court.—A person charged under the Extradition Act is brought before the Governor. The Consul for the country to which the person charged belongs, the Crown Solicitor, the Inspector-General of Police, and usually the detective officers interested in the case, are present. Evidence is taken on oath, and, if the Governor is satisfied that the person is liable to be extradited, warrant is made out, and he is sent to Parlinghurst Gool for fifteen days prior to extradition, during which interval he may apply to the Supreme Court for a writ of habeas corpus.

Extradition Act, 1870 (Imperial Statute).—This Act provides for the surrender to Foreign States of persons accused or convicted of certain crimes within the jurisdiction of such States, and for the trial of criminals surrendered to the British Dominions. Treaties of Extradition for the mutual surrender of fugitive criminals exist between Her Majesty's Government and the Governments of France, Germany, Austria-Hungar, Brazil, Spain, Italy, Belgium, The Netherlands, Denmark, Sweden and Norway, Switzerland, Hayti, and the United States of America. In proceedings under this Act the fugitive is brought before the Governor, who hears evidence on oath and, if satisfied that the person is liable to be extradited, makes an order to that effect. makes an order to that effect.

#### FUGITIVE OFFENDERS ACT, 1881 (IMPERIAL STATUTE).

Provision is made in this Act for the surrender from the United Kingdom to a British possession, or vice versa, or from one British possession to another, of fugitives charged with the commission of any offence which is, in the part of Her Majesty's Dominions where it was committed, punishable by imprisonment with hard labour for twelve months or more, or by some greater punishment. Persons apprehended under this Act are dealt with at a Magistrates' Court, and are not included with the figures in the Return of the Extradition Court.

## No. 45.—CROWN SOLICITOR—Transactions, 1894.

Crown Solicitor.—The Crown Solicitor conducts all the Civil and Criminal business of the Crown in the Supreme and Circuit Courts, and special cases in the District Courts, Courts of Petty Sessions, and Coroners' Courts. The Department is divided into three branches:—The Conveyancing Branch, which attends to all conveyancing matters, including purchases and resumptions of the various Departments; the Common Law and Equity Branch, which attends to all litigation in which the Government is concerned on the Civil side of the Law Courts, from the Small Debts Court up to the Privy Council; and The Criminal Branch attends to all Criminal cases sent for trial to the Central and Circuit Courts, and also to Criminal prosecution taken up in all Courts by the Government.

### No. 46-APPELLATE JURISDICTION.

#### APPEALS FROM MAGISTRATES' COURTS TO COURTS OF QUARTER SESSIONS, 1990-4.

Criminal and Quasi-Criminal Appeals — Appeal from Magistrates' Courts to Quarter Sessions is a remedy for bringing the Orders and Convictions of Justices to the review of Quarter Sessions. When an appeal is given generally, the Court is Judge of law as well as fact. The right of appeal exists only when given by express enactments. When an appeal is allowed by Statute, it is usually upon certain conditions, either that a notice be given to the Justice whose act is appealed from, and recognizances entered into to prosecute the appeal, or a deposit be made of the amount of the penalty and costs.

#### APPEALS AGAINST DECISIONS OF PRIMARY JUDGE TO FULL COURT, 1885-94.

Appeals to Full Court.—Appeals against orders or decisions of Judges of the Supreme Court are made, with ferexceptions, to the Full Court. Act 48 Vic. No. 13, passed August, 1884, provides that no Judge of the Supreme Court stall sit on the hearing of an appeal from, or on a matter to set aside, any judgment, order, decree, ruling, or decision made by him. This Act also provides that the Court on the hearing of such appeals or motions shall consist of three Judges.

# No. 46.—APPELLATE JURISDICTION,—continued.

# APPEALS TO PRIVY COUNCIL, 1890-4.

Appeals to Privy Council.—By an Imperial Order-in-Council, issued in pursuance of the provisions of Act 9 Geo. IV, cap. 83, and dated 13th November, 1850 (published in the Government Gazette, 24th June, 1851), provision is made that any person or persons may apply to the Supreme Court of New South Wales for leave to appeal to the Privy Council, "from any final judgment, decree, order, or sentence of the Supreme Court of New South Wales, in case any such judgment, &c., shall be given or pronounced for, or in respect of, any sum or matter at issue, above the amount or value of £500 sterling," or respecting property or any civil right amounting to, or of the value of, £500 sterling," within 14 days after the same shall have been pronounced or given. The Court must be moved for leave to appeal, and, pending the appeal, judgment is suspended upon the execution of sufficient security, which must be entered into within 3 months of the filing of the petition. The Privy Council may also upon the petition at any time of any person or persons aggrieved by any judgment or determination of the Supreme Court of New South Wales, without any limitation as to the amount at issue, admit his or their appeal upon such terms and security as it may think fit.

## CRIMINAL CASES.-APPEALS DIRECT TO PRIVY COUNCIL, 1800-4.

Appeals in Oriminal Cases.—Under section 422 and 423 of the Criminal Law Amendment Act, a convicted prisoner may appeal against the decision of the Judge to the Full Court, and if the appeal be dismissed he may apply direct to the Privy Council. Provision is also made in section 383, that when any doubt or question arises as to the guilt of a person convicted, or the evidence in the case, an inquiry may be held, and the result of such transmitted to the Governor is consideration.

Humber and Result of Appeals.—The number of Appeals made direct to the Privy Council, since the year 1864, and the Results are :—

# No. 47.—BARRISTERS Practising in New South Wales, 1895.

Admission to the Bar.—The Board for approval of qualified persons to be admitted as Barristers of the Supreme Court of New South Wales, is formed under Act 11 Vic. No. 57, and consists of the Judges of the Supreme Court and the Attorney-General for the time being and two elected members of the Bar.

Queen's Counsel.—A Queen's Counsel is appointed by Commission signed by the Governor, upon a recommendation made by the Attorney-General to the Executive Council, and six barristers held this appointment during 1894.

Crown Presecutors.—Seven barristers, who receive an annual salary, hold appointments as Crown Prosecutors at the Courts of Quarter Sessions. Others, who are paid by fees, are specially appointed, on the recommendation of the Attorney-General, for each sitting of the Circuit Courts.

# No. 48.—SOLICITORS Practising in New South Wales, 1895.

Admission of Solicitors.—Persons eligible for admission as solicitors, if they have not been admitted in Great Britain, Ireland, or any Colony of Australasia, must have been articled to some practising solicitor in New South Wales and have served the term of five years, or, if a Graduate of Arts prior to entering into articles, three years' clerkship, and must have passed the examinations of a Board, consisting of two barristers and four solicitors, appointed annually by the Supreme Court. A barrister, who has been in practice as such for five years, having caused himself to be disbarred, can, under Act 55 Vic. No. 31, be admitted as a solicitor without examination. Under the provisions of the same Act a solicitor is competent to appear, and has the right of audience in all Courts in New South Wales. Persons may be admitted to practice as solicitors on the last day of any term.

# Section III.—REGISTRATIONS, &c.

# No.51.—PATENTS—Applications for Letters Patent and Certificates of Provisional Protection Registered (under Act 51 Vic. No. 3) during 1894.

Letters Patent.—The first Patent Act was passed in 1852, but did not come into operation till 1854. It was amended in 1879 (42 Vic. No. 27) and again in 1887 (51 Vic. No. 3). Under the provisions of the last-mentioned Act the office of Examiner of Patents was created and fees for complete Letters Patent were reduced to £5, and provision was then made for the issue of Certificates of Provisional Protection on payment of a fee of £2, which may, if application be made within twelve months from granting, be converted into an application for a Patent on the payment of an additional £3.

# LETTERS PATENT, AND CERTIFICATES OF PROVISIONAL PROTECTION.

Duration and Assignment of Patents.—The period for which Letters Patent remain in force varies seven to fourteen years, generally for the latter period; a Certificate of Provisional Protection can, however, be granted for twelve months from date of issue. A patent granted in New South Wales only protects the holder or he within the boundaries of the Colony.

#### \_COPYRIGHT.—Registrations 1890-4. No. 53.-

NO. 35.—CUPY KILGHT.—Registrations 1889—4.

The Copyright Act (42 Vic., No. 20) was passed in May, 1879, and became law on the 1st July following. Under the International Copyright Act, 1886 (49 and 50 Vic., clause 33), and the Orders in Council thereunder, the greater part of the body of Imperial Copyright law applicable to literary and artistic works together with the Copyright Convention of Berne, became reciprocally applicable to Great Britain and the countries that are parties to the Convention, namely:—Great Britain with her Colonies and Possessions, France and her Colonies (including Algers), Germany, Italy, Spain with her Colonies, Switzerland, Luxembourg, Monaco, Hayti, Belgium, Montenegro, and Tunis, consequently it is now possible for Colonial Copyright works, to receive International protection within the limitations prescribed by law. The same Act places Colonial Copyright in literary works upon the same footing as Imperial Copyright, that is to say, a work first published in a Colony is now capable of receiving protection throughout the British dominions. The registrations effected under the Act up to the end of 1894 amounted in number to 2,000, receipts to £618, and the disbursements calaries), £4,988.

Duration of Copyright. -Books are protected for the natural life of the author and for 7 years after his death, or for 42 years from first publication, whichever may be the longer period; paintings, drawings, sculpture, and engravings, for 14 years; photographs, 3 years; articles composed wholly or chiefly of metal, wood, stone, cement, glass, earthenware, ivory, bone, and similar substances, 3 years; paperhangings, carpets, oilcloths, and all kinds of textile and woven articles, 2 years To obtain the benefits of the Act in reference to designs every article must bear the word "Registered," together with the

name of the proprietor and the date of registration.

## REGISTRATIONS UNDER ACT 7 VIC. No. 16, 1889-94.

Registrations under Act. 7, Vic., No. 16.—Under authority of Act 7 Vic. No. 16, passed in 1843, all deeds and other instruments affecting lands or hereditaments, formerly in the keeping of the Supreme Court, were placed in the charge of the Registrar-General. Records, other than wills, registered under this Act, take priority according to the time of registration, and not in accordance with their respective dates.

Amounts of Mortgages incomplete.—In many instances the amounts lent upon mortgage by the banks are not stated, but simply the words "valuable consideration" or "cash credit" inserted in the deed. As this occurs frequently when the properties mortgaged are evidently of great value, the absence of the amounts must materially affect the returns, and, as a consequence, the amounts under the heads of "mortgages" and "reconveyances" are necessarily incomplete.

#### WILLS.

Wills deposited for safety in Registrar-General's Office.—Under the authority of Act 7 Vic. No. 16, Expression Registrar-General is empowered upon payment of a fee of 5s. to receive from any person residing in New South Wales his after last will and testament. The document is endorsed, and remains in the custody of the Registrar-General until the decease of the person, unless previously required. Upon the death of the testator or testatrix, an examination is make by the Registrar-General in order that the will may be given to the executor first-named therein.

The number of Wills which had been deposited by the public in the office of the Registrar-General at the end of 150 was 671, the figures for each of the last five years being—1890, 9; 1891, 32; 1892, 27; 1893, 22; and 1894, 35.

## No. 3.--STATE SCHOOLS.

Primary Schools.—Prior to the passing of the Public Instruction Act (43 Vic. No. 23), which came into force on 1st May, 1880, the administration of primary schools was entrusted to a Council of Education, and two classes of schools, public and denominational, existed side by side, each receiving support from the State funds; the buildings belonging to the latter, however, were built and equipped by the several denominations. This Act provided that State aid to denominational schools should cease at the end of 1882, and that the instruction imparted at Public Schools should be absolutely unsectarian. "Secular instruction" is defined by the Act as including "general religious teaching as distinguished from dogmatical or polemical theology."

Compulsory Attendance.—Under Clause 20 of the Act, it is obligatory upon the parents or guardians of all children, between the ages of 6 and 14 years (unless just cause of exemption can be shown), to cause such children to attend school for a period of not less than 70 days in each half-year. The minimum age for compulsory instruction was reduced to 5 years by a Ministerial Minute, September, 1894.

Results of Public Examinations.—See Table, No. 9, page 724.

#### RELIGION, &c., OF SCHOLARS, DECEMBER QUARTER, 1894.

Religious Instruction.—Provision is made for the ministers or other religious teachers of any denomination to give religious instruction to the scholars belonging to their persuasion at specified hours, and separate class rooms are generally provided for that purpose.

Training Schools for Teachers.-There are two Training Schools, Fort-street for males, and Hurlstone Training Schools for Teachers.—Inere are two Training Schools, Fort-street for males, and Huristone females, the total enrolment for 1894 being 61 and 64 respectively. Those persons who have completed their course pupil-teachers are alone eligible for admission. The training extends over a period of three years, the senior stude attending the Sydney University. In addition to lectures on the Science and Practice of Teaching the students are giveractical work under supervision in the Practising Schools and Kindengarten Department of the Model Public Schools on completion of the course of training each student receives a Classification certificate.

Superior Public Schools.—To entitle a Public School to be designated a "Superior" Public School at least pupils must be eligible to join a fifth class. At the end of 1814 there were 16 Public Schools of Classes I to V, compris 211 Departments, classed as "Superior" Public Schools. In these schools instruction is given to the fifth class, in La and French and other subjects prescribed for the Senior and Junior Examinations.

and French and other subjects prescribed for the Senior and Junior Examinations.

# No. 3.—STATE SCHOOLS—continued.

#### SCHOOL DISTRICTS, 1894.

School Districts.—New South Wales is divided into 10 school districts, each being in charge of a District Inspector, who is assisted by Inspectors. Each school is inspected at least once a year. The number of Departments given in preceding Table is 6 more than shown in the following Table. The 5 High Schools and the Public School at Lord Howe Island are included in the former, but they do not come within the charge of any District Inspector.

Public School Boards.—A School Board consisting of not more than 7 persons has been appointed to each of the 286 Public School Districts. The Board's duties are to visit and report on schools placed under its supervision, to suspend a teacher in certain cases, to use its influence to induce parents to send their children regularly to school, and report the names of persons who refuse to educate their children. At the end of 1894, 107 ladies were members of these Boards.

Public School Cadet Corps.—In connection with the State Schools, and inclusive of those attached to F Catholic Schools within the Metropolis, there were, at the end of 1894, 117 Cadet Corps, with an enrolment of 3,819 c being 880 less than for 1893, under the control of five officers attached to the Department of Public Instruction. The previously known as Senior Cadets, and comprising infantry, cavalry, artillery, and ambulance corps, were transfer the Military Department during 1893, and affiliated with certain of the partially paid regiments. The Cadet Vote fo was £5,511, as against £5,869 for 1893. No new corps were formed during the year.

Penny Savings' Banks.—These are established in connection with the State Schools. At the end of 1894, Sa Banks were in operation at 631 schools, with an estimated number of 37,000 depositors, having £8,049 to their c Deposits as collected are placed in the Post Office Savings' Bank to the credit of the School Bank. As soon as the an at the credit of an individual depositor reaches £1, a separate account is opened in the child's own name.

# No. 4.—INDUSTRIAL SCHOOLS, &c., 1894.

# Nautical School Ship "Sobraon."

In this Institution 501 boys were enrolled during 1894, 260 of these being under 14 years, and 241 over that age the number remaining at the end of the year being 349. The total expenditure was £9,160, made up as follows:—maintenance, £6,334, and salaries, £2,826. The amount of parents' contributions to the Treasury was £246, s that the net cost to the State was £8,914, or £17 15s. 10d. per head of enrolment.

#### Industrial School for Girls, Parramatta.

The number of girls enrolled during 1894 was 165, of whom 79 were under, and 86 above the age of 14 years, and the number remaining at the end of the year was 117. The expenditure amounted to £2,797 £1,714 being fo maintenance, and £1,083 for salaries—or £16 19s. per head of enrolment.

#### New South Wales Institution for the Deaf and Dumb and the Blind.

The number of immates remaining on 31st December, 1594, was 78, viz., 46 males, and 32 females. Of these 6 were deaf and dumb and 16 blind; 72 belonged to New South Wales, 3 to Tasmania, and 3 to Queensland. The age of the pupils ranged from 6 to 20 years. The total revenue was £5,608, of which £450 was received from the State and the expenditure was £3,708.

#### Society for Relief of Destitute Children, Randwick.

At the end of 1894, 143 children were attending School, the instruction being imparted by 4 teachers (2 male and 2 females). The receipts and expenditure during the year were £3,468 and £3,568 respectively, and a sum of £11 was also expended on repairs to buildings during the same period. No monetary support has been received from the Government since 1885. The cost per head after deducting parents' contributions was £20 1s. 7d.

#### Ragged Schools.

The 4 Ragged Schools in operation, viz., Harrington-street and Brisbane-street, Sydney, and Waterloo an Glebe, are supported entirely by private subscriptions. Eight female teachers are connected with the Institutions and 303 scholars (200 boys and 193 girls) are being educated free of charge. The average attendances during 189 were 120 boys and 124 girls. Of those enrolled, 55 boys and 45 girls were under 6 years of age; 162 boys and 14 girls between 6 and 14 years, and 3 boys and 3 girls were 14 years and over.

#### Carpenterian Boys' Home, Eastwood. School of Industry.

For information concerning these Institutions, see Part X, "Religion, Hospitals, and Charities."

# No. 5.—PRIVATE COLLEGES AND SCHOOLS—continued.

(Denominational and Undenominational.)

Collection of Returns in Electorates and Counties.—The particulars relating to private schools were former, collected according to electorates; during 1893 and 1894, however, the returns were obtained in counties. The boundaries of the former are liable to be varied by a change in the electoral law, while those of the counties are practically established on a permanent basis.

Counties.—()f the 141 counties into which New South Wales is divided, only in 70 are private schools in operation.

# No. 8.—SYDNEY GRAMMAR SCHOOL.

Sydney Grammar School.—In January, 1830, the "Sydney Free Grammar School," which was opened in 1826, in a house in Phillip-street, became a proprietary school under the name of the "Sydney College," with a capital of £10,000 in 200 shares of £50 each. In 1852 the newly established University took over the Collego, and opened in October of that year in a portion of the present Grammar School buildings. In 1854, when the University was transferred to the Glebe, the Grammar School was incorporated by Act of Parliament "for the better advancement of religion and morality and the promotion of useful knowledge," with a grant of £25,000 for the erection of buildings, and an annual endowment of £1,500. On 3rd August, 1857, the school was thrown open to the public. Including special grants the total amount received from the State during 1894 was £2,300.

Results of 1895 Examinations.—At the Junior Examination held in June, 1895, 844 candidates passed, of whom 117 qualified for matriculation. The Senior Examination was held in November, 1895, but the results are not yet known.

#### CIVIL SERVICE AND LAW MATRICULATION EXAMINATIONS, 1890-4.

Civil Service Examination.—In accordance with the terms of a proclamation on the 6th October, 1871, and section 18 of the Civil Service Act of 1884, candidates for admission to the Public Service are required to pass a Civil Service Examination or other examination equivalent thereto. Three examinations are held at the University in April, June, and November, and one in the country districts in the month of June.

Law Matriculation.—Persons desirous of entering into articles of clerkship with Attorneys and who have not taken a University degree, or passed the preliminary examination required in England, Scotland, and Ireland, are required to pass a preliminary examination (law matriculation) which is similar and equal to that prescribed for ordinary matriculation. Clerks, after having entered into articles are also required to pass two intermediate examinations in History and Law respectively. The History examination is conducted by the Principals of the Affiliated Colleges, and the Law by a Board appointed by the Supreme Court.

Examinations on behalf of Queensland Government.—At the request of the Department of Public Instruction of Queensland, the University in 1894 undertook the conduct of the annual examinations for Exhibitions to Universities, granted by the Government of that Colony, and also an examination of teachers of the highest class in the Queensland State Schools.

## No. 10.—UNIVERSITY of Sydney.

Incorporation and Endowment.—The University of Sydney was incorporated in 1850 (under Act 14 Vic. No. 1 is empowered to confer, after examination, degrees in arts, law, and medicine, and was endowed with an annual inc £5,600. A Royal charter was issued in February, 1858, under which graduates of Sydney rank equally with gradual British Universities. Since 1832 the Endowment has been supplemented by annual Parliamentary grants, the amoun for 1894 being £6,000, in addition to grants for special purposes.

University Extension Act, 1884 (47 Vic. No. 17).—This Act gives power to the University of Sydney & degrees in all branches of knowledge except theology and divinity, and extends all University privileges to women. Senate.—The government of the University is vested in a Senate, consisting of 16 elected and not more 2x officio members, being Professors of the University. The Senate elects from its members a Chancellor, who hold too there were early a Vice-Chancellor who is elected annually.

for three years, and a Vice-Chancellor who is elected annually.

Faculties.—There are four Faculties: Arts, Law, Medicine, and Science. A Dean is appointed by the Senate Faculty from time to time for a term not exceeding two years. There is also a Department of Engineering.

#### PROFESSORS AND STUDENTS, 1899-94.

Professorial Board.—The Chancellor, Vice-Chancellor, and Professors, appointed by the University, in the Faculties, form the Professorial Board, which elects its Chairman annually, and manages and superintends the disciple all University students, and makes rules and imposes penalties, against which appeal may be made to the Senate.

Professors—The number of Professors and Lecturers on the University Staff during 1894 was 14 of the former a of the latter; of these, 7 Professors and 6 Lecturers were paid out of the "Challis" Fund.

Students.—Candidates intending to enter the University are required to past the Matriculation Examination, is held in the month of March cach year. At these examinations Latin, Arithmetic, Algebra, and Geometry are compusubjects, and also any one of the three languages, Greek, French, and German. Any person desirous of atter University lectures may do so without matriculation, upon payment of fees fixed by the Senate.

Terms, Lectures, and Examinations.—The year is divided into three terms: Lent, Trinity, and Michaelm during which lectures are delivered and examinations held by examiners appointed from time to time by the Senate.

Matriculated Students.—The total number of candidates who qualified themselves for admission to the University 1894 was 287; of these, 118 were actually admitted to matriculation.

#### ANNUAL EXAMINATIONS, 1894. See full particulars, Table No. 9, page 724.

## DEGREES CONFERRED SINCE FOUNDATION.

DEGREES CONFERRED SINCE FOUNDATION.

Degrees.—In the Faculty of Arts two degrees are given—B.A. and M.A. The curriculum of study for the for degree extends over a period of three years. The M.A. degree cannot be obtained till two years after the B.A. has conferred. In the Faculty of Law the degrees of LLB, and LL.D. are granted. The curriculum of study for the L degree extends over five years, of which the first two are in the Faculty of Arts. Three degrees are granted in the Faculty of M.B., M.D., and Ch.M. The course of study for the degrees of M.B. and Ch.M. extends over a period of three years. The degrees of B.E. and M.E. are also given the course of study for the former extensiver a period of three years. The degrees of B.E. and M.E. are also given in the four branches of Engineering, viz., the Mchanied, Mining, and Electrical Engineering.

Ad Eundem Degrees.—Act 44 Vic. No. 22 empowers the Senate to confer ad condem gradum degrees on gradual to the recognised Universities.

Degrees conferred each year. For degrees conferred during each year between 1856 and 1854 see "Stati-Register," 1891.

N.S.W. Medical Degrees.- Under an Order made by Her Majesty, with the advice of the Privy Council, as not is, the Goreroum at Gorette of 6th June, 1800, the second part of the British Medical Act of 1886 is made to apply to South Wales. Helders of the degrees of M.D., M.B., and Ch.M., conterred by the Sydney University, are consequence recognised and may be registered in the United Kinedona in the same way as holders of similar degrees, conferred by a Br University, are registered in Nev South Wales.

# No. 10.—UNIVERSITY of Sydney—continued.

Scholarships and Exhibitions.—These have been founded chiefly by private benefactors as rewards for proficiency and for the purpose of placing the advantages of a University education within the reach of students who might, through the want of financial means, be excluded from participation in them. They are awarded only when candidates exhibit a degree of proficiency satisfactory to the Examiners. No undergraduate may hold more than two scholarships at one time. Scholars are required to proceed with their studies in the respective Faculties in which their scholarships are awarded.

#### BURSARIES.

Bursaries.—Bursaries are only conferred when satisfactory proof is produced that the means of the candidate, or of his parents or guardians, are insufficient to enable him to attend the University without such assistance. There are fourteen at the disposal of the University. These have all been created (on the initiation of the late Dr. Badham, when Professor of Classics) by private foundations, at a cost of £1,000 each, together with a margin in some cases to ensure prescribed assural awards anounting to £50. They are helped, on the part of the Senate, by an accompanying exemption from all lecture fees and the fee for matriculation. Women are eligible for not more than one half of the five bursaries, founded in 1881, by the late Mr. Thomas Walker, of Yaralla, Concord.

Public School Bursaries.—Thirty other bursaries have been created by the Government in connection with the Public School system, but the University is not concerned in their award, although the Senate has conceded to the holders a similar exemption from fees.

Exemption from Fees.—In addition to exemption from fees conceded to the holders as included in the conceded to the second of the conceded to the concedent to

Exemption from Fees.—In addition to exemption from fees granted to the holders of Bursaries, 18 students who had shown their inability to defray the expenses of a University education were permitted during 1894 to attend lectures without payment of fees. 129 students of the State Training Schools for male and female teachers were also permitted to attend on a reduced scale of fees.

When founded.	Name.	Amount.	How awarded.
1874 1876 1876 1876 1876 1876 1870 1877 1879 1881 1881	Maurice Alexander John Ewan Frazer Ernest Manson Frazer William Charles Wentworth, No. 1 William Charles Wentworth, No. 2 Burdekin Hunter-Baillie, No. 1 Levey and Alexander. (Tenable for 3 years.) Walker (4) Walker (1) William Charles Wentworth, No. 3	50 cach. 40	By Senate.  For sons of ministers of religion. Open to graduates desirous of entering a profession, but not having the necessary means. The Senate may at discretion pay the £150 in one amount.  Not more than one half of these Bursaries are applicable to female students.  From accumulations from No. 2 Bursary, in accordance with the will of the founder. These amounted in April, 18%, to £804; when the sum of £1,500 shall have been reached, No. 3 Bursary, with a capital fund of £1,000, will become operative, and the balance of £500 will accumulate to form No. 4.

# PRIZES, &c.

#### University Prizes.

Prizes and medals in value up to £20 each are given annually by the University to students who exhibit the greatest proficiency at various Examinations, and to the most distinguished candidates in the Honour Examinations for different Degrees.

#### Private Prizes.

Prizes for proficiency in different subjects are awarded annually, ranging in value from £2 2s. to £10, by the various Professors.

#### Military Cadetship.

In 1880 the Imperial Military authorities conferred upon the Senate the privilege of nominating one student per annum to a Cadetship in the Royal Military College, Sandhurst. Students who have completed their first year and passed the First Year Examinations are eligible. The limits of age are - For students, 17 to 21; for graduates, 17 to 22.

#### Military Commission.

A commissio in the British Army is offered annually to a student of the Sydney University under certain conditions.

# No. 10.—UNIVERSITY of Sydney—continued.

#### UNIVERSITY EXTENSION LECTURES, 1894.

University Extension Lectures.—The University Extension Lectures were inaugurated in 1886, and since that year lectures have been given annually in various centres of New South Wales, and since 1893 in Queensland. A Board is appointed annually, and must not exceed 18 members, of whom 4 at least must be members of the Senate, and 4 a least members of the teaching staff. Each course concludes with an examination of those who have attended the lectures, and certificates are awarded to the successful students.

"Challis" Fund.—In 1830 the late Mr. Challis bequeathed his whole estate to the University, which, under the terms of the will, was transferred to that institution in September, 1830. The assets in Australia and England amounted to £298,224. The Senate has decided that the Fund shall be applied as permanent provision of income for educational uses. Through the agency of the Fund six "Challis" Professorships and six "Challis" Lectureships have been established.

Other Foundations.—There are also the "Hovell" and "Macleay" Lectureships, the funds connected with each being respectively £6,000 and £11,400; the "Wentworth" Travelling Fellowship, and the Curatorship of the "Macleay" Museum. The fund of the former amounts to £1,778, and the latter £6,000. The receipts from the various Funds are included under the head of "Other Sources" in the above table.

University Museums.—The Museum of Antiquities, the "Macleay" Museum of Natural History, and the Museum of Normal and Morbid Anatomy, attached to the University, are accessible to the public under certain regulations. A downtion of books and antiquities was received from Sir Charles Nicholson during 1894 to be added to the Museum of Anti-

# No. 11,-AFFILIATED COLLEGES.

-In 1854 an Act was passed (18 Vic. No. 37) to provide for the establishment of College in connection with the Church of England, and Presbyterian Church of N.S.W. have been established, and also a College for Women, not attached to any religious denomination.

Faculty of Medicine—Hospitals.—Prince Alfred Hospital was constituted a General Hospital and Medic School for the instruction of students attending the Sydney University. The Chancellor of the University and the Desof the Faculty of Medicine are Directors ex oficio. Other Hospitals recognized by the University as places where studing be carried on in connection with the Faculty of Medicine are Sydney Hospital, St. Vincent's, the Benevoles Asylum, Hospital for Sick Children, and the Gladesville and Callan Park Hospitals for the Insane.

## No. 12.—TECHNICAL EDUCATION.

Establishment of Technical Education.—Classes for Technical Education were first established at the Sydney Mechanics' School of Arts in 1865. The Working Men's College was started in 1873. In 1878 a sum of £2,000 was granted by Parliament for the organisation of the Technical College, and for five years the classes were carried on at the institution named. In 1883 a Board was appointed by Government to take over the management, but towards the end of 1889 the Board was dissolved, and the Technical Colleges were placed under the control of the Minister of Public Instruction. In January, 1892, the new Technical College at Ultimo was opened to students.

Technical Education Branch.—The Technical Education Branch of the Department of Public Instruction comprises two distinct institutions—(1) The Sydney Technical College and its Branch of the Department of Public Instruction comprises two distinct institutions—(1) The Sydney Technical College and its Branchs; and (2) the Technological Museums. The Sydney Technical College and the Technological Museum adjoin, and the Branch Technical Schools at Bathurst, Goulburn, Newcastle, and West Maitland have also Branch Technological Museums connected. The two institutions are now under one administrative head. Instruction is given in classes at the various schools, and by Travelling Lecturers in Agriculture, Geology, Mineralogy, and Apiculture.

Technical Instruction in Public Schools, 1894.

Technical Education in Public Schools.—During 1800 a workshop was established at the Fort-street School, and later on, at other large schools in the metropolis and country. The pupils are taught the use of tools by instructors connected with the Technical College and branches. The course consists of carpentry, joinery, and other selected hands. Examinations are held annually, and certificates issued to successful candidates.

Sydney— Fort-street Training School-Students . 1 Boys 1 Crown-street 1	53 70 94	Country-		1 1	43 52 42	Country—continued— Maitland, West	**	6 12	579
--	----------------	----------	--	-----	----------------	--------------------------------------	----	------	-----

Enrolment.—The total number of pupils enrolled was 6,543, as shown in the preceding page, as against 7,096 for 1882, but a number of students have joined more than one class; the number of individual students is consequently 4,92, with an average attendance of 3,182.

Classes.—The total number of classes given above is the number in existence at each locality, and not the number of distinct subjects taught, which is 69.

## TECHNOLOGICAL MUSEUM AND BRANCHES, 1894.

Technological Museum.—This museum, situate in Harris-street, Ultimo, was established in 1879, and was first administered by a committee of management appointed by the trustees of the Australian Museum. It was taken over by the Department of Public Instruction on 1st January, 1890, and made an integral part of the Technical Education Branch. Special endeavours are being made to collect the raw products and samples, illustrative of the industries and manufactures of the Australian Colonies; and the museum contains a large number of native mineral and vegetable products, and a comprehensive series of specimens of wool. Over 40,000 exhibits in all have been acquired, both by purchase and gift.

## No. 13.—NATIONAL ART GALLERY.

National Art Gallery.—The National Art Gallery of N.S.W. was first opened in June, 1876, in conjunction with the

National Art Gallery.—The National Art Gallery of N.S.W. was first opened in June, 1876, in conjunction with the New South Wales Academy of Art, an institution established in April, 1871. It was re-opened as a National Gallery on 22nd September, 1889. in temporary buildings in the Botanical Gardens, Sydney, and removed to present premises in the Outer Domain on 23rd December, 1885. The estimated value of the collection is now about £100,000. The collection of water-colour drawings is considered to be the finest out of England.

Art Students.—Persons desirous of studying in the Art Gallery must make application, accompanied by a specimen of work. If satisfactory, a card of admission will be granted to the applicant, revocable at the pleasure of the Trustees. No picture shall be copied in its entirety without special permission, and such studies only shall be made as shall be approved by the Trustees. All studies must be stamped before being taken from the Art Gallery. Loan pictures are not to be copied without the permission of the owners. Since the year 1889, when permission was first granted, 182 art students have availed themselves of the opportunity of studying in the Art Gallery.

Loan Exhibitions of Pictures.—With a view to the artists of New South Wales being represented, a few pictures were lent for exhibition at the Chicago World's Fair (1893), and the practice has now been established of loan exchanges between the Art Galleries of Sydney, Melbourne, and Adelaide, with highly satisfactory results in the interests of Art. Loan exhibitions of pictures from the National Art Gallery to country towns in New South Wales have also been introduced.

## No. 14.—AUSTRALIAN MUSEUM.

Australian Museum.—The Australian Museum was founded in 1836. It was originally connected with the Botanical Gardens, and was located in a room in Macquarie-street, Sydney. It was afterwards removed to the Surveyor-General's Office, and again, in 1849, to its present site. Its affairs were managed by a committee until 1858, when it was incorporated by Act of Parliament (17 Vic. No. 2). The Act provides for twelve official Trustees, one Crown Trustee, named by the Governor, and twelve elective Trustees. Provision was also made for a State endowment of £1,000 per annum, which is supplemented by annual Parliamentary appropriations as required.

Other Museums,—in addition to the Australian Museum and the Technological Museums in which the exhibits are of a general nature, there is a Geological Museum connected with the Department of Mines and Agriculture, Sydney, which is open to the public free of charge. The Museum of Antiquities, the Macleay Museum of Autural History, and the Museum of Normal and Morbid Anatomy, attached to the Sydney University, are also accessible to the public.

## PART IX.

## No. 15 .- FREE PUBLIC LIBRARY.

Free Public Library.—The Free Public Library was established on the 1st October, 1869, when the building books of the Australian Subscription Library were purchased by the Government. During the years 1856-7 considerable additions were made to the premises, a large portion being entirely rebuilt. The new buildings were opened in April In 1877 the operations of the Library were extended by a Lending Branch being attached. Under certain simple regal books may be borrowed by individuals, country Libraries, or Mechanics' Institutes, free of charge. The Newspaper is formerly attached to the Reference Library, was, in February, 1895, transferred to the Lending Branch.

## No. 16.—SCHOOLS of ARTS, MECHANICS' INSTITUTES, &c.

The Sydney Mechanics' School of Arts was established in 1833. The Lending Library contains upwards of 40,000 volumes. The Reference Library and Reading Room contain over 3,500 works besides newspapers and magazines. On 31st December, 1894, there were 1,326 male and 770 female members and 200 life members. Classes for technical education, established in 1865, are still conducted, and are open to non-members; examinations are held, and certificates of ability are issued to successful scholars. The attendances at these classes were 196 during 1893 and 186 during 1894.

#### OBJECTS AND TRANSACTIONS, 1804-5.

#### Australasian Association for the Advancement of Science.

The objects of this Association, which was established in 1888, are to give a stronger impulse and a systematic direction to scientific inquiry; to promote the intercourse of those who cultivate science in difparts of the Australasian Colonies and in other countries; to obtain more general attention to the objects of and the removal of any disadvantages of a public kind which may impede its progress. The permanent office Association is at Sydney. The following sections have been constituted:—(a) Astronomy, Mathematics, and Ph (b) Chemistry; (c) Geology and Mineralogy; (d) Biology; (e) Geography; (f) Ethnology and Anthropology; Economic Science and Agriculture; (h) Engineering and Architecture; (f) Sanitary Science and Hygiene; a Mental Science and Education. The last meeting of the Association took place at Brisbane in January, 1882 number of papers appointed to be read being:—In Section (a) 9, (b) 16, (c) 9, (d) 27, (e) 16, (f) 16, (g) 19, (h) 10, (and (f) 28. In addition, the President of each section delivered an address. The next meeting of the Association be held in Sydney, and that of the following year in Melbourne.

#### Royal Society of New South Wales.

This Society originated in 1821 as the "Philosophical Society of Australasia." After an interval of inact it was resuscitated in 1850, under the name of the "Australian Philosophical Society," by which title it was it until 1856, when the name was changed to the "Philosophical Society of New South Wales." In 1856 it assu by Royal sanction, its present title, and was incorporated by Act of Parliament in December, 1881. The object he Society are to receive original papers on science, art, literature, and philosophy, and subjects tendin develop the resources of the Colony, and to illustrate its natural history and productions. The Society posses valuable library, open daily for reference and for the issue and return of books, and it also publishes a most paper. The particulars for 1894 are:—

## N.S.W. Zoological Society.

This Society was inaugurated in February, 1879, with the object of introducing into New South Wales the grand song birds of other countries, as well as different species of fish. It was accorded Government support, and City Corporation granted it the use of 12½ acres of Moore Park. The collection of mammalia, birds, reptiles, fish numbers nearly 600. The revenue of the Society comprises an annual State subsidy, which for 1834 was 25 gate receipts, which were £1,766 for the same period; and members sub-criptions. The income, however insufficient to cover expenses, and on 31st December, 1894, there was an overdraft of £404.

## British Astronomical Association.

The first meeting of the local Branch of the Society was held in January, 1895, and already the members exceeds 80. A library for the use of members is rapidly being collected, and will soon be available. The busing transacted consists of the delivery of lectures, reading of essays, the discussion of observations, lantern exhibits of photographs, &c. In addition to mathematics, other objects of interest to astronomers are admitted, sucloptics, photography, horology, and electricity. Up to October, 1895, 6 papers had been read, and 3 lectuality delivered.

## British Medical Association.

The local Branch of this Association was founded in 1881, under the title of the "New South Wales Branch of British Medical Association." The objects of the Branch are to co-operate with the parent Association in the protein of medical science and the maintenance of the honour and interests of the medical profession. The num of members at the close of 1894 was 331, and the meetings held during the same year were:—General 12, Council 22. The number of papers read was 22, and the exhibits shown numbered 6.

## No. 17.—EDUCATIONAL, SCIENTIFIC, AND ART SOCIETIES—continued.

#### Pharmaceutical Society of N.S.W.

This Society was established in 1876 for the purpose of uniting the chemists and druggists in one ostensible, recognized, and independent body for protecting their general interests, and for the advancement of pharmacy, by furnishing such uniform system of education as shall secure the profession and public the safest and most efficient administration of medicines. The number of ordinary members is 100, and life members 16. A Pharmacy College has been established under the management of the Pharmaceutical Society, for the instruction of students, who receive twelve months instruction in pharmacy and materia medica, chemistry, and botany, upon which the final or qualifying examination is based. A Benevolent Fund has been inaugurated under the auspices of the Society, the funds of which, on 31st Dec., 1894, amounted to £20 9s. 11d. The Society also prints a journal of its proceedings.

## Royal Geographical Society of Australasia.

This Society was instituted in 1883, its objects being:—(1) Scientific.—The advancement of geographica science and the study of the physical geography of the world, and especially the completion of the exploration of Australasia. (2) Commercial.—The study of commercial geography, and the natural and artificial products of various countries and their industries, with a view to promote the commercial progress of Australasia. (3) Educational.—The promotion of the knowledge of physical, commercial, and political geography by means of illustrated public lectures and various publications. Branches of the Society have been established in the other colonies, viz.:—In Victoria, in April, 1894; South Australia, in October, 1835; and Queensland, in December, 1885. The number of members in New South Wales at the close of the year, ended April, 1895, was forty-two; the number of meetings during the same period was six, and eight papers were read.

#### Australian Economic Association.

- This Association was established in 1886. Its objects are—

  (1.) The Philosophical Investigation and Discussion of the Data, Methods, and Principles of the Science of Economics.
  - (2.) The Compilation of a Statistical History of the various Australasian Colonies since the time of their

respective settlements.

(3.) The Formation of a Library of Economic Literature.

The Association issues a monthly publication, in which the papers read at its meetings are printed, together with the discussions thereon.

	Tansactions, 1894.								
	New Members.	Meetings.	Papers read.						
Males. 3	Females.	Total. 9	No. 13	No. 6					

#### Engineering Association of New South Wales.

This Association was established in 1870. The number of members on the 30th September, 1894, was 140. During the year 9 meetings were held, at which 5 papers were read and discussed. The Association exchanges records of its proceedings with kindred institutes in England and America, and presentations to the library of the Association are frequently made.

## Insurance Institute of New South Wales.

This Institute was established in August, 1834, and the first meeting was held on the 15th October of the same year. The objects of the Institute are the promotion of good feeling and friendly intercourse, as well as sound practice, and the dissemination of useful professional knowledge by the reading of papers, and other means. The number of members in May, 1895, was 120. During the 10 years ended with 1894, the transactions of the Society were as follows:—Life Insurance, 17 papers were read, and 2 discussions took place; Fire Insurance, 16 papers were read, 5 discussions took place, and 1 lecture was delivered; Marine Insurance, 10 papers were read, and 8 discussions held. In addition, 2 papers were read on general subjects, and each president delivered an inaugural address each year.

Institute of Architects of New South Wales.

This Institute originally founded in 1971, was reconstructed and incorporated under the Companies Act in 1890. In December, 1892, the Institute was admitted to alliance with the Royal Institute of British Architects. The objects of the New South Wales Institute, like those of the parent body, are to represent generally the views of the profession; to preserve and maintain its integrity and status; to suppress disnonarable and unprofessional conduct or practice; to encourage the study of the profession by articled pupils by giving prizes and other awards. Three classes of members have been established, viz.:—Fellows who must have attained 27 years of age, and been in practice for at least 5 years; associates, who must be engaged in the study or practice of architecture, and not less than 21 years of age; honorary members, who are persons of eminence in art, science, or literature, and others who may be able to render assistance in promoting the objects of the Institute.

Institute of Bankers, New South Wales.

This Institute was established in April, 1892. Its objects are to receive original papers on subjects relating to banking, finance, and economic questions, to hold examinations for the diploma of the Institute, and to examine candidates for bank service. The Institute possesses a library and reading room, and issues a monthly journal.

## Institute of Surveyors, New South Walco.

This Institute was established in March, 1895, under the name of the "Survey Club" and was incorporated under its present title in May, 1891. The aims and objects of the Institute are altogether of a scientific and professional nature. Papers are read and discussed at its meetings, and matters of interest to the profession dealt with. The Institute issues a monthly publication, "The Surveyor," first published in July, 1898, and possesses a valuable library for the use of its members.

In New South Wales.	Outside New South Wales,	Total	Meetings	Papers read.	
No. 253	No. 40	No. 323	No. 12		

#### Electric Club of New South Wales.

This Club was founded in 1891, with the objects of (1) the promotion of social intercourse between persons interested in the electrical industry, (2) the reading and discussion of papers on electrical engineering subjects, and (3) the furtherance of the interests of electrical engineering generally. Students of the University or Technical College, pupils or apprentices of members of the Cub or other electrical engineers, telegraph operators and others engaged in electrical departments of the Government, may be admitted as members. The number of ordinary numbers for the year ended September, 1896, was sixty-two, and students three; and the number of papers read was five.

## Art Society of New South Wales.

This Society was established in 1880. It conducts antique, life, and painting classes for each of which annual scholarships are awarded, the winners of which receive 12 months free tuition. It holds an annual exhibition of works of art executed by its members, and has arranged for loan exhibitions to be held in conjunction with the National Art Gallery during 1895 at Bathurst, Goulburn, and Newcastle. The number of members on 30th June, 1895, was 330, or an increase of 35 on the previous year. The particulars for 1894-5 are:—

		Stud	lents.		W	Works Exhibited.				
Members.	Antique.	Life.	Painting.	Total.	Oil paintings.	Water-color drawings.	Statuary.	Attendance at Exhibitions.		
No. 330	No. 96	No. 91	No. 58	No. 239	No. 196	No. 182	No. 20	No. 4,800		

#### The Brush Club.

This Club has for its objects the assistance of Australian art and the development of the appreciation of Australian scenery and character and their pourtrayal. The Club holds annual exhibitions of oil and water-color paintings, the work of its members.

#### Society of Artists.

The objects of this Society, which was formed in July, 1895, are the advancement of art, by holding exhibitions, the establishment of an art library, and the procuring of any artistic or social benefits within the province of the Society. The number of members on the roll in October, 1895, was 132, and the first exhibition was opened in September, 1805. Sales to the amount of £348 were effected during the exhibition.

1

## Royal Agricultural Society of New South Wales.

This Society was incorporated in 1869, with the object of promoting the development of the agricultural, pastoral, horticultural, and industrial resources of the Colony. The number of members for the year ended October, 1894, was 430. The annual show was held at Easter of the same year, when prizes to the amount of £1,206 were distributed in the various sections.

## Horticultural Society of New South Wales.

This Society was established in 1886, in continuation of a similar institution originally established 50 years ago. The objects of the Society are the promotion and encouragement of horticulture in all its branches by holding meetings for the exhibition and examination of plants, flowers, fruits, and vegetables, and such other articles as the Council may determine; the reading and publication of essays and lectures; the holding of periodical exhibitions; the encouragement of the application of science to the general purposes of horticulture; the publication of a periodical newspaper, &c. Regular meetings of the members are held on the second Tuesday of each month, when papers of horticultural interest are read and discussed, and exhibits of seasonable plants and flowers are shown. The number of members for the year ended 39th June, 1896, was 838, and the number of meetings held was 12.

## No. 17.—EDUCATIONAL, SCIENTIFIC, AND ART SOCIETIES—continued.

## Mational Pomological Society.

This Society was founded in 1893 under the name of the National Horticultural and Pomological Society with 210 members; in 1895 the number had increased to 770. Its objects are:—To promote reform and improvements in horticulture, pomology, apiculture, &c.; to establish experimental gardens; to hold exhibitions when deemed expedient; to hold meetings for exhibition and examination of fruits, flowers, vegetables, and apicultural products, and in other ways to advance the interests of horticulture, &c. The Society operates under four sections, viz., Pruit, Apiculture, Floral, and Vegetable. Papers on subjects connected with these sections were read during the year ended June 30, 1896, as follow:—in the Fruit Section, 4; in the Apiculture, 8; in the Floral, 6, and in Vegetable Section, 1. The efforts of the Society have lately been directed towards finding markets for the products of orchards, &c., and several shipments have been despatched to London. The Society has been represented at 3 conferences at Midura and Hobart. A piece of land has been acquired at Pennant Hills for a standard and experimental garden, where fruit and other trees and plants will be tested as to their correct naming and quality and suitability to the climate.

## Agricultural, Pastoral, and Horticultural Societies.

In addition to the societies mentioned, there were 119 societies existing in the country districts at the end of 1894, for the object of promoting the resources of the Colony, and nearly all of these societies held shows during the year. Particulars as to subscriptions, Government subsidy, &c., will be found in Table No. 27, Part V, Section II.

## Hawkesbury Agricultural College.

## Murrumbidgee and Richmond River Experimental Farms.

For particulars of these establishments, see Table No. 26, Part V, Section II.

#### Australian Musical Association.

This association has been constituted on a cosmopolitan and selectic basis, with the object of raising and maintaining the standard of music in the Colony by creating an incentive to more careful study. To this end, the association holds public examinations and grants diplomas of merit. Four scholarships were awarded in 1894, the funds for which were derived from the examination fees. In the practical examinations, 225 candidates presented themselves, of which 176 were successful, and in the theoretical examinations, twenty-three candidates passed and eight failed.

## Sydney Liedertafel.

The Society was founded in 1882, and has for its object the practice and production at concerts of male part-singing. Each year the Society gives 6 concerts, including 2 smoke concerts. The number of vocal members is 91, and orchestral 38; and the subscribers numbered over 600 in 1894. It is proposed to admit ladies into the Society in Order to make the concerts more attractive and infuse new interest in the Liedertafel. The number of works performed at the 1894 concerts was 24, viz., cantatas 3, part-songs 16 (6 accompanied and 10 unaccompanied), and orchestral pieces 5.

## Metropolitan Liedertafel.

The object of the Metropolitan Liedertafel, which was established in 1883, is the cultivation of part singing for male voices. The total number of concerts given since its inauguration is 53.

## Sydney Amateur Orchestral Society.

This Society was established in 1892 for the cultivation of purely orchestral music. The number of subscribers in 1894 was 258, while the performing members numbered 58. Four concerts were given during the senson 1894, the number of works performed being 26, some of which were by Australian composers.

## Sydney Philharmonic Society.

The object of this society is the cultivation of vocal and instrumental music by practice and public performance. In 1894, there were 295 subscribers and 298 performing vocal members, while the orchestra consisted of 40 members, who are assisted at concerts by professional artists. During 1894, 10 concerts were given by the Society, in addition to which, the members assisted at another concert for the benefit of the conductor.

#### Trinity College (London)—New South Wales Centre.

The local examinations in connection with the Trinity College were inaugurated in 1881. At the 1895 examination the number of candidates was 922 of whom 123 attempted the senior paper, 227 the intermediate, and 572 the junior. The number of certificates gained was 699, viz. :—90 in the senior division, 183 in the intermediate, and 426 in the junior.

## Sydney College of Music.

The objects of the College are to advance the art and science of music generally; to provide scholarships, prizes, &c., from the surplus accruing from lecture fees, examination fees, &c.; to grant diplomas and certificates to successful candidates, and in any other way to encourage the study of music. The number of candidates who presented themselves at the December, 1894, examinations, was 155, of whom 121 satisfied the examiners, and were awarded certificates, &c.

## Board for International Exchange of Literary and Scientific Publications.

The Board was established in 1890. It consists of three members who are appointed by the Government. The number of packages despatched during 1894 was 1,497 to 798 institutions, while 333 scaled packages were distributed to various institutions in the Colony on account of Government Departments. The number of voluntes received during the same year was 915 valued at about £200. The largest contributions were received from France, Belgium, and America (including the Smithsonian Institute) while no response has been made by the British Government although liberal shipments of official publications were made to the Agent-General; this omnule will no doubt be remedied in the future.

<sup>&</sup>quot;State Aid to Religion.—The figures given in the table show the actual payments during the very "tive of the year in which the expense was incurred, but the succeeding table shows the amounts pay year, no account being taken of the date of payment.

## Section I—RELIGION.

## No. 2.-PUBLIC WORSHIP.

State Aid.—Under Act 7 Will. IV, No. 3, passed in the year 1836, State Aid was extended to the different denominations. Previous to that date the Church of England was the only one in receipt of it. Only four denominations, however, accepted the privilege accorded, viz., the Church of England, Roman Catholic, Presbyterian, and Wesleyan Methodist. In 1863, under Act 28 Vic. No. 10, all future grants of public money in aid of public worship were prohibited, and State Aid was confined salt to the 162 ministers who were at that date in receipt of stipends. This number, at the end of 1894, was reduced by death or other causes to 45. Although no recognition or assistance is given to any religious denomination by the State, a clause in the Statute provides that ministers may receive stipends from the Government when acting as chaplains to Penal Establishments, Hospitals for the Insanc, and Government Charitable Institutions. Ministers who hold positions of this description are not included in the subjoined table.

## MINISTERS LICENSED TO CELEBRATE MARRIAGES.

Marriages by Ministers.—Marriages cannot be celebrated by Ministers of Religion except by those ordinarily officiating as such whose names, designations, and usual residences shall have been registered and then continue registered in the office of the Registrar-General, Sydney. The names of those licensed are published in the Government Gazette during the month of January in each year.

Marriages by District Registrars of Births, Deaths, and Marriages.—In addition to registered Ministers of religion, District Registrars appointed by the Government for the registration of Births, Deaths, and Marriages may perform the marriage ceremony, conditionally that the persons about to be married declare that they conscientiously object to be married by a minister of religion.

## No. 2.—PUBLIC WORSHIP—Special Returns.

#### CHURCH OF ENGLAND.

Jurisdiction.—The first elergyman of the Church of England landed in Sydney in 1788. In 1825 an "Archdescon of Australia" was appointed within the jurisdiction of the Bishop of Calcutta. The first "Bishop of Australia" was conservated in 1830, and the one diocese included Tasmania and New Zealand. In 1847 the Diocese of Australia was divided and the Diocese of Sydney, Newcastle, Melbourne, and Adelaide were formed, and the then Bishop of Australia was appointed Bishop of Sydney and Metropolitan. In 1872 the Bishop of Sydney was created Primate of the Dioceses in Australia and Tasmania.

Sydney Newcastle	::	::	••	1847 1847	Goulburn Grafton and Armidale	•	1963 1867	Discoular -			1994		

Diocesan Synods.—In 1866 a conference of Bishops of the Dioceses in New South Wales, together with Clerical and Lay Representatives from each Diocese, was held for the purpose of drawing up Constitutions for the management and good covernment of the Church, and, legislative sanction having been obtained, the Bishop of Sydney summoned the first Synod of the Diocese of Sydney to meet in December of the same year. Synods meet annually in each Diocese, and members are elected every three years.

Provincial and General Synods.—Each Diocesan Synod elects from its members an equal number of Clerical and Lay Members to the Provincial Synod of New South Wales, which meets once in three years, and also Clerical and Lay Representatives to the General Synod of the Dioceses of Australia and Tasmania, which meets once in five years under the presidency of the Bishop of Sydney as Primate.

Moore Theological College.—This college was founded in 1856. It was originally carried on at Liverpool, but in 1859 the college was transferred to Sydney. New buildings, erected close to St. Paul's (affiliated) College and the University, were opened August, 1891. The course of study extends over two years, except for University graduates, from whom only one years residence is required. Married students are permitted to be non-resident. A certificate is granted on passing the final examination satisfactorily.

## ROMAN CATHOLIC CHURCH.

Jurisdiction.—The Roman Catholic population of Australia was, until 1834, under the jurisdiction of the Bishop of Mauritius, but in that year Sydney was constituted a See, which included within its jurisdiction the whole of Australia and Tasmania, the Bishop of which bore the title of Vicar-Apostolic of New Holland. In 1842 Pope Gregory XVI gave a canonical form to Church government by establishing a Hierarchy, raising the Vicar-Apostolic to the rank of Archbishop, with Bishops of Hobart and Adelaide as Suffragans. The Colony of New South Wales forms the Province of Sydney, which has been from time to time subdivided, and now comprises an Archdiocese and six Dioceses. In 1885 the occupant of the Archiepiscopal See was created a Cardinal. He is assisted by a Bishop Auxiliary.

Religious Orders.—The following are the Orders established in New South Wales, with the dates of foundation in the Colony.—

## PRESBYTERIAN CHURCH OF NEW SOUTH WALES.

Organisation.—The Colony of New South Wales is divided into fourteen Presbyteries, each comprising a number - separate charges, to each of which a Minister is appointed. The management of the affairs of the Church is controlled is . General Assembly, which sits annually, and consists of Ministers and Elders from the Charges within the different Presteries. It is presided over by a Moderator, who is elected by the Presbyteries, which also nominate representatives to the Federal Assembly. The first Assembly of the Presbyterian Church of New South Wales was held in 1865.

Church Property.—During the year 1894 steps were taken to amend the "Presbyterian Church Property Management Act of 1881," and on the 22nd December, 1894, the "Presbyterian Church Property Management Act of 1894," vassented to by Parliament. The Act gives power to the Assembly to grant permission to Trustees to mortgage Church property, and a clause was introduced validating existing mortgages. Provision was also made for Trustees to hold propert, for the Church generally. The Church Property Law and Documents Committee, appointed by the General Assembly, keeps a Register of all Church properties and causes Trustees to be gazetted.

#### WESLEYAN METHODIST CHURCH.

Constitution.— A separate and independent constitution was given to the Wesleyan Methodists in Australia in 1884 by the English Conference, which derives its constitution from a Deed Poll of 28th February, 1784, executed and enrolled in the High Court of Chancery in England.

Annual and General Conferences.—The government of the Wesleyan Methodist Church in New South Wales is vested in the Annual Conference of clerical and lay representatives under the chairmanship of a President elected from its members. Representatives are appointed from the Annual Conference to the General Conference, which assembles once in three years, or at other intervals, as may be arranged.

Wesleyan Methodist Church Property Act, 1889.—This Act provides for the appointment of Trustees to hold all lands belonging to the Church, and gives power to a majority of the Trustees to mortgage, exchange, or lease Church properties. It also provides for the appointment of a Coustodian and Acting-Custodian of Deeds, to be notified by the President of the Conference, published in the Government Gazette, and registered in the Land Titles Office.

## PRIMITIVE METHODIST CHURCH.

Annual Assembly.—An annual Assembly of Ministers and Delegates of the Churches attached to the Primitive Methodist Church is held under the Chairmanship of a President elected by the members of the Assembly.

Primitive Methodist Church Temporalities Act, 1879.—Under this Act provision is made for the creation of a succession of properly qualified Trustees, in whom shall be vested all lands and real estate—except such as might be subject to any express trust—which at the time of the passing of the Act were vested in Trustees for the Primitive Methodist connection, as well as others that may be subsequently acquired. Power is given to the Trustees to mortgag, and with certain limitations to lesse or sell, buildings and lands.

## CONGREGATIONAL UNION OF NEW SOUTH WALES.

Organisation.—The Union of Congregational Churches allows every separate church to maintain perfect independence in the government and administration of its own particular affairs, and therefore does not assume legislative authority or act as a Court of Appeal. Each Congregational Church is represented at the General Assembly by its pastor and two or more delegates, according to the number of its members, two delegates being allowed for thirty members or under, and an additional delegate for every additional twenty members. The Committee of any College or Society recognised by the Congregational Union, subscribing not less than £1 annually, may elect two delegates. The Chairman and Committee are elected by ballot at each annual Session of the Union, the first of which was held in 1865.

## No. 2.—PUBLIC WORSHIP—Special Returns—continued.

BAPTIST UNION OF NEW SOUTH WALES.

Constitution.—The Baptist Union consists of Churches in New South Wales conforming to conditions of members, and practising the baptism of believers only by immersion. It is intended to incorporate the Union at an early date, so the proporties may be held under the Model Trust Deed already adopted by the Union. The officers are a President (who selected annually), a Vice-President, a Treasurer, and a General Secretary.

Marriages.—For return of Marriages performed by Ministers of this denomination, see Part VII, "Population and Vital Statistics."

## SALVATION ARMY.

Organisation.—The Salvation Army was established in Australia in 1882. Melbourne was made the chief Centre for Australasia under the command of a Commissioner, and Sydney was constituted the headquarters for New South Wales, with a separate chief officer, who is termed Colonel in command; all officers and members bear military titles and designations. The various ranks are Commissioner, Colonel, Brigadier, Major, Staff-Captain, Captain, Adjutant, Ensign, Lieutemant, and Cadet. The rank and file consist of Sergeant-majors, Sergeants, and Soldiers. There are also treasurers and secretaries to corps. Persons who are in sympathy with the Salvation Army, but who have not subscribed to the "Articles of War"—which combine a Confession of Faith and a pledge against the use of intoxicating liquors and baneful drugs—form an Auxiliary Leigue and contribute one guinea annually to the funds of the Army. Persons desirous of membership are publicly received, after one month's probation and subscription to the "Articles of War," and are then attached to the corps nearest their place of residence.

## No. 2.—PUBLIC WORSHIP—continued.

Church Returns, 1886.—The figures for 1886, except those for the Wesleyan Methodist Denomination, denote the number usually attending principal service, not the average attendance; for this reason the figures for the year named cannot be used for purposes of comparison with those of other years. Sunday-school children are not included.

Church Returns, 1893 and 1894.—The returns for 1893 and 1894 only include persons of 14 years and upwards. Prior to the year 1893 some denominations included children from 8 years old; whilst, in one instance, only persons of 16 years of age and over were counted.

## No. 3.—UNDENOMINATIONAL ASSOCIATIONS, 1894.

## New South Wales Auxiliary Bible Society.

The Society co-operates with the British and Foreign Bible Society in promoting the distribution of the Holy Scriptures, especially in Australasia and Polynesia. During 1894 the issues have been 5,930 bibles, 6,022 testaments, 1,072 portions of scripture, and 206 foreign scriptures, making a total of 18,230 copies distributed. The entire issue since the formation of the Auxiliary in 1817 has been 401,425 copies.

## New South Wales Bush Missionary Society.

This Society aims at spreading a knowledge of the Holy Scriptures in the interior of New South Wales. During 1894, 5,685 miles were travelled by missionaries, 2,279 families visited, 228 services held, 1,901 bibles and books sold, and about 6,800 tracts distributed.

#### New South Wales Young Men's Christian Association.

The objects of the Association are the promotion of the religious, social, intellectual and physical welfare of men. The summary of work for 1894 was as follows:—
Aggregate attendance at young men.

Variorate attenuance at	
Mission services	19,784
Reading-room	
Educational classes	851
Gymnagium	10.560
Gymnasium	80
Books borrowed	2.159
Tracts, &c., given away	88,500
	,500

Young men interviewed about situa-	
tions, &c.	3,250
Beds provided	909
Meals provided	1,393
Expended on—	
Mission work	
Relief work	£75

## New South Wales Young Women's Christian Association.

The objects of the Association are the promotion of the religious, moral, social, and intellectual welfare of young women; cheap and respectable lodging is provided by the Association, and its operations include a governesses' agency and a servant's registry. The summary of work for 1894 was as follows:—

Visits to factories		Parcels of clothing given away	
hospitals	70	Income	£903
Trains and steamers met	300	Amount to credit of Building Fund :	£479

## Section II.—HOSPITALS.

## No. 4.—BOARD OF HEALTH.

A Board of Health, consisting of six members, was established under the "Infectious Diseases Supervise Act" in 1881, and under authority of the "Noxious Trades and Cattle Slaughtering Act of 1894" it was made a corporate body. The President of the Board is also Medical Adviser to the Government. Complete statistics of the transactions of the Board of Health are not available, but returns of vessels examined under the provisions of the Quarantine Act during the years 1893-4 may be found in Part I.—"Shipping."

The Acts administered by the Board of Health are-

The Infectious Diseases Supervision Act [45 Vic.

No. 25.] The Dairles Supervision Act [50 Vic. No. 17.] The Leprosy Act [54 Vic. No. 20.]

The Diseased Animals and Meat Act [55 Vic. No. 17.] The Noxious Trades and Cattle Slaughtering Act [57 Vic. No. 21.]

The Quarantine Law Amendment Act [58 Vic. No. 2.]

## THE GOVERNMENT ANALYST.

The duties of the Government Analyst include the analyses of human viscera, &c., in cases of criminal or accidental poisoning; of weapons, clothing, &c., in suspected murder cases; of the water supply of Sydney and other towns; of sewerage from the Sewerage Farm at Botany; of articles entered by importers for the purpose of evading customs' duties; of beers, wines, and spirits, under the Licensing Act; and of articles of food, under the Adalteration of Food and Drink Act.

## No. 5.—QUALIFIED MEDICAL PRACTITIONERS.

New South Wales Medical Board.—Under Act 2 Vic. No. 22, "The New South Wales Medical Board" was appointed. The Act provides that the Board must consist of not less than three members, who must be members of the medical profession, one of whom shall be nominated President, together with a Secretary. The members of the Board of not receive any fees. The Secretary receives an honorarium of £100 per annum. In 1894 the Board consisted of elements, exclusive of the President and Secretary.

Qualified Medical Practitioners.—By the "Medical Practitioners Act, 1855" (19 Vic. No. 17), a legally qualified practitioner is defined to be "any person who shall prove to the satisfaction of the New South Wales Medical Board that he has passed through a regular course of medical study, of not less than three years duration, in a School of Medicine; and that he has received, after due examination, from the University of Sydney, or from some other duly recognised Institution, a diploma, degree, or license, entitling him to practice in medicine.

New South Wales Medical Degrees.—See Note, page 726, Part IX, "Education, Science, and Art."

Registration,—The Register was first opened in the year 1838, and up to 31st December, 1894, 1,922 persons had been registered.

#### REGISTRATIONS, 1892-4.

During 1892.	During 1893.	During 1894.	On the Register at end of 1894.

## No. 6.- CHEMISTS, DRUGGISTS, &c.

Board of Pharmacy.-Under the "Sale and Use of Poisons Act, 1876" (40 Vic. No. 9), a Board of Pharmacy was appointed, consisting of the President of the New South Wales Medical Board, the Medical Adviser to the Government, and the Council of the Pharmaceutical Society of New South Wales. No person is allowed to practice as a chemist and druggist or to sell poisons without a certificate from the Board.

Certificated Chemists and Druggists .- A person applying for a certificate must prove either that he has been duly admitted a pharmaceutical chemist by the Pharmaceutical Society of Great Britain; is a member or licentiate of the Apothecaries Hall of London or Dublin; has received a certificate as a legally qualified medical practitioner; was, at the time of the passing of the Act, in business in New South Wales as a chemist and druggist; or has served as apprentice or assistant to a chemist or druggist for three years and, after examination, has been proved competent by the Board. The fee charged for registration is £1.

## No. 7.-LEPER LAZARET.

Leprosy.—The Leprosy Act of 1890 (54 Vic. No. 20) empowers the Board of Health to detain and isolate persons suffering from leprosy, and in accordance with the Act a place has been set apart at Little Bay, and proclaimed as a Lazaret, for their reception and treatment. The wants of the patients are carefully attended to by an experienced wardsman in charge and by attendants and nurses, under the direct supervision of the Medical Superintendent and Matron of the Coast Hospital. On the 31st December, 1894, there were 40 persons—35 males and 5 females—in the Lazaret.

<sup>\*</sup> One West Indian discharged during 1885, his sores having healed and there being no law warranting his detention.

Nationality of Lepers.—The inmates of the Lazaret during the year 1804 were of the following nationalities:—New South Wales, 11; Queensland, 1; New Zealand, 1; England, 1; Germany, 1; India, 2; China, 19; Java, 1; Fiji, 1; New Calcdonia, 1; Solomon Islands, 1; Total, 40.

Working Expenses of Lazaret.—During the year 1894 the total cost of the management of this Institution was £2,794, salaries being £683; provisions, £1,080; fuel, £187; drugs, &c., £148; tobacco, cigars, and opium, £169; wines, beer, and spirits, £138; books, papers, &c., £20; drapery, bedding, uniform, &c., £164; furniture, ironmongery, &c., £122; repairs, £31; sundries, £49. The average cost per inmate per annum was £74 10s. 3d.

## No. 8.—HOSPITALS.

Certificates of Competency.—Certificates are granted to nurses after three years' training, on passing satisfactory oral and written examinations, which are conducted by the medical staff of the different hospitals.

Certificates in Midwifery.—The medical officers attached to the Benevolent Asylum, Sydney, grant certificates in sinidwifery to trained nurses after having undergone, to their satisfaction, a six months' course of instruction at that institution.

The Women's Hospital and Dispensary, Sydney.—This Institution combines in its plans and objects—A maternity hospital where poor and necessitous women can receive care and attention during their accouchement; medical and rursing aid for poor women at their own homes during their accouchement; medical and surgical aid for women suffering from diseases peculiar to their sex, as indoor or outdoor patients; a training school where obstetrical nursing in all its branches may be taught and certificates of efficiency granted. There are on the nursing staff 1 matron, 1 head nurse, and 18 nurses undergoing midwifery course.

## PART X .- SECTION II.

## No. 8.—HOSPITALS—continued.

Country Hospitals.—At small hospitals in the country it is a common practice to appoint married manage the institutions. In such cases the wife acts as matron and the husband as wardsman. This are generally found satisfactory and economical, as the wardsman, in addition to other duties, performs those required. Whenever extra assistance is necessary the services of female nurses are temporarily obtained.

Wardsmen at Hospitals.—Although wardsmen in most of the country hospitals not occasionally as and been entered in the table as being on the nursing staffs of the institutions.

Home for Trained Nurses, Sydney .- Trained nurses may be engaged at a fixed rate of payment, and is anniance with the regulations of the Home, Sydney. In November, 1894, there were twenty nurses on the staff, in addition to

## ST. JOHN AMBULANCE ASSOCIATION.

The N.S.W. Centre of the St. John Ambulance Association was establed in Sydney during 1890. The object of the association is to disseminate general information as to the preliminary treatment of the sick and injured, without under interference or intrusion upon the province of the surgeon. The object aimed at is merely the adoption of precautionary measures pending the arrival of a doctor. "First aid" and "Nursing" classes to the number of 46 were held during 1891-3 and examinations have taken place in many towns. Of the 835 pupils instructed during the year, 609 passed their examinations for certificates and 55 qualified for medallions. The total number of candidates instructed since the formation of the N.S.W. Centre amounts to 2,975, of whom 791 men and 1,109 women obtained certificates. Six practice societies hardrady been established. It is proposed to form these societies into corps, a number of which will constitute an Ambulance Brigade. The receipts of the Centre for the year ending September, 1895, amounted to £333, and the expenditure to £313. The cash balance in hand amounted to £59, and, there were stores to the value of £3.

## RAILWAY AND TRAMWAY AMBULANCE CORPS.

Full provision is made for accidents on the Railways by passenger trains, outside suburban sections, and mit on branch lines being furnished with medicine-chests and all ambulance requirements. The efficiency of the Corps has been recognised by medical men, and the "first aid" which has been rendered by the members has a with beneficial results. Those qualified by a course of instruction, chiefly given by the Railway Medical Officer, 850 at the end of June, 1806. THE ROYAL HUMANE SOCIETY OF AUSTRALA

This Society was inaugurated as the "Victorian Humane Society" in the year 1874, the present title being ask 1882. The objects are to bestow rewards upon all who promptly risk their own lives to save those of their fellow-cre to provide assistance in all cases of apparent death; to restore the apparently drowned or dead, and to disting rewards all who through skill and perseverance are successful; to collect and circulate information regarding it approved methods and the best appliances to be used for such purposes. The head office of the society is at Mellous honorary correspondents have been appointed in New South Wales. Life-buoys have been distributed in this Cole of the 55 awards granted by the Society during 1895 residents of New South Wales obtained 18.

<sup>†</sup> Under the charge of the Sisters of Charity.

Government Hospital (Coast, Little Bay).—This hospital is entirely a Government institution, administered by the Department of the Medical Adviser to the Government. It is situated at Little Bay, distant a few miles south of Sydney. Patients are not charged any fees.

Patients are not charged any fees.

Other Government Hospitals.—There are hospitals in connection with the Military Barracks, Paddington, Government Asylums for the Insane, and also those for the Insane and Destitute, and at the principal Gaols in New South Wales. Subsidised Hospitals.—Including the Government Coast Hospital at Little Bay, at the end of 1894 there were 100 general hospitals subsidised by the Government open for the admission of patients. A hospital is in course of construction at Littingow, and a sum of £188 has been subscribed for the purposes of a hospital to be erected at Blayney. The subsidy consists of £ for every £ collected by the hospital, and is granted conditionally: (1st.) That the hospital admits all accidents and urgent cases brought to its doors; (2nd.) That all destitute cases recommended by the Police Magistrate or other approved officer (among whom are to be considered the Government Medical Officer and the chief local officer of Police) must be admitted without delay; and, (3rd.) That cases of fever, erysipelas, and other infectious diseases, must be admitted as well as ordinary cases, and suitable provision made for their accommodation and treatment.

Unsubsidised Hospitals.—At Sydney (St. Vincent's), Auburn, and Lewisham, there are hospitals under the care of the Sisters of Charity and the Nursing Sisters of the Little Company of Mary, of the Roman Catholic Church. The patients are not, however, limited to members of this particular denomination. These three institutions depend entirely upon public subscriptions for their maintenance, and do not receive any subsidy from the Government. A special Government grant of £1,000 was, however, made in 1892, towards the building account of a new wing at St. Vincent's Hospital, and a sum of £1,000 was, however, made in 1892 towards the building account of a new wing at St. Vincent's Hospital, and a sum of £1,000 was, however, made in 1892 towards the building account of a new wing at St. Vincent's Hospital, and a sum of £1,000 was, ho

<sup>1</sup> Opened on 16th November. Opened on 180 \$\$ Opened for portion of your only.

Average cost per Bed and per Patient.—As the expenditure of hospitals in nearly every instance does not admit of a distinction being made between the amount expended on indoor and that on outdoor relief, it has been found impossible to establish a return showing the average yearly cost per bed and per patient.

Infectious Diseases.—There is no Act in New South Wales for the compulsory notification and registration of infectious diseases, with a view to the isolation of the cases by the Board of Health.

<sup>†</sup> Figures of previous year.

Convalescent Hospitals—"Thomas Walker," Parramatta River.—The Thomas Walker Convalescent Hospital situate on the Parramatta River, at Concord, is a privately endowed hospital, neither subsidised by the Government nor in receipt of aid from the public. Although no recommendation is required, persons cannot be admitted without an official medical certificate, signed by one of the hon. examining or medical visiting officers of the Institution. The period of sojourn is limited to four weeks for each patient, but the medical officer may, if deemed necessary, readmit any patient for a further period of four weeks. Persons eligible for admission are those convalescing from serious illness, or active surgical treatment, and those who have fallen into a sickly condition who, in the opinion of the examining medical officer, will be benefited by a few weeks residence in the country. "Carrington Centennial," Camden.—This hospital, situated at Camden, 42 miles from Sydney, acts as a hospital for the admission of convalescent patients from the Metropolitan Hospitals. Government patients sent either direct from the Hospital Admission Depôt, or from hospitals when the acute symptoms of illness have subsided, are paid for at the rate of 2s. per day. The hospital is in receipt of the usual subsidy from the State.

Hospital for Consumptives.—With the exception of the Thirlmere Home for Consumptives (for particulars of which see pp. 787, 789, 797), there is no institution for the special treatment of consumptives, and no hospital in New South Wales for the residence and care of persons in whom the disease of tubercular phthisis has advanced beyond its early and possibly curable stage.

Government Subsidy to Hospitals.—Although there is no statutory provision as to payments being made by

Government Subsidy to Hospitals.—Although there is no statutory provision as to payments being made by Government to general hospitals, the amount of subsidy annually paid has been at the rate of £1 for every like amount received by private subscription. By Act 30 Vic. No. 19, provision mando for the inspection of Hospitals and other Institutions aided by Government in order to ensure the proper application of grants. Trustees of Hospitals are permitted, under Act 45 Vic. No. 3, to invest the funds in various securities. At meetings held for the election of Officers, annual subscribers of £1 or those who have paid £10 in one sum to the funds of the Hospital are entitled to vote.

Hospital Saturday Fund.—The Association for the control of this Fund has been registered under the Joint Stock Companies' Act not for profit, but to give legal status and enhance public confidence in the conduct of business. Suburban committees have been appointed and new collections initiated. The total income for 1894-5 was £3,547, an increase of £1,598 on 1893-4. Both in-door and out-door collections have been made, the former taking place throughout the year and the latter once. The necessary expenditure amounted to £175. All duties, with the exception of those of the Assistant Secretary, are performed by volunteers. £3,400 was distributed among the following institutions:—Sydney, £1,000; Prince Alfred, £660; St. Vincent's, £450; Glebe (Children's), £325; Camden (Carrington), £175; Parramatts, £140; North Shore, £140; Elahmain, £149; Lewisham, £125; Thirimere Home for Consumptives, £100; Auburn (St. Joseph's), £60; Croydon (Western Suburbs), £60; and Kogarah (St. George's), £25.

Hospital Sunday.—The Mctropolitan Friendly Societies, Fire Brigades, and other bodies, as well as those of some of the suburban and country districts, organise processions in their respective localities cach year for the purpose of parading the streets and collecting subscriptions from the public for the benefit of the local hospitals. The amounts thus col

#### PART X-Section II.

#### No. 9. -- HOSPITALS AND ASYLUMS.

Government Admissions to Hospitals and Asylums.—The Sydney Depôt for the admission of patients is als and Asylums is under the management of the Government Medical Officer for Sydney, who is charged with the "selgning the cases to the different hospitals and asylums, in accordance with the nature, severity, and the aliments from which the patients are suffering, and the accommodation available at the various institution inquiries are made as to the pecuniary circumstances of the applicants and their fitness in this respect for many of the Government. Cases which, on examination, appear not to need Hospital treatment, and to be scaled for the Asylums for the Infirm and Destitute, are given recommendations for those Institutions.

Out-door treatment.—Cases which do not require in-door Hospital treatment are given recommendations for materials.

Applications for Government Orders,—During the year 1894, 8,162 persons were seen at the Hospital Admission Depot, and treated as shown in the table. Nine hundred and seventy-two were admitted to the Coast and Metropolitals, and paid for in the latter institutions at the usual maintenance rate. These include patients found by the polital and taken direct to the hospital, urgent cases of fevers and other diseases reported at the Medical Adviser's Office registered medical practitioners, and transfers from Government institutions and country hospitals for special treatment

#### No. 10,—INSANITY.—GOVERNMENT HOSPITALS FOR INSANE.

The Lunacy Act, 1879 (42 Vic. No. 7), as amended in 1893 by Act 56 Vic. No. 23, provides for the proclamation of Government Hospitals for the Insane and for the granting of licenses to private houses.

Admission of Patients,—Under the provisions of the Lunacy Act Further Amendment Act, 1893 (56 Vic. No. 23), the order, request, medical certificates, or other documents by which an insane person has been received into a Hospital for the Insane may be amended under process much more simple than was provided for by the original Lunacy Act.

Influx of Insane Persons.—For many years there has been an influx to the Institutions of persons who were insane on arrival in New South Wales, or became insane shortly afterwards, and this influx has of late years been greater by reason of enactments in neighbouring colonies. Act 56 Vic. No. 23, section 4, renders the owner, charterer, agent, or master liable for the maintenance of any insane person landed in New South Wales. Under its provisions 10 cases were reported between the time it came into force (June, 1893), and the end of 1894. Of these 7 soon recovered and were discharged, 2 were returned by the steamship companies to the ports from which they were shipped, and 1 remained in hospital at the charge of the owners of the ship in which he arrived.

Average Weekly Cost.—The average weekly cost for all Hospitals for the Insane, without deducting collections, is 10s. 7d., or deducting collections, 8s. 11d.

Patients absent on Leave.—During 1894 leave was granted, for varying periods, to 132 patients, making, with the already on leave, 203. Of this number 79 were discharged recovered during the year, 38 returned to hospital, 3 discharged away, and 83 remained on leave at the close of the year.

## No. 10.—INSANITY—GOVERNMENT HOSPITALS and LICENSED HOUSES—continued.

Licensed Houses for the Insane.—The number of Government patients at the Licensed House, Cook's River. was kept at 50 during 1894, vacancies by death being filled by transfers of others from the hospitals. All the Government patients were removed from this institution to Government Hospitals before the close of the year. The cost during 1894 of Government patients, after deducting collections, was £2,864. Under sections 42 and 43 of the Act two cottages at Picton have been licensed each for a single patient; and under section 24 a license was granted to a house at Ryde for the recention of 6 temple patients. reception of 6 female patients.

Hospital for the Insane, Kenmore.—In November, 1894, an Act was assented to which sanctioned the erection of a Hospital for the Insane at Kenmore, near Goulburn. The buildings are now in course of erection.

#### ADMISSIONS AND READMISSIONS-CAUSES OF INSANITY, 1893-4.

Causes of Insanity.—These "Causes" are taken from the statements in the papers received with the Patients and are verified or corrected as far as possible by the Medical Officers.

Number of Causes, &c.—Number of Patients.—The "predisposing" and "exciting" causes are both enumerated in all cases where the predominating causes could not be distinguished, so that the aggregate of the totals for each of the years exceeds the total number of patients yearly admitted. During 1894 the number of patients admitted and readmined was 712, while the causes were 834. See page 776.

#### PERSONS TREATED FOR SYMPTOMS OF INSANITY IN GAOLS DURING 1894.

Observation Wards Darlinghurst and Parramatta Gaols.—These wards are set apart for the detention of any prisoner who may be supposed to be insane, or who, from mental imbedility, may be supposed to be unfit for penal discipline in order that he may be there placed under observation, until certified by two medical practitioners that he is of sound mind, or is insane and a fit subject for detention in the hospital for criminal insane. 25 persons were in the wards on 31st Dec., 1893, and 250 were received during 1894, making a total of 275 under observation. Of these, 232 were discharged as not insane, 22 were sent to hospitals for insane, 1 died, and 21 remained on 31st Dec., 1894.

Temporary Cases. -The absence of any provision for the treatment of temporary cases of insanity, or the mor pronounced cases in the early stages, in local hospitals or receiving houses, renders the arrangement under which cases are treated in gaols unavoidable. The majority of the cases are only under treatment for brief periods, or during transit to hospitals for the insane.

<sup>\*</sup> Discharges.—Of these 375 persons, 112 were discharged to Hospitals for Insane or the Reception House; 34 were discharged to Darlinghurst or other Gaols; 182 were discharged as sane at the Police Courts; 40 were discharged cured; 3 died; and 4 remained in the different Gaols on 31st December, 1894.

### CRIMINAL INSANE HOSPITAL, PARRAMATTA-OFFENCES, 1890-4.

Criminal Insane.—The majority of the patients at this Hospital ere known as "Governor's pleasure" cases—that is those acquitted on the ground of being insane at the time they committed the offence with which they were charged, and ordered by the Courts to be kept in confinement during the Governor's pleasure. In addition to these there were cortain persons certified to be insane whilst awaiting trial, or found to be insane by jury on arraignment. Persons serving long sentences are not now received at this Hospital.

### PART X .- Section II-HOSPITALS.

No. 11.—VACCINATION.

Vaccination.—Upon application to the Medical Department, pure calf lymph is supplied free of cost to all land qualified medical practitioners. Returns of the number of persons vaccinated by other than Government Medical Other are, however, not available.

Vaccination not Compulsory.—New South Wales is the only Australasian Colony in which an enactment for expulsory vaccination does not exist.

Vaccination, Free.—Vaccinations performed by the Government Medical Officers are paid for entirely by the Sain,

## Section III.—CHARITIES.

#### No. 12.—STATE CHILDREN'S RELIEF BOARD.

State Children.—The State Children's Relief Act (44 Vic. No. 24) passed in April, 1831, provides for the removal of any State Child from an Asylum or Charitable Institution, and for its being "boarded out" in the house of some licensed person until such child attains the age of 12 years. The administration of the Act is entrusted to a Board of nine persons, empowered to apprentice children for periods not exceeding five years. The Boarding-out Officer, when directed by the Chief Secretary, has authority to remove children from Reformatory Schools, and cause them to be boarded out for any period not extending beyond the term of detention imposed. The Board may direct the restoration of a child to its parent or guardian on such terms as may be deemed proper.

#### APPRENTICED CHILDREN ON 5th APRIL, 1895.

Apprentices Discharged.—The apprentices discharged during the year numbered 95 boys and 77 girls; total, 172.

Money received for Services.—The money received from guardians under the regulations for the services of all apprentices is paid into the Government Savings Bank to the credit of the children themselves.

#### No. 13.—CHILDREN'S PROTECTION DEPARTMENT.

Children's Protection Act.—Under the Children's Protection Act (55 Vic. No. 30), it is not lawful for a person, other than a guardian or the Officers of a Charitable Institution, to agree upon payment of a premium to receive a child under the age of three years, for the purpose of its being adopted, reared, or nursed, apart from its parent. The limit of the maintenance fee allowed for these children, and the time of instalments, have also been fixed. Persons adopting or otherwise taking charge of children are compelled to be registered. Children under 14 years of age are also protected by the Act, as they are not permitted to take part in performances of a dangerous character.

Extension of Provisions of Act.—The Children's Protection Act was only partially in force between the 14th August, 1892, and 7th July, 1893; at the latter date, however, its provisions were extended in order to embrace the whole of New South Wales.

Lying-in homes.—These homes come under the provisions of the Act, and all births must be registered. In the case of still-born children, the certificate of a qualified person must be obtained previous to interment.

#### REGISTRATIONS, &c., 1893-5. § Registrations, 1895.—The figures given for 1895 represent the transactions since the inception of the Children's Protection Act, to the 31st October, 1895, except in the case of Foster Homes, which are registered annually. 1893. 1895. 1895. 1893. 1894 Classification Classification. #### No. 14.—GOVERNMENT LABOUR BUREAU.

Relieving Branch.—The Government distributed 41,884 rations, the average number of families in receipt of relief being 338. During the year the cost of the rations was £3,097, inclusive of £131 given as special relief in sickness. A ration consists of 3 lb. meat, 4 lb. bread, ½ lb. tea, and 4 lb. sugar. Shelter has been provided for the homeless by the issue of 53,582 tickets, which, at the rate of 1d. each per night, makes the total cost of shelter £233 5s. 2d. A special feature introduced during 1893 was sending out, fossicking on the old goldfields, those of the unemployed who desired to do so. To each of these, in addition to a free miner's right and railway pass, a ration was supplied valued at 2s. 6d., and consisting of 10 lb. flour, 5 lb. sugar, and ½ lb. tea. For the year ending 17th February, 1895, £,320 of these miners' rations had been issued, at a total cost of £232.

#### RELIEF, COUNTRY DISTRICTS, 1894-5.

Relief to Country Districts.—Most of the country relief has been given as a subsidy of £ for £ voted by Municipal Councils or raised by the public. The money has been expended in giving work on the roads and streets to the destitute unemployed.

Termination of Year.—The figures given in the Returns of the Government Labour Bureau relate to the y ending on the 17th February.

Private Registry Offices.—Persons engaged through private registry offices for employment in the country, where applied to the Government for railway passes, have been granted such passes on provision being made for a return.

#### No. 15.—CHARITABLE INSTITUTIONS.

Outdoor Relief.—The figures regarding outdoor relief include instances in which shelter has been afforded and also meals given at the Institution. In other cases the return has been furnished of the number of families supplied with food for consumption in their own homes, in addition to which in some cases the railway and steamer fares have been paid in order to enable the applicants to join their friends. On account of the various ways in which relief has been afforded by charitable institutions, it is difficult to compile a return embracing all the transactions.

Other Charitable Societies.—In addition to those named in the following pages, there are Societies of less public importance which have been established in order to relieve distressed persons living in the localities in which the societies are situated. No returns are available.

Government Labour Bureau—Relieving Branch,—For additional information regarding the transactions of the Relieving Branch of the Bureau, see Table No. 14, page 783.

### REVENUE AND EXPENDITURE, 1801-4.

Revenue and Expenditure.—It is a difficult matter to publish complete financial returns of all Charlesh Institutions, as several decline to turnish particulars, it being considered that satements of this nature are of a public character and of no interest to the general public. On the other hand, some institutions are unable to give the public character and expenditure, as a considerable proportion of the gifts are received in kind, the manage value of which cannot be estimated.

#### OBJECTS AND TRANSACTIONS, 1894.

Other Charities. - In addition to the information given in these Notes, statistics are published in the preceding pages,

#### Government Charitable Institutions.

The Government Charitable Institutions at the end of 1894 were as follow:—Boys' Home and Carpenterian Reformatory at Eastwood; the Farm Home at Glenfield; Asylums at Liverpool, Newington (Parramatta River), George-street (Parramatta), Macquarie-street (Parramatta), and Rookwood; and the Cottage Homes, at Parramatta. In addition there are the Nautical School Ship "Sobraon," the Industrial School for Girls, Parramatta, and the Relieving Branch of the Government Labour Bureau.

#### Industrial School for Girls, Parramatta.

This Industrial School and Reformatory is under the supervision of the Department of Public Instruction. The girls remain in the Institution until 18 years of age, unless apprenticed before that time. Five were apprenticed during 1894. The value of work performed by inmates during the year has been estimated at £1,971.

#### Shaftesbury Reformatory for Girls, Sydney.

The management of this Institution, formerly in the hands of the Comptroller-General of Prisons, has been transferred to the Department of Charitable Institutions. The building has been converted into a Receiving House for State Children, with a separate division for reformatory purposes.

### Nautical School Ship "Sobraon," Sydney.

The ship "Sobraon," of 2,131 tons register, was purchased by the Government of New South Wales for the sum of £11,700, and fitted out as a training ship to replace the "Vernon," the boys of which were transferred on the 8th November, 1892. The Institution is administered by the Department of Public Instruction. Since the date of establishment on the 6th May, 1867, to 30th April, 1895, no less than 3,134 have been committed to the

date of establishment on the our amy, sort, worth property of the order of the our amy, sort, worth property of the stable of the first property of the first property of the first property of the commander and Superintendent.

Although every boy is under control until he is 18 years of age, he does not necessarily remain on the ship, but may be apprenticed. During the year ending April, 1896, there was a daily average of 390 apprentices under the guardianship of the Commander and Superintendent.

#### Benevolent Society of New South Wales.

The objects of this Society are to relieve the poor, the distressed, and the aged, by affording them assistance in the form of provisions, &c., and small sums of money to assist in payment of rent; to provide an asylum for homeless and deserted children and foundlings, and for children awaiting removal to other Asylums; to receive sickly mothers with infants, who cannot be received in the infarmary or other hospitals, or who may be suffering from the diseases of women. The Society provides a Maternity Hospital, and a training institution for midwives and nurses. The cost of provisions given during the year 1894 was £2,819, and money for rent, &c., was distributed to the amount of £1,822. The provisions issued during 1894 were—bread, £2,626 loaves; flour, 91,516 lb.; meat, 61,213 lb.; sugar, 39,668 lb.; tca, 9,892 lb.; sago, 3,494 lb.; rice, 2,412 lb.; arrowroot, 42 lb.; oatmeal, 3,352 lb.; blankets, 22 pairs; boots, 463 pairs; milk, 396 quarts; forfar, 9 yards; raisins and currants, 1,580 lb. (special Christmas with). Christmas gift).

#### New South Wales Institution for the Deaf and Dumb and the Blind.

This Institution, founded in 1861, is situated on 5 acres of land on the Newtown Road, Darlington. The foundation-stone of the present building was laid in 1871. The school has two sides, one for the blind and one for the deaf and dumb. Children between the ages of 7 and 12, provided they are sound in intellect, are admitted from any part of New South Wales, and under certain conditions from Queensland and Tasmania. The fees charged for board, education, &c., are £40 per annum; in special cases a lower scale of fees is adopted; in cases of inability to pay, children are admitted free. The term of residence varies from 2 to 10 years. In addition to the usual educational course, the girls are taught cooking, household duties, needlework, &c., the deaf boys carpentry and modelling, and the blind children basket-making and chair-caning. The Braille system is used for teaching music and reading to the blind, and in the articulation classes the dumb have made satisfactory progress.

Of the pupils remaining in the Institution at the end of 1894, there were 62 deaf and 16 blind, making a total of 78. Of these 72 belonged to New South Wales, 3 to Tasmania, and 3 to Queensland.

#### The Sydney Industrial Blind Institution.

The Association has been established in order to furnish the industrious among the blind with instruction in work, convenient rooms for working in, materials with which to work, and a place in which the work may be advantageously sold. At the end of 1894 there were 34 blind men employed in basket-making, bed-making, chair-caning, nat-making, matting-weaving, halter and netmaking, and it was decided to commence the making of brushes and brooms. The loss of material and time necessary in the course of teaching these trades is borne by subscriptions and donations received from the public.

### Home Teaching Society for the Blind and Industrial Home.

The institution is situated at Strathfield. There are two departments—the Home Teaching Society for the Blind, and the Industrial Home for Blind Women and Retreat for the Aged Female Blind. The operations include the imparting of instruction in reading, writing, knitting, netting, chair-caning, and halter-making to blind persons at their own homes; visiting country districts for the purpose of ascertaining fresh cases of blindness, and distributing books for the use of the blind. The Home and Retreat Department affords a permanent home for indigent blind females, who are taught various pursuits.

#### The Sydney Female School of Industry.

The number of girls in this institution is limited to 50. Children between the ages of 4 and 9 years may be admitted. After the age of 15 years, the girls are eligible for engagement as house servants—for which position they are trained; but the Committee do not give up entire supervision until the girls have attained the age of 13

#### City Night Refuge and Soup Kitchen.

At this institution, which is situated in Kent-street, Sydney, shelter has been afforded to 48,980 persons, and 104,972 meals have been given, being a daily average of 237 for meals, and 134 for shelter. Sunday breakfasts have been partaken of by 11,195 persons, and on Christmas Day a dinner was given to 420 applicants. Soup and for his days have also been supplied to 5,258 women and children for consumption at their own homos. The free registry office in connection with the institution has found employment for 26 persons.

#### OBJECTS AND TRANSACTIONS, 1804-continued.

#### Sydney Night Refuge and Reformatory.

During 1894, the number of different men benefited by the Sydney Night Refuge and Reformatory, situated at Stanley-street, was 2,049. Shelter has been given and breakfasts provided 13,478 times.

#### Boys' Brigade, Sydney.

The number of boys on the roll of the Brigade is 400. The average nightly attendance during the winter months has been 130, and during the summer, 85. The average attendance at the Educational Classes was 20.

Night shelter has been provided in this institution for 30 lads, the total number of beds used being 408, and meals and clothing have been given to 50 destitute boys.

A Penny Savings Bank was open in connection with the Brigade throughout the year.

#### Ragged Schools.

Four Ragged Schools are situated within the Metropolitan area, two being in Sydney, one at Glebe and

rour Ragged Schools are strated within the Action of the State of the

#### The Sydney Female Refuge Society.

The objects of this Society are the reclaiming of unfortunate and abandoned females, by providing them with a place of refuge, and, after a period of probation, restoring them to friends or obtaining suitable employment for them.

The Institution, which was established in 1848, is maintained by subscriptions and donations from the public, and by laundry work performed by inmates, who numbered 85 on the 31st December, 1894.

#### Sydney Rescue Work Society.

Open All Night Refuge for Women, Sussex-street.—The total number of beds supplied to women during the year was 14,711 and to children 9,508. Meals have been supplied in 27,188 instances, and day work obtained for 608

women, situations being secured for 155.

Home of Hope, Newtown.—In addition to large numbers of women and children sheltered by this Institution, 76 situations were secured for women during the year. A Maternity Ward was established at the Home in the month of December.

Wonen's Crusade Branch.—Each Sunday morning and on Good Friday and Christmas Day, the several city and suburban police stations have been visited. In answer to appeals made on behalf of women charged with vagrancy, Magistrates have in many instances handed them over for admission to the Home of Hope.

### Infants' Home, Ashfield.

The primary object of the Home is to provide shelter for unmarried girls with their first infants, in order to free the mothers from the temptation of the crime of infanticide.

The children of widows, widowers, and deserted wives are also received, in addition to which foundlings are admitted. The "Waller" ward was opened during the year for the isolation of children received at the Institution in a bad state of health.

#### Sydney Female Mission Home, Porest Lodge.

The Committee of the Sydney Female Mission Home receives women for longer or shorter periods previous to their admission to the Benevolent Asylum, and again, when discharged, offers them a home and endeavours to obtain situations for them. The fundamental principle of this Institution is that mother and child shall not be separated if it can possibly be avoided.

#### Society for the Relief of Destitute Children, Randwick.

On the 31st December, 1894, there were 148 children in the Institution; 20 had been admitted during the year, 21 were discharged, and 23 apprenticed. The total expenditure for 1894, on account of maintenance, education, and general management, was £3,553, making the average cost £20 1s. 7d. per head, deduction being made for contributions by parents. No Government aid has been received since 1895. The daily average number maintained in 1895 was 161. The Institution is carried on with the interest derived from the investment of legacies and bequests, from voluntary contributions, and payments by parents. Since the year 1852 the number of children benefited has been 4,695, and only 1 death has occurred during the past seven years.

#### Female Night Refuge and Soup Kitchen, Sydney.

This Institution, situate in William-street, is under the care of the Nursing Sisters of the Little Company of Mary. For the ten months ended April, 1895, shelter was afforded to women and children on 3,669 occasions, while outdoor relief was given to 6,468 male applicants, 2,000 females, and 1,265 families.

#### St. Joseph's Providence, Sydney.

The Providence is administered by the Sisters of St. Joseph. A large number of women and children were received during the year. The inmates on the 31st December were 13 women and 46 children. Of the outdoor relief 8 men received meals every day and 10 families were relieved.

#### Mater Misericordiae Church Home, Sydney.

The object of the Institution is to provide a home for respectable young women, independent of creed, who are without means and unable to procure suitable situations, and it aims to impart teaching in laundry work, &c. Out-door relief, consisting of food and clothing, was given daily throughout the year. The Home is conducted by the Sisters of Mercy of the Roman Catholic Church.

#### Home of the Good Samaritan, Sydney.

This Institution is under the control of the Sisters of the Good Samaritan. Laundry work is carried on by the inmates, who at the end of 1894 numbered 64.

#### OBJECTS AND TRANSACTIONS, 1894-continued.

#### St. Vincent de Paul Home, Five Dock.

The Home is situated at Five Dock. Thirty-six boys were in residence at the close of 1894, nearly all of whom were being fed, clothed, and educated free of charge. The Institution is independent of, but receives assistance from, the St. Vincent de Paul Society, and is subsidised by the Government.

#### St. Martha's Industrial School for Girls, Leichhardt.

The Sisters of St. Joseph have charge of this Institution. During the year 1894, the sum of £80 was received as subscriptions and donations, and £640 from other sources. The total expenditure amounted to £716.

### Blind Asylum, Lewisham.

This Asylum is in close proximity to the Hospital of the Holy Child, Lewisham. Thirteen blind children have been cared for during the year 1894 by the Nursing Sisters of the Little Company of Mary.

#### Manly Industrial Orphan Reformatory.

This Institution is conducted by the Sisters of the Good Samaritan. At the end of 1894 there were 55 inmates. The children are taught dressmaking, knitting, needlework, cooking housework, millinery, and laundry work, &c. The money raised by the labour of the children was sufficient to support the Institution, but a debt of  $\pounds 5,300$  remains on the property.

#### Home of the Aged Poor, Randwick.

This Institution is kept entirely on charity, the Little Sisters of the Poor making daily application for offerings from the public to support the inmates, of which there were 67 on the 31st December, 1894.

## Magdalene Retreat, Tempe.

This Institution is managed by the Sisters of the Good Samaritan. The women inmates, who by laundry work partly defray the expenses of the Retreat, numbered 70 on the 31st December, 1894.

#### Church Home for the Intemperate and Fallen.

The Church Home, situated at Paddington, was founded under the auspices of the Church of England Temperance Society. Laundry work is carried on at the Institution. Persons are received from the police courts and gools, some seek admission of their own accord, and not a few are recommended for admission by the clergy. Situations are found for some and others are restored to their friends.

#### Labour Home, Ultimo.

The Labour Home was founded on the lat July, 1891, with a view of discouraging begging, and also to help respectable men when out of employment to obtain food and temporary shelter in return for a certain amount of work performed. The committee of the Home considers that by the system employed in the management of the Institution assistance is given to men to help themselves without in any way lowering their sense of self-respect. The ruling prices are sought to be maintained by this Institution in the businesses of sawing and chopping firewood, caning chairs, and making fruit cases. In connection with the Labour Home there is a farm at Rooty Hill containing 100 acres, obtained on a five years' lease with the right of purchase.

#### Echo Home.

The "Echo Home," founded at Middle Harbour, Sydney, as a home for Inebriates, was opened in 1892 under the auspices of the Local Option League and Ministers of various denominations. Men of all creeds, who desire to restrain and reform their habits of drunkenness, are eligible for admission. There is accommodation for 22 persons; 95 have been received since the Home was opened, and the average duration of residence has been 80 days. The Institution is now in receipt of a small grant from the Government.

#### Children's Home, Balmain.

This Home was established in March, 1893, at Ashfield, and removed to Balmain during 1894. It is conducted by "Bethany," a Church of England Deaconess Institution. There were 18 children in the Home on 31st December, 1894.

#### Central Mission Children's Home (Wesleyan).

Children's Home, Woolloomooloo.—The Children's Home was opened on the 31st October, 1893, with the sanction of the Central Committee of the Methodist Mission, it being stipulated that the Home should be no charge on the General Fund of the Mission. During the year 21 children were admitted, 6 of whom have been returned to their friends, and 3 have been adopted into homes in the country. The accommodation is limited to 20 children.

#### Other Charitable Societies—in connection with Churches.

In addition to the Institutions named, there are societies connected with churches which have been formed chiefly for the distribution of food and clothing to the poor who live within the locality in which the churches are situated.

#### Salvation Army Social Institutions.

The Social Work of the Salvation Army in New South Wales includes the management of three institutions, two—the Rescue Home and Maternity Home, Newtown—being for women, and the Prison Gate Brigade Home, situated at St. Peter's, for men. The officers of the Salvation Army attend the police courts, Sydney, and the gates of the gaol with a view to giving advice or assistance to persons withing to lead better lives. The report for the year ending 30th June, 1896, shows that 152 persons were sent to situations, 36 were restored to friends, 26 to hospitals and asylums, 138 left to seek employment, and 41 were discharged for misconduct from the Prison Gate Brigade Home. There were 63 persons remaining in the Homes of the Army on the 28th June, 1895. Beds were supplied in 25,087 cases and 80,294 meals were given away. In the Private Enquiry Department 246 cases were received for investigation, of which 87 were successfully traced.

#### ORJECTS AND TRANSACTIONS, 1804 continued.

Sir Moses Montefiore Jewish Home, Sydney.

This Home provides a permanent habitation for many aged persons of the Hebrew faith, and cos affords a temporary shelter for those whose circumstances may require it, in addition to which forms to a me of £10 are granted without charge, situations procured, and in many cases clothing is given to deserving age

#### Queen's Jubilee Fund

This Fund was inaugurated during the year 1867, and has for its object the relief of distressed women in New South Wales. The endowment account of the fund on the Sist December, 1894, amounted to £17,568. The sum of £1,006 was expended during the year. Of this amount £908 was spent in various ways in relieving 293 women, of whom 207 were widows, 48 were married, and 36 were single.

Firemen's Widows and Orphans' Fund, Sydney.

To afford relief to those dependent upon firemen who may be killed or disabled in the performance of the duty within the metropolitan district, the above-named Fund was established. It is maintained by subscriptive received from the public. The amount received to August, 1896, was £333. The preliminary expenses of the Fundamental states are upon the firement of th e of the Pusi

Charity Organization and Relief Seciety, Sydney.

The objects of this Society are to prevent indiscriminate and wasteful charity, and, at the same time, to give assistance to the really deserving poor, after inquiry. Subscribers, in lieu of relieving mendicants, refer these, by ticket, to the office of the Society.

The cases in which relief was afforded during the year 1894 included 1,785 married persons, 409 widows, 199 deserted women, 18 single women, and 312 single men, making a total of 3,223 persons.

Home Visiting and Relief Society, Sydney.

The object of this Society is to visit at their own homes such of the distressed inhabitants of Sydney as being to the Educated Classes, and have seen better days, but have been reduced by poverty, and to allow them such relief as their circumstances need, to all them in their efforts to gain their own subsistence.

There were 84 persons to whom loans were granted during 1994, the total amount advanced being £200.

Repayments on account of previous loans were received to the value of £50.

Sydney City Mission.

To visit the poor in their homes, to administer to their spiritual and temporal wants, and to held especial religious services, were the objects for which in 1862 the Sydney, City Mission was established. During 1888, Il missionaries were employed, 29,340 visits were made, 772 sick persons were provided with medical attendance and comforts, and 4,013 families were furnished with food and clothing costing £723, in addition to which during the winter 2,567 individuals were relieved at a cost of £851, and at Christmas 6,457 persons were provided with disease which cost £608. In temperance work 610 pledges were given to adults, and Band of Hope meetings for the young were held every week. Admissions to asylums were obtained for 27 aged people, for 11 women to refugers, and it girls were restored to home or friends. 1,214 open-air religious services, with an average stiendance of 28,558, was held. The Dorous Society attached to the Mission numbers 34 members.

ex-street Mission, Sydney.

The report for 1895 states that from 300 to 480 free breakfasts have been given every Sunday during the year, in addition to which 18,000 breakfasts to destitute men were provided. The Retreat or shelter has housed between 180 and 300 persons every night, shelter being afforded 92,000 times. At the Sisters' Home in Goulburn-street both medical advice and medicine have been given free in destitute cases.

Parcels of groceries, meat, fruit, and vegetables were distributed at Christmas, and single men were entertained at the school hall on Christmas Day.

The receipts of the Mission during the year amounted to £398, and the expenditure to £341, exclusive of the

value of material in kind.

Home for Trained Nurses, Sydney-District Nursing.

The District Nurse in connection with the Home attended to 119 cases, and paid 881 visits to the poor during the year ended November, 1894.

Ladies' Aid Society, Sydney.

This society was formed in 1894 for the purpose of distributing relief to persons in distress without distinction of creed. The revenue is derived chiefly from the holding of dances, an amount of £190 having been obtained in this way out of a total of £237. The sum of £134 has been expended in relief.

#### Society of St. Vincent de Paul.

The Particular Council of Sydney of the Society of St. Vincent de Paul includes 26 conferences. During 1894 13,727 visits were made to the poor in their own homes; 1,590 families or 5,047 persons were relieved; groceries and other provisions valued at £1,344, and clothing, boots, bedding, and medicine were given to the poor, many of whom were assisted to start in business or to obtain employment. Twenty-nine funerals were paid for, 33 pessenger fares were provided, 606 lodgings for a night were found, in addition to which this Society afforded other assistance to the poor. The St. Vincent de Paul Home, formerly called the St. Aloysius Home at Five Dock for the relief of poor and destitute boys is assisted materially by the Society.

#### Sydney Hebrew Ladies Dorcas and Female Benevolent Society.

This Society has been promoted in order to relieve the wants of the women and children. A considerable number of sick in hospital and in their homes have also through the instrumentality of the Society been sent to the country when convalescent.

#### National Shipwreck Relief Society of New South Wales.

The objects of this Society are to afford relief in cases of distress to Widows, Orphans, and Aged Parents, or others dependent upon Seanen belonging to New South Wales, or to vessels owned in New South Wales who have lost their lives, or who have been seriously injured in the performance of their duty; to relieve crews of vessels and necessitous passengers wrecked in or near New South Wales waters; and to grant the Society's Medals or rewards to persons performing acts of bravery in the saving of human life. For transactions of this Society since its establishment, see Table 17, Part I, Shipping.

#### OBJECTS AND TRANSACTIONS, 1894-continued.

#### The Preemasons' Benevolent Institution.

The objects of the Institution are to afford relief to aged, distressed, or infirm Freemasons in New South Wales and their wives or widows. At the end of the year ending April, 1895, there were 12 annuitants of the institution. The receipts of the year amounted to £816, and the expenditure to £228.

#### The Highland Society of New South Wales.

The Society was founded in 1878 for the social and intellectual improvement of its members, the culture of Scottish literature and music, the Gaelic language, and the games of Scotland, to assist persons by affording information, and also helping them to obtain employment. A sum of £3,016 has been given as relief and donated to public charities since 1882. During 1894 an amount of £322 was distributed for these objects.

#### Kaiser Wilhelm Spende, Sydney.

During the year this German Charity dealt with 457 cases, and the sum of £115 was expended in giving

#### French Benevolent Society, Sydney.

During the year 1894 this Society gave cash relief to the amount of £136 to 127 distinct persons; it provided and during 441 days, paid railway and steamer fares costing £34, and on behalf of the Society a doctor made

#### Ashfield Benevolent Society.

Careful inquiries and visitation ensures that only the deserving are assisted by this Society. Special ristmas aid, consisting of clothing, groceries, &c., was disbursed.

#### Balmain Benevolent Society.

Food and clothing were given to the poor of the district during the year, and in two instances special grants for idows were obtained from the Queen's Fund.

#### St. George's Ladies' Benevolent Society, Kogarah.

A regular band of workers attended the weekly meetings throughout the year, and food and clothing have een distributed to an average of 40 families fortnightly.

#### Leichhardt Ladies' Benevolent Society.

The Society affords temporary relief to the poor, by the issue of relief tickets for provisions, and also by small grants of money. The report for 1895 states that the tickets distributed during the year were valued at £230, and hat £36 in small sums was also given. The Government subsidy of £194, and a special grant of £100, were received, in addition to which 45 blankets were obtained by the Society.

#### North Sydney Benevolent Society.

This Society was inaugurated in July, 1894. During the six months ended December, subscriptions to the amount of £161 were received, £93 of which were spent in relief.

#### Paddington Children's Relief and Benevolent Society.

This Society obtains its funds from Sales of Work by little girls. The proceeds, £19 10s., have been expended under the direction of the City Missionary at Paddington.

#### Petersham, Marrickville, and District Benevolent Society.

At the end of 1894, there were 101 families on the books of the Society, as against 92 receiving weekly relief to ring the previous year. Old and new clothing has been distributed, and medical advice gratuitously given to many persons.

#### St. Leonards' Relief Society.

Food, clothing, and medicine have been distributed chiefly to people living in tents in the locality. Small ums of money are given to the poor who are considered deserving by the Committee.

#### Armidale Ladies' Relief Society.

The Society is purely an Out-door Relief Society. Orders are given on tradespeople for food, clothing, &c.; rent, railway fares, and nursing fees are also paid. The doctors and chemists give services and medicines free to the Society. Provision tickets to the number of 1,056 have been issued, and Christmas dinners provided for 22 families. Ground for a Cottage Home has been granted by the Government.

#### Bathurst Poor Relief Society.

During the year the Committee co-operated with a Committee formed for the temporary relief of the unemployed in establishing a soup kitchen, in addition to which tickets for food, fuel, and clothing were as usual given.

#### Broken Hill Benevolent Society.

Doctors and chemists have given gratuitous services and medicines, in addition to which outdoor relief has been afforded many persons by this Society.

#### Cooma Ladies' Benevolent Society.

This Society was formed on the 1st October, 1804, for the distribution of relief to the poor.

#### Glen Innes Ladies' Benevolent Society.

Orders for relief were issued in 518 instances during 1894, against 402 in the preceding year.

#### OBJECTS AND TRANSACTIONS, 1894-continued.

#### Goulburn Ladies' City Mission and Benevolent Society.

A cottage is rented by this Society, and shelters 3 old women and a child. In addition to 565 parcels of groceries sent to poor families, 62 Christmas dinners were provided for necessitous persons in their own homes, and 412 mes were supplied with rations. Visits on behalf of the Society have been made by doctors gratuitously.

#### Grafton Benevolent Society.

The Cottage Home has been open during the year, those able to work earn sufficient to pay for temporary shelter, whilst others have found a resting place at the Home. Food, clothing, and medicines have been given to a large number of applicants.

#### Granville Benevolent Society.

The sum of £87 was collected and disbursed in giving relief during the year.

### Gulgong Relief Society.

This Society has been established in order to relieve cases of temporary destitution only. The sum of £31 was spent for groceries during the year.

#### Gunnedah Ladies' Benevolent Society.

During the year 1894, there have been 350 distinct persons relieved by this Society.

#### Hay Benevolent Society.

Temporary assistance has been given to applicants in necessitous circumstances, pecuniary relief being afforded to 154 persons, and clothing and boots to 49 others.

#### Inverell Benevolent Society.

On account of the stoppage of relief to strangers passing through the township the strain upon the Society has not been so great as in previous years. Groceries, &c., have been provided, 27 families supplied with food, and Christmas dinners have been given.

#### Lismore Ladies' Benevolent Society.

At the date of the annual report, 4 families were in receipt of relicf. 106 individuals, and 87 families being assisted during the year.

#### Maitland Benevolent Society.

The object of the Society is to afford shelter and relief to the poor and destitute. At the end of 1894 there were 42 persons in the Asylum. During the year 12 men died, the average age of whom was 77½ years. Temporary accommodation and assistance has been given to many travellers, and about 75 families have also been relieved.

#### Mudgee Benevolent Society.

The 13 regular pensioners of the Society have been supplied with food and fuel, and rent in 5 cases paid. Twenty-eight were given rations, and Christmas gifts were made to poor and deserving families; clothing and blankets were also distributed.

#### Narrandera Benevolent Society.

The number of cases relieved during the year was 24, or 44 distinct persons. The male recipients were very old and unable to obtain work, whilst several of the women were destitute widows with families. Railway fares have in some instances been paid. The receipts of the Society amounted to £107 and the expenditure to £79.

#### Newcastle Benevolent Society.

The objects of the Society are to relieve the wants of the poor, by supplying them with clothes, food, and necessaries, both in and out of the Asylum. In connection with the Institution four cottage homes for aged couples have been erected. In March, 1895, the immates of the Asylum numbered 51. 3,025 families have received outdoor relief, 2,377 meals were given, 281 beds provided, steamer fares supplied in 539 cases, and railway tickets obtained in 55 instances, and 3,600 loaves of bread, 190 bags of biscuits, and in many instances clothing, have been provided to the necessitous poor.

#### Orange Benevolent Society.

No complete record of the number of cases of outdoor relief was kept during 1894, but £103 was expended in affording assistance to the poor.

#### Parramatta Benevolent Society.

There are 19 recipients on the books of this Society. At the Traveller's Rest shelter and beds have been provided 426 times, and 401 meals have been given, in addition to which 200 families have been relieved.

#### Queanbeyan Benevolent Society.

An average number of 5 cases was relieved by this Society weekly throughout the year, the expenditure being £23.

### Singleton and Patrick's Plains Relief Society.

The Society was formed in June, 1894. At the end of December, £238 and several donations in kind had been received from the public. Food and clothing have been given and in some instances rent paid for the poor.

#### Tamworth Ladies Benevolent Society.

One hundred and thirty-one cases or 251 individuals have received help. Owing to the great number of casual applicants, a restriction has been placed against men under 60 years of age unless in cases of affliction.

#### OBJECTS AND TRANSACTIONS, 1894-continued.

#### Thirlmere Home for Consumptives.

This is the only Home in New South Wales managed entirely with a view to afford relief to consumptives. There were 33 inmates at the end of the year, and applications have always been in excess of vacancies.

The Institution was formerly a private foundation, but during the last two years has been administered by a Board of Management appointed by the public subscribers.

#### Uralla Ladies Relief Society.

The Society was inaugurated in July, 1894. During the half-year ending with December the receipts amounted to £45, and £14 had been expended in giving relief.

#### Wagga Wagga Benevolent Society.

The Society received £63 during 1894, of which £32 was received as Government subsidy for 1893. The expenditure amounted to £30.

#### Wollongong Benevolent Society.

The Society relieved 314 individual cases at an expenditure of £168.

#### Roman Catholic Orphanage, Albury.

The Sisters of Mercy have charge of this Institution. From the resources of a farm of 62 acres and careful management the average cost of maintenance of the children is very small. There were 53 girls in the Orphanage on 31st December, 1894.

#### Bathurst Roman Catholic Female Orphanage.

From some of the children who have one parent living payments were received during the year, the amount of £40 being so obtained. The Orphanage, which is conducted by the Sisters of Mercy, had an expenditure of £401 during 1894

#### Goulburn Roman Catholic Orphanage.

At the end of the year 43 children were inmates of this Orphanage, which is conducted by the Sisters of Mercy. £303 was spent in maintenance during 1894.

#### St. Joseph's Orphanage, Kincumber.

The Sisters of St. Joseph of the Roman Catholic Church conduct this orphanage for boys. Seventy children were under its care on the 31st December, 1894, and of the 20 who were discharged during the year 6 were taken by their friends, 5 apprenticed, and the remainder provided with homes.

#### St. Ann's Orphanage, Liverpool.

Most of the contributions to this orphanage take the form of food and clothing. At the end were in this Institution, which is conducted by the Sisters of Charity of the Roman Catholic Church. At the end of 1894, 70 girls

#### Roman Catholic Orphanage, Singleton.

The Sisters of Mercy maintained this orphanage during 1894 at a cost of £140. No account was kept of the or relief afforded. There were 10 girls as inmates on the 31st December. outdoor relief afforded.

### Institution for Deaf and Dumb, Waratah.

This Institution, which is under the care of the Dominican Nuns of the Roman Catholic Church, has beds for 24 innates. At the end of 1894 there were 4 boys and 10 girls in residence.

#### Aborigines Protection Board.

The Board appointed by the Government for the protection of the Aborigines of New South Wales consists of 8 members. During 1894 a total sum of £15,311 was expended on behalf of the Aborigines, and on the 31st December last Aboriginal children, numbering 580, were receiving instruction in schools. The total population on 31st December, 1894, was 7,021 (3,756 full bloods and 3,265 half castes). There are 99 reserves for the use of aborigines in various parts of New South Wales, the total area being 24,182 acres.

## . The Animals' Protection Society of New South Wales.

This Society was established in 1873 for the purpose of preventing, by every legitimate means, cruelty to animals; to assist in having laws passed and effectually enforced for the attainment of this object; to promote the principles of the Society by the publication and circulation of literature; and by addresses, lectures, and prize essays to further its objects. The Society works under the provisions of Act 18 Vic. No. 40, which provides for the apprehension of offenders:—"When and so often as any of the offences against the provisions of this Act shall happen, it shall and may be lawful for any constable, upon his own view thereof, or upon the complaint and information of any other person, who shall declare his or her name and place of abode to said constable, to seize and secure by the authority of this Act any such offender, and forthwith, without any other authority or warrant, to convey such offender before a Justice of the Peace, to be dealt with by such Justice for such offence according to law." During the year ending 30th June, 1894, the two Inspectors have prosecuted 176 persons, obtained 189 convictions, and cautions have been given by them on account of minor offences in 371 instances. The receipts of the Society for the year amounted to £687, and expenditure to £669.

#### Royal Society for Prevention of Cruelty to Animals.-Women's Branch.

Four hundred and ten prizes were given by this Society during 1894 for essays written by children upon animals; 306 Bands of Mercy have been formed; about 4,000 cards of membership and 7,000 star badges purchased by children, and as 2,000 have merely signed the register, the members number 18,000. At the Annual Meeting, pre sided over by the Minister for Education, the attendance was 3,000. Seven honorary inspectors have been appointed. Fines inflicted by magistrates are handed to the Secretary to defray necessary expenditure. The Society has registered a newspaper, which is issued monthly; and in addition a large number of magazines are distributed throughout the year.

# PART XI.—LOCAL GOVERNMENT.

## No. 1.—MUNICIPALITIES.

Incorporation purely Voluntary.—Under the present system no district however populous is required to become incorporated, and it is only on the petition of the prospective ratepayers that a municipality can be formed.

Municipal Year.—The municipal year of the City of Sydney commences on the 1st January, and that of the subtand country municipalities on the first Tuesday in February.

Municipal Council of Sydney.—Sydney was incorporated in 1842 (6 Vic. No. 3), which Act was repealed with certain exceptions, by 14 Vic. No. 41, passed in 1850; the mayoralty continued till 1852; the Corporation was then dissolved (If Va. No. 33), and the Government appointed three City Commissioners, who administered the civic affairs till 1857, at which distance the Council was re-established under Act 20 Vic. No. 38, which remained in force till 1879, when it was superseded by the present Act, 43 Vic. No. 3. Sydney being governed under special legislation, the Municipalities Act of 1867 (31 Vic. No. 3) and Amending Acts only apply to suburban and country municipalities.

What constitutes a Borough and Municipal District.—Under the provisions of the Municipalities Act of Iss

What constitutes a Borough and Municipal District.—Under the provisions of the Municipalities Act of 188 (31 Vic. No. 12) the Municipalities were divided into two classes, Boroughs and Municipal Districts. A borough (b) shall upon its first incorporation, contain an area of not more than 9 square miles, with a population not less than 1,600 inhabitants; a municipal district (m) must not exceed 50 square miles, and shall contain a population of at least 500.

Assessment—"City Rate."—The rate is imposed under Part 6 of the Sydney Corporation Act of 1879. The assessment is made from time to time as the Council may direct. The existing one was made in 1890, and came into operation 1891, at which date the rate was lowered from 18d. to 16d. in the £; a new one, however, is being prepared, which will come into force in 1896. Assessments may be varied at the Appeal Courts, held annually.

<sup>(</sup>b) Borough. (m) Municipal District. The Water Rate of Manly is 1a in the £. † Street watering. § Returns for Municipal Year ended February, no later figures received. §§ Gazetted subsequently to 4th February, 1895. ¶ Arrangements are being made to 1994, no later figures received. ## Ga light this Borough with gas early in 1896.

Assessment—General and Special Rates, Suburban and Country Municipalities.—Under the 164th clause of the Municipalities Act of 1867 the general rate is struck, the amount of which of any municipality must not exceed 1s., and the general and special rates, taken together, must not exceed 2s. in the £ of the assessment of the ratable property. The 2s. limit has been exceeded by some municipalities by authority of the Country Towns Water and Sewerage Act and by the municipality of Parramatta under a special Act. Each of the suburban and country municipalities makes an annual assessment, and Courts of Appeal are held each year.

Amount of Rate Struck.—The City rate is the only one levied by the Municipal Council of Sydney, the general expenditure, including that for lighting, being borne from the revenue therefrom. The rate varies according to the financial requirements of the Council, and is struck on nine-tenths of the annual value of improved property. The general rate levied by all suburban and country municipalities is is in the £ on nine-tenths of annual rental of lands built on and cultivated, and on 5 per cent. of the capital value of unimproved property, with the exception of Darlington, Cobar, Cooma, Cudal, Kempsey, Lithgow, and Wallsend, in which the general rate is 9d., and the rate of the City of Sydney, which is 16d.

<sup>(</sup>b) Borough. (m) Municipal District.

<sup>\*</sup> Supplied by the Metropolitan Board of Water Supply and Sewerage. † Supplied by private contractors.

§ No information. | Fire Brigade. § Gazetted subsequently to 4th February, 1896.

\*\* Returns for Municipal year ended February, 1894, no later figures received.

Water Supply.——For particulars of works constructed under Country Towns Water and Sewerage Acts see page 82. Sewerage.—The dry-earth closet system is adopted in some Country Municipalities where there is no underground drainage, and also in the Suburban Municipalities to which the Metropolitan sewerage system has not been extended. For the earth-closet system no rate is struck, but a weekly or annual charge is made for the service rendered. No rate for this service is shown under "other special rates" in this Table, but the amounts collected have been included under the heading of "other sources" in Table showing "Receipta." For the Water and Sewerage services under the Metropolitan Board of Water Supply and Sewerage, rates on a graduated scale are levied on the basis of the annual assessments of the Municipalities. The Board administers the only comprehensive system of sewerage existing in the Colony.

Lighting.—Lighting rates are imposed under the 165th clause of the Municipalities Act and Amending Act 36 Vic., No. 26. No special lighting rate is levied by the Municipal Council of Sydney.

## PART XI.

## No. 1.—MUNICIPALITIES—continued.

Imperfect Returns.—The municipalities of Ashfield, Enfield, Casino, Cudgegong, and St. Mary's neglected declined to furnish complete returns of the year ended February, 1895. Where possible, particulars of the cash account these municipalities has been obtained from the Government Gazette, and where no later information is available, the figures of the previous year have been inserted.

Broken Hill and other Mining Municipalities.—The capital value of ratable property in Broken Hill and other a municipalities is exclusive of that of the mines, estimated at several millions, which, under the terms of the Municipal re exempt from taxation, although building and surface areas are taxed.

<sup>\*</sup> This includes 5 per cent. on capital value of unimproved land within Municipality of Shellharbour.

† Returns for Municipal year ended February, 1895; no later figures received.

Accounts-Municipal Council of Sydney .- The Council presents its accounts under five distinct headings, viz :-City Fund, City Fund Suspense Account, Cattle Sale-yards Fund, Town Hall Loan Fund, and Moore-street Improvement Fund. For abbreviation the different classes of accounts have been amalgamated, and shown under one heading. It has not been the practice of the officials of the Council, however, to present a general account, as herewith shown.

Receipts from Government.—The Council does not receive any money from the State, except for Auctioneers' Licenses granted within the City, which are paid into the City Fund under the 215th clause of the Corporation Act. The State Endowment to the Council was discontinued after the year 1889.

Endowment.—Under the 189th clause of the Municipalities Act of 1867, each Municipality is entitled to an annual endowment from the State for a period of fifteen years from its incorporation. For the first five years the sum annually granted equals the amount actually raised by general rate; for the next five years it is entitled to one-half of the amount raised; and for the remaining five years the proportion is reduced to one-fourth. At the end of the fifteen years the endowment, as defined by this Act, ceases. Any further assistance from the State must be obtained by special grants. The State Endowment to the Municipal Council of Sydney was discontinued after the year 1889.

Road Grants.—These grants are made to assist in maintaining and repairing Government roads through the

Municipalities.

Metropolitan Water Supply.—With the exception of Manly, all the Municipalities in the Metropolitan Area are served with water by the Metropolitan Board of Water Supply and Sewerage.

<sup>†</sup> Gazetted 7th November, 1894; consequently no returns. [Returns incomplete; amounts which could not be allotted to specific heads have been included under "Miscellaneous." Information not received; these figures established from Government Gazette. § Payments under Country Towns Water and Sewerage Act.

Miscellaneous Liabilities and Assets.—It has not been the practice for the Municipal authorities, nor is it required by the Municipalities Act, to establish the total Liabilities and Assets; it is possible, however, to supply some of the items coming under certain heads.

Secured Overdraft.—Where an overdraft is secured by mortgage the amount appears under "Loans '(p. 824), and if a limit is fixed any difference between it and actual amount overdrawn is entered under "Assets" as "Cr. Bank Balance (see also note, p. 824).

Municipal Property.—Under this head are included Town Hall and other buildings, lands, wharfs, plant, stores, and office furniture.

Sinking Funds in Bank - At the end of November, 1895, the sum of £62,839 was in Bank awaiting invostmen amount invested at that date being £144,924, or a total to credit of Sinking Funds £207,263, an increase of £16,04 December, 1894.

Fixed Deposits.—The only Fixed Deposit at the end of Nov., 1895, was £50,000 to credit of Public Markets' Los

Suburban and Country Municipal Loans.—Under the Municipalities Act of 1867, any Municipality may, with the sanction of the Governor, borrow on the credit of any land, personal estate, or annual revenue, actual or prospective, belonging to the body corporate. The total sum, however, is not to exceed the estimated Municipal Revenue for five years.

Municipal Loan Act of 1838 (52 Vic. No. 9).—During July, 1883, an Act was passed for the purpose of enabling Councils to borrow money upon the security of lands on which Town Halls or Council Chambers are intended to be, or have been partly or wholly erected, and of the buildings thereon. During June, 1893, a further amended Act was passed (56 Vic. No. 32), which empowered the Councils to borrow money for the repayment of Loans.

Mortgages as security for Bank Overdrafts.—In case where a mortgage has been given to secure an overdraft the total amount of mortgage appears in this table. (See also note, page 819.)

The Country Towns Water and Sewerage Act (44 Vic. No. 14) was passed in 1880. Under its provisions, municipalities outside the area under the control of the Metropolitan and Hunter District Water Supply and Sewerage Boards arounder certain conditions, entitled to construct, or have constructed for them by Government, works for water supply and sewerage. The amount expended in construction is advanced by the State, the municipalities being required under the Act to refund the cost by fixed periodical payments. It being found that the municipalities were unable to comply with these provisions The Country Towns and Hunter District Water Supply and Sewerage Acts Amendment Act of 1894 (57 Vic. No. 19) was passed. Under the amending Act the rate of interest is reduced to 3½ per cent. per annum from dates of disbursement of the expenditure, while the repayment is to be made by equal annual instalments spread over a period not exceeding 100 years. Under special circumstances the Governor is authorised by the Amending Act to grant partial remissions.

The Broken Hill Water Supply Works, Stephen's Creek.—These works were constructed by a private company under The Broken Hill and District Water Supply Act of 1888, and an Amending Act, pased April, 1892, which extended the time allowed for the completion of the work for a period of eighteen months from that date. The works have been finished and are in operation.

SEWERAGE, (Constructed without aid from the State.)

Sewerage Works of Metropolitan Municipalities.—The general system of sewerage now being carried out in the Metropolitan area will supersede the isolated systems of the suburban Municipalities, and the local works will eventually form part of the general scheme. The works constructed by the Councils of Sydney, Redfern, Darlington, and Balmain, now form part of the general system.

General Sewerage Systems.—The metropolitan sewerage system is the only comprehensive one in the Colony, as no country municipality has taken advantage of the Country Towns Water and Sewerage Act of 1830 to construct works connected with this service.

On 5th February, 1894; later information not received.

Municipal Gas Act (48 Vic. No. 20).—This Act was passed in October, 1884, and authorises Councils to construct passworks, to enforce charges for the supply, and to inflict penalties for breaches of the Act. Power is also given for Councils to borrow money as a special loan for the construction of the works. Ar. Amending Act (50 Vic. No. 7) was passed is August. 1886, which extended the borrowing powers of the Councils by authorising loans to be floated for the construction of gasworks, on the security of rates.

Municipalities Using Oil.—Municipalities using oil as an illuminant are shown on page 805.

Gas Supplied by Private Companies.—All municipalities within the Metropolitan area are supplied with gas by the Australian Gaslight Company, except Mauly, Mosman, Sydney North, and Willoughby; Broken Hill is also supplied with gas by a private company.

Electric Lighting Supplied by Private Companies.—The Municipalities of Enfield, Broken Hill, and Moss Vale are supplied with the electric light by private companies.

#### VEHICLES LICENSED UNDER MUNICIPALITIES ACT.

For Municipal Year ended 4th February, 1895.

Licenses.—Under the 129th clause of the Municipalities Act of 1807 the Councils may impose a fixed charge on all vehicles plying for hire for the carriage of goods or passengers within Municipalities. The Public Vehicles Act of 1878, however, repeals the above clause of the 1867 Act as regards Municipalities within the Police District of Sydney, the control of vehicles in that district being vested in the Transit Commissioners.

#### MUNICIPAL WHARFS.

This Act (56 Vic. No. 28), passed in June, 1803, empowers municipal authorities to lease and acquire lands for the purpose of erecting wharfs, jetties, waiting-rooms, &c., also to make by-laws for the regulation of the wharfs, &c., and to levy such tolls as may be deemed necessary. The amount collected in Sydney during 1894 was £2,527, and in the municipal year 1894-5 the following sums were received, viz.:—Balmain, £162; Mosman, £20; Parramatta, £21; Sydn North, £112; Willoughby, £10; Woollahra, £150; Gosford, £12; Lismore, £62; Newcastle, £252; Numba, £30; a Shellharbour, £12.

No. 1.—MUNICIPALITIES—continued.

Electors' Qualifications.—Under the Municipalities Act of 1807, every person (whether male or female) of the full age of twenty-one years who, on the 7th day of January in any year shall be the occupier, lessee, or owner of any ratable property within any municipality, shall be entitled to have his or her name placed on the roll, but only the elector who has paid the rates may vote, and no person whose rates are in arrear can vote. If the property is assessed at an annual value not exceeding £25, the ratepayers shall be entitled to one vote; if assessed at over £25 and not exceeding £15, to two votes; if at over £75, and not exceeding £150, to three votes; and if at over £150, to four votes.

By special enactment, both ratepayers and owners of property in Sydney are entitled to vote.

Elections.—The Act provides for the retirement annually of a certain number of aldermen, and elections are held to fill the vacancies. Aldermen are elected for a period of three years. The Local Option vote is taken every third year is conjunction with the Municipal Elections of that year; but the date of incorporation of Municipalities incorporated after Local Option was adopted, not being uniform, the Local Option vote for the whole Colony is not taken simultaneously.

Municipalities not divided into Wards.—Blanks in Table denote that municipalities are not divided into wards.

Local Option Vote, 1895.—See Part VIII, "Law and Crime," Table No. 36, page 674.

†On 5th February, 1804; later information not received.

#### No. 1 .- MUNICIPALITIES - continued.

#### NOXIOUS TRADES AND CATTLE SLAUGHTERING ACT AND DAIRIES SUPERVISION ACT.

These Acts are administered by the Board of Health, but the operations under such within incorporated areas are supervised by the municipal authorities, and the license fees received are paid into and form part of the municipal revenue.

#### MUNICIPALITIES ACT OF 1367.

#### Amendments passed 1894 and 1895.

58 Vic. No. 0.

This Act, which was passed in December, 1894, declares valid certain proclamations made in reference to the limits and boundaries of Boroughs and Municipal Districts, notwithstanding that the boundaries as proclaimed differ from those set forth in the petitions for incorporation. The Act empowers the Government to make any alterations in the boundaries as may be found expedient.

#### 58 Vic. No. 20.

Th. Act, which was passed in June, 1895, declares that certain contracts and agreements, which were illegal under sections 33 and 38 of the Municipalities Act of 1867, are valid. The nature of the contracts and agreements are fully set forth in sub-sections a, b, c, d and e of the Act.

#### 59 Vic. No. 20.

This Act was assented to on the 23rd December, 1895. It was passed with the object of validating certain loans issued by Annandale, Balmain, Hunter's Hill, Glebe, Leichhardt, Liverpool, and Cabramatta and Canley Vale.

#### MUNICIPAL ASSOCIATION OF NEW SOUTH WALES.

The Association was established in 1883, and its objects are: To watch over and protect the interests, rights and privileges of Municipal Corporations; to take action in relation to any subject affecting Municipal Bodies or Municipal Legislation; and to promote the efficient carrying out of Municipal Government throughout the Colony. All Municipalities subscribing £3 3s. annually to the funds of the Association have the right to vote at meetings, and to participate in all the other advantages of membership as set out in the rules.

The Municipality of Sydney is not represented in the Association, chiefly because the administration of the civic affairs is regulated by a Special Act; the Mayor of Sydney, however, under the constitution of the Association, is President.

#### No. 2.—BOARDS AND TRUSTS.

#### METROPOLITAN WATER SUPPLY.

Water Supply.—During 1850 the City Corporation was empowered to construct water and sewcrage works, and is accordance with such authority works for each service were carried out, but on a limited scale. The water supply and sewerage systems have been superseded by comprehensive ones for the whole Metropolitan area, and the works of the City Council, as well as several of the isolated systems in the suburbs now form part of the respective general schemes. During 1857, a Royal Commission was appointed to investigate and report upon proposals for supplying water to the city and suburbs. Two years later the Commissioners submitted a report recommending the adoption of the "Upper Nepean scheme," which was accepted. The works are being carried out under authority of Act 43 Vic. No. 32, passed in 1880, and the first contract was let in November, 1879, and in 1887 the works had so far advanced that an Act was passed transferring the control in May, 1888, to the Metropolitan Board of Water Supply and Sewerage. The 355'1 miles of water mains chiefly constructed by the City Council were placed under the Board at the same date. The Board was established under Act 43 Vic. No. 32, as mended by 51 Vic. No. 28, and consists of seven members, there of whom are manimated by the Governor, two elected by the City Council, and two by the Suburban and Country Municipalities within the Country of Cumberland, which are supplied by water.

## Reservoirs, 1894.

The Wepcan System.—The source of the supply is the united waters of the Nepcan, Cataract, and Cordeaux River The water is intercepted at a height of 437 feet above the level of the sea, and flows through a series of conduits to Prospect Esservoir, 40 miles from the farthest source of supply, thence to Potts' Hill Balance Reservoir. The water after leaving this reservoir passes through a screening tank, from which it is conveyed by mains to the various reservoirs.

#### No. 2.—BOARDS AND TRUSTS—continued.

#### CAMPRELLTOWN AND LIVERPOOL WATER SUPPLIES.

Campbelltown and Liverpool are supplied with water by gravitation direct from the main canal. The junctions of the reticulation works are effected at points between the head of main supply and the Prospect Reservoir. The Board has decided to levy charges for the water service to each, commensurate with the capital cost and maintenance of the main conduit from the head of source to the points of junction, and the cost and maintenance of the local reticulation works.

#### Campbelltown Water Supply.

System.—The district receives its supply by a 6-inch pipe being laid from the canal to the town, a distance of 2½ miles, the reticulation consisting chiefly of 4-inch mains.

	1		An

#### Liverpool Water Supply.

System.—The district receives its supply by a 9-inch pipe from the main canal at Cecil Hills, which extends to Mount Young, and thence by a 6-inch main to the town. An earthen reservoir, capable of holding 4,000,000 gallons, has been constructed for the purpose of tiding over any interruption in the flow from the canal.

#### RICHMOND WATER SUPPLY.

(Administered by the Metropolitan Board of Water Supply and Sewerage.)

Richmond Water Supply.—The works were constructed under the Country Towns Water and Sewerage Act (44 Vic. No. 14). The Municipal Council of Richmond administered the service till the 20th May, 1893, when it was temporarily transferred, pending legal powers, to the Metropolitan Board of Water Supply and Sewerage. The Board is much restricted in its management, as only premises owned by persons who have signed agreements to take the water can be rated. The accounts are kept separate from those of the Metropolitan Water Scheme.

The Plant consists of pumping works erected on the left bank of the Hawkesbury, just below the confluence of the Grees and Nepean; a circular brick tank, having a capacity of 225,000 gallons; a 6-inch supply main to Richmond, 4 miles in length; and 5½ miles of reticulation mains.

## No. 2.—BOARDS AND TRUSTS—continued.

#### METROPOLITAN SEWERAGE.

Metropolitan Sewerage. The original Sewerage Works of Sydney were begun in 1854, and at the date when the works were transferred to the Board the City Council had constructed 70-27 miles of sewerage. From 1875 to 1877 a Royal Commission was appointed to investigate and report upon a comprehensive scheme for the Metropolis, and in the latter year a report was presented which recommended the scheme now being carried out. The first contract was let in 1880, and in September, 1880, the works were transferred to the Metropolitan Board of Water Supply and Sewerage, under authority of the Metropolitan Water and Sewerage Act Amendment Act (53 Vic. No. 16), passed in the same year.

System.—The system consists of two main outfalls, named the northern and southern respectively, the former discharges into the Pacific Ocean at a point named "Ben Buckler," at Bondi, and the latter discharges into a "Sewage Farm" at Webb's grant on the shores of Botany Bay.

The Metropolitan Water and Sewerage Act Extension Act (57 Vic. No. 12) .- This Act provides for the administration and construction, by the Metropolitan Board of Water Supply and Sewerage, of storm-water drains or sewerage or certain areas which may from time to time be proclaimed in the Government Gazette. The boundaries of these areas, however, may be altered if the appeal by the local authorities to the nearest Court of Petty Sessions be sustained. Under clause 3 the Board is empowered to impose special rates, pending the extension of the general sewerage works to the locality.

#### HUNTER DISTRICT WATER SUPPLY.

The Water Supply Works of the Lower Hunter were constructed by the Government under the provisions of the Country Towns Water Supply and Sewerage Act of 1880. The works in July, 1892, were transferred under Act 55 Vic. No. 27 to the Hunter District Water Supply and Sewerage Board. The Board consists of seven members—three of whom are nominated by the Government, one by the Municipal Council of Nowcastle, one by the Councils of East and West Maitland and Morpeth, and two by the other municipalities within the proclaimed area. The Board's year closes on the S0th June.

Repayment of Cost of Permanent and Renewable Works, 4 other the 128th clause of A 6.66 b). In 21, the Board is required to pay the east of the permanent works in annual meablements, with 35 per cent. Interest on the impact belance, within a period not exceeding 10 cars. In 1564 an Annualing Act, 07 b): In 19, was passed, extraining the time for regayment of renewable works to a so the period. The annual instalments for the years ending 36th June 1801 1805, an shown above, are calculated on the 100 years basis in as to instance, and the other figures in the two forms yours have been ancessed since that period sentents.

## PART XI.

#### No. 2.—BOARDS AND TRUSTS—continued.

#### METROPOLITAN FIRE BRIGADE AND FIRE COMPANIES.

Metropolitan Fire Brigade Board,—The Board, established in 1884 under Act 47 Vic. No. 3, consists of si members, viz., the chairman, appointed by the Government, and five elected members, one of whom is appointed by the Municipal Council of Sydney, one by the other Municipalities within the proclaimed area, two by the Fire Insurance Companies carrying on business in New South Wales, and one by the Volunteer Fire Companies. The elected members retire every two years, but are eligible for re-election. Towards the annual outlay the Government, the Municipalities, and in Fire Insurance Companies each contribute one-third. The Municipalities contribute pro rata to the assessed annual valu of ratable property in their respective districts, and each of the Fire Insurance Companies proportionately to the net risk held on properties situate within the Metropolitan District. Sydney Harbour is outside the jurisdiction of the Board.

Ship Fires.—For the purpose of dealing with ship fires the pilot steamer "Captain Cook" has been fitted by the Marine Board of New South Wales with a steam-pump, having a capacity of 36,000 gallons per hour.

#### No. 2.—BOARDS AND TRUSTS—continued.

#### METROPOLITAN FIRE BRIGADE AND VOLUNTEER COMPANIES, 1894-continued.

Fire Alarm Telephones.—Telephones connected with the fire stations are placed in fire-alarm boxes in all the important localities of the city and suburbs. The telephonic system at the end of 1894 consisted of 58 telephones 9 telephone switch boards, and 114 telephone fire alarms. Most of the volunteer fire stations, theatres, music halls, &c., are also in direct communication with the Fire Brigade stations. The various police stations are also in communication through the Central Police Station, Sydney, and public offices, hotels, wharfs, business firms, and private houses that are connected with the General Post Office Exchange, can transmit calls for fires at any hour of the day or night, and arrangements have been made for the watchmen employed by business houses to report to the head-quarters station several times every night.

#### COUNTRY FIRE COMPANIES, 1894.

Country Fire Brigades.—Under Clause 20 authority is given to extend the provisions of the Fire Brigades Act to the country districts, but owing to an ambiguous clause in the Statute, the Fire Insurance Companies and Municipal Councils do not always consider themselves called upon to contribute towards the expense of maintenance of the Brigades as defined by the Act. The Country Fire Brigades Boards, however, are entitled to receive subsidies from the Government. Some of the undermentioned Municipalities have not taken any steps further than having been gazetted.

#### INQUESTS ON FIRES.

Inquests on Fires,—Act 24 Vic. No. 10 provides that "when any property, real or personal, shall be destroyed or damaged by fire, the Coroner having or exercising jurisdiction at or in the place where such fire shall have bappened, shall, if he consider it a fit case for so doing, make an inquisition into the cause and origin of such fire." Jurors and witnesses are summoned, and the mode of procedure is the same as in inquests in cases of deaths. The Coroner can, if the jury find that any person has wilfully set fire to property, exercise the same authority as in the cases of persons charged with murder or manslaughter. There is a Coroner and a Deputy Coroner for Sydney, and 131 Coroners for Country Districts, as well as twe for the Colony generally.

Arson.-During 1894 there were 5 persons-4 males and 1 female-committed for trial by Coroners, for arson.

#### No. 2.—BOARDS AND TRUSTS—continued.

#### WOLLONGONG HARBOUR TRUST.

The Trust, which was the only one of its kind in New South Wales, was established in 1889, and it continued in the tion till 2nd December, 1895, when the Trust was dissolved, and the Government took over the administration of the port. Expenditure on Wollongong Harbour.—From 1880 to 1894 the total amount paid by the Government for the construction and maintenance of harbour works at Wollongong was £141,090, of which £25,033 represents the amount paid to the Trust; while the balance, £118,052, was expended prior to the establishment of the Trust.

Government Endowment.—Under section 89, the Trust was entitled to receive the sum of £5,000 per annum for the first five years after the date when the Act came into force. The endowment expired on the 30th September, 1894.

Revenue uncollected.—The amount of uncollected revenue on the 31st December, 1894, was £1,569.

#### CITY OF SYDNEY IMPROVEMENT BOARD.

The Act came into operation on 2nd August, 1879, and the first meeting of the Board took place during the same month. The operations of the Board were practically suspended at the close of 1894 by the exclusion from the Estimates of the supply required for the administration of the Act. During the sixteen years ended 31st August, 1895, the members of the Board have received as fees £2,218 16s. 9d., or an average of £27 14s. 8d. per member per annum. This amount is exclusive of fees remitted, &c., which amounted to £701 8s.

#### METROPOLITAN TRANSIT COMMISSIONERS.

Licenses for Public Vehicles.—The figures given below are exclusive of the 489 licenses for public vehicles issued to 1894 by the Collector of Customs for the conveyance of bonded goods. Prior to 1873 the regulation of street traffic was under the City Council. In that year an Act (36 Vic. No. 14) was passed, which transferred the control of the traffic to three Transit Commissioners, the number of whom was increased in 1886 to four by Act 50 Vic. No. 14. The Board consists of the Mayor of Sydney (chairman), the Inspector-General of Police, a representative of the suburban municipalities, and the fourth is elected by the licensees coming under the Act. The two latter are annually elected. The receipts during 1894 amounted to £5,387, of which £4,890 were obtained from license fees, and the balance from fines, &c. The disbursements during the same period were £5,560.

#### No. 2.—BOMBERS AND PRIMES -continued

#### TIMES BOADS UNDER TRUSTEES.

(Classified and Unclassified).

Trustees of Minor Roads are appointed by the Minister for Public Works, and Trusts have been established in localities estable municipal areas, where it has been found expedient to place the care of the roads under Trusts composed of the local residents instead of under the Government Engineers.

Each road is supervised by a Trust, but the same Trust may act for other roads in the district. The cost of construction and maintenance of the roads is wholly borne by the State.

A special sum is granted annually for the unclassified roads, and the amount is distributed among the various Trusts according to the discretion of the Minister for Public Works. Each classified road has an annual grant under the Appropriation Act, the vote however is varied according to circumstances.

#### PARISH ROADS TRUSTS.

Prior to the passing of the Municipalities Act of 1898 Parish Roads Trusts were appointed to construct and maintain reads in certain localities, and the expenditure connected therewith was defrayed from the tells collected and also grants from the Treasury.

With one or two exceptions the operations of the Trusts were confined to districts within the county of Cumberland.

The Trusts established were as follow:—	
Sydney Roads Trust,	Liverpool Roads Trust,
South Head Roads Trust,	Campbelltown Roads Trust,
Randwick and Coogee Roads Trust,	Narellan ,, ,,
Parramatta Roads Trust,	Penrith ", "
Windsor ", ",	Maitland ", "
Richmond	

On the 1st May, 1890, it was resolved by the Legislative Assembly, "That in the opinion of this House all Public Tolls should be abolished." As tolls formed the chief item of Revenue, the operations of the Trusts then existing have gradually ceased, till in 1895 only the South Head Roads Trust and the Richmond Roads Trust were active. The expenditure of each Trust during the half-year ended 30th June, 1895, was respectively £1,369 and £324, the balance in hand being £324 and £6. These Trusts only await liquidation of the last-mentioned amounts before being wound up.

#### DISTRICT COUNCILS.

With the exception of the Maitland and Paterson Councils all the District Councils have ceased to exist, and, by the abolition of tolls in 1890, the operations of the two councils mentioned have ceased as District Councils, but they continue to act as Roads Trusts, and have been placed on the same footing as the Classified Roads Trusts under the Works Department. The Maitland Council has 49 miles of road under care and the Paterson 68.

The amounts advanced by the State during 1894 were respectively £996 and £1,416.

#### No. 2.—BOARDS AND TRUSTS—continued.

#### IRRIGATION TRUSTS, 1824.

Trusts have been established, under special Acts, at Wentworth, Hay, and Balranald, but beyond the survey of the area, which have been vested in Trustees, into lots of from 5 to 40 acres, and other initiatory work, very little progress at ostitement has been made.

#### Wentworth Irrigation Trust.

This Trust was established under Act 54 Vic. No. 7 (passed September, 1890). The Trustees, being members of the Municipal Council of Wentworth, were empowered to tap the rivers Darling and Murray, and to construct dams and pumping machinery for irrigation purposes and, upon obtaining permission from the Governor-in-Council, to borrow money for these purposes. The area under the Trust consisted of 10,600 acres, and was a portion of the temporary Common already vested in the Municipal Council. The Trust was empowered to lease portions for any term not exceeding three years or, with the sanction of the Minister for Public Works, for any term not exceeding thirty years, and to supply water to persons outside as well as inside the irrigation area. An amount of £1,000 was spent in "Preliminary Expenses" during 1894, but up to the end of that year no portions had been leased by the Trust. Advantage has recently been taken of a clause in the Act, providing for the dissolution of the Trust. The Government, who have now all the powers conferred by the Statute, intend to carry forward the work contemplated by the Trust, and ascheme has been prepared and a tender accepted for the crection of a pumping plant capable of supplying water for the irrigation of an area of about 1,500 acres. The water will be obtained from the River Murray on the banks of which the pumping plant is to be erected.

#### Hay Irrigation Trust.

This Trust was established under Act 55 Vic. No. 25 (passed March, 1892), the provisions of which are practically the same as those of the Wentworth Irrigation Act. The land set apart forms part of the temporary Common, and comprises 19,847 acres. Any person (except Asiatics) can select and hold from 5 to 40 acres. The land was only thrown open in December, 1893, and up to 31st December, 1894, 62 holdings, embracing an area of 778 acres, had been applied for. The principal crops planted were barley, wheat, and oats. The total receipts to the 31st December were £3,724, inclusive of an advance of £3,000 from the Union Bank, and the expenditure to the same date was £1,447. During 1895 an Act was passed excluding certain portions of the town and suburban lands of Hay from the irrigation area.

#### Balranald Irrigation Trust.

The provisions of the Act (56 Vic. No. 26), passed June, 1893, establishing this Trust, are almost identical with those of the two preceding Trusts. As in their cases, the land forming this Trust is a portion of the temporary Common. The Act limits the area any one person may lease to a maximum of 40 and a minimum of 5 acres, and no person under 18 years of age, nor a married woman, is allowed to hold a lease. Up to the end of 1893, 1,000 acres had been surveyed into lots of 5 to 40 acres, but, as the by-laws framed by the Trustees had not then received the sanction of the Minister, these lots had not been thrown open. During 1895, however, the Minister's approval was obtained, and several blocks have been taken up. A pumping engine for supplying water from the River Murrumbidgee has lately been erected, and the works for the distribution of the water have been commenced.

# PART XII.—MISCELLANEOUS.

#### No. 1.—PARLIAMENT OF NEW SOUTH WALES.

Constitution Act.—"An Act to confer a Constitution on New South Wales" (Imperial Act 18 and 19 Vic. ch. 54) received the Royal Ament on 16th July, 1855, and was amended in 1884 (47 Vic. No. 5). The Legislative Council and Legislative Assembly correspond, as far as is practicable, with the two Houses of the Imperial Parliament.

Legislative Council — No maximum number of members of the Legislative Council is fixed by the Constitution Act, it there is no allowance for expenses, but are entitled to a railway pass for all New South Wales railways. Although the appointment is for life, a member forfeits his seat by absence from two consecutive Sessions without leave, becoming bankrust, and for a few other reasons, and can resign at any time.

Legislative Assembly.—The first Parliament under the Constitution Act met on 22nd May, 1856. The duration of Parliament, unless previously prorogued, was originally fixed at 5 years, but in 1874 an Act was passed establishing triannial Parliaments. In September 1889, an Act was assented to, allowing each member (not bolding office as a Minister, Speaker, or Chairman of Committees) the sum of £300 per annum as a reimbursement for expenses incurred in the discharge of Parliamentary duties. Members also receive passes available for all New South Wales railways.

#### CABINET.

The Schedule of the Constitution Act Amendment Act (47 Vic. No. 5) enumerates the holders of the following desired from the Crown as being the only persons holding any such office who shall be capable of being elected as desubers of the Assembly:— Salary. Salary.

	_ ( £ ]		l & il	£
Colonial Secretary		Secretary for Lands	1,500 Minister of Public Instruction	
Colonial Treasurer		Secretary for Public Works	1,500 Secretary for Mines	. 1,500
Attorney-General	] 2,000	Minister of Justice	1,500 Postmaster-General	. 1,500

The mainries of the Colonial Secretary, Colonial Treasurer, and Attorney-General, are fixed by the Constitution Act, those of the remainder have to be passed under the Annual Appropriation Bill. These latter, in accordance with the reduction of 10 per cent. made on all Civil Servants salaries above £200, were reduced for 1893 to £1,370. The remaining members of the Cabinet voluntarily made similar rebates in the salaries attached to their offices by the Constitution Act.

The Cabinet, if the nine members enumerated above are all Members of the Assembly, generally includes a tenth member, having a seat in the Legislative Council, who is appointed Vice-President and Representative of the Government is that Chamber, but who holds no portfolio.

Executive Council,—The Executive Council is composed of the Governor and the members of the Cabinet.

Presidents of Legislative Council and Speakers of Legislative Assembly,-During the sixteen Parliaments s have been seven of the former, and eight distinct Members of the Assembly have been elected to the Speakers' Chair. salaries voted for 1895 for these offices were £1,100 and £1,370 respectively.

Chairmen of Committees.—The Legislative Council and Legislative Assembly each elects one of its members as man of Committees, the salaries for 1895 being £470 and £740 respectively.

#### PART XIL

## No. 1.—PARLIAMENT OF NEW SOUTH WALES-continued.

Public Bills,—How initiated,—The Constitution Act provides that all money Bills must be introduced in the House only. All other public Bills can be initiated in either Chamber by a motion for leave to bring in the Bill, resolution reported from a Committee of the Whole, and adopted by the House, specifying its intended title.

1st Reading.—After leave has been obtained to bring in a Bill, the question "That this Bill be now read a first is put and decided without amendment or debate. If decided in the affirmative, the Bill is ordered to be printed, second reading made an order of the day for a future sitting.

2nd Reading.—On the question for the second reading, amendments may be moved, and it may be postpon charged, or referred to a Select Committee.

In Committee.—After the second reading the House resolves itself into a Committee of the Whole to consider in detail. When the Committee's report is adopted, a future date is fixed for the third reading without notice or debs 3rd Reading.—On the third reading the Bill may be recommitted or postponed.

Passing .- After passing the third reading the Bill is transmitted to the other House for its concurrence.

Conference.-In the event of disagreement a conference between the two Houses may be arranged.

Royal Assent.—The Governor acts as Viceroy to give the Royal Assent to, or to veto, Acts passed by the Legis

Reserved Bills.—There are eight classes of Bills which the Governor must reserve for the special consideration Sovereign, amongst which are Divorce Bills, Bills affecting the currency, and Bills conflicting with Imperial Treaty oblig

Envolvent.—After being assented to, the Bill is numbered immediately before, and the date added next attitle, a new series of numbers commences with each year of the Sovereign's reign, which begins with the Anniver Accession Day. The Act is then transmitted by the Clerk of Parliaments to the Registrar-General, and enroll recorded by him within ten days from the day on which the same shall become law, as provided by the Deeds Regis Act (7 Vic. No. 16.)

Bills for Public Purposes.—A Bill for the paving, lighting, draining, or otherwise improving any town or d or for supplying the same with water, is deemed a Public Bill.

#### No. 3.—GENERAL ELECTIONS.

The Parliamentary Electorates and Elections Act of 1893, 56 Vic. No. 38, as amended by 57 Vic. No 24.—Under the authority of the principal Act three Commissioners were appointed to divide the Colony into 125 single Electorates—instead of as previously 74 Electorates returning 141 members—giving to each as nearly as practicable an equa number of Electors. The Districts were subdivided into 421 Divisions. Every man being a natural-born or naturalises subject of or above the age of 21 years, who is of sound mind, and not on full pay in the Military, Naval, or Police Service nor in receipt of public charity, nor undergoing imprisonment, is entitled to receive an "Elector's Right," provided that has resided or had his principal place of abode in N.S.W. for a continuous period of one year. The "Rights" issues are available till 31st December, 1896, and thereafter for periods of 3 years, and provision is made for the issue of ner "Rights" on change of residence or in case of loss. Under the Act each Elector, being entitled to vote for one, an only one, candidate at any election, the principle involved is popularly known as "One man one vote."

General Election, 1894—For particulars relating to the General Election of 1894, see page 735. Statistical Residual

#### No. 4.—DEFENCE.

No. 4.—DEFENCE.

Imperial Troops.—New South Wales was garrisoned with British troops from the time of its foundation as a Colony in 1788 till 1870, when they were withdrawn. In the succeeding year, Act 34 Vic. No. 19 (Military and Naval Forces Regulation 48) was passed, having for its object the establishment of a local permanent force. Under its authority the regulation and excipine of the regular forces are administered.

First Volunteer Force.—The first volunteer force was enrolled in 1854, under Act of Council 18 Vic. No. 8, which were reorganised. One of the clauses of the Act provided for the issue of Volunteer Land Orders, which part was repealed under Act 41 Vic. No. 15 in 1878. The forces were again reorganised in the year last-mentioned, and in 1885 an additional force of reserves was attached. The Riffe Reserve companies, were, however, disbanded at the end of 1802 and the Civilian Riffe Clubs at present existing are not considered as being in any sense a military force although their members would probably prove useful as sharpshooters under the direction of regular officers in any case of emergency.

I.S. W. Hilitary Commissions.—Commissions in the Permanent Artillery can be obtained by officers of the Partially-paid and Volunteer Forces upon passing the requisite examination, and complying with certain conditions published from time to time in General Orders.

Imperial Military Cadetship.—In 1880 the Imperial Military authorities conferred upon the Senate of the Sydney University the privilege of nominating one student per annum to a Cadetship in the Royal Military College, Sandhurst. Students who have completed their first year and passed the First Year Examinations are eligible. The limits of age are—Fore students, 17 to 21; for graduates, 17 to 22.

Imperial Military Commissions.—Two commissions in the British Army are granted to the Sydney and other Australian Universities under certain conditions.

#### No. 4.—DEFENCE—continued.

Federal Defence.—During October, 1894, a Federal Military Conference was held in Sydney for the purpose of considering and reporting upon a scheme of Federal Defence. A representative from each colony of Australia (except Western Australia) was present. The points considered and reported upon were:—(1) A general scheme of defence which shall be applicable, on Federal lines, to the whole of the Australian colonies and Tasmania; (2) the fair allotment of troops for Federal purposes due from each Colony, the existing Military Forces being taken as a basis; (3) a Federal organization applicable to the allotment previously mentioned; (4) to consider the outline of a Military lill which shall place the whole of the Australian and Tasmanian Military Forces on a similar basis, as regards military service, pay, and discipline, such a Bill to be adopted forthwith or be accepted only when national emergency arcse; (6) the question of the appointment of a Consulting Military Engineer to promote the efficiency of the defences of the colonies. A report was forwarded to the Fremier of New South Wales troop the termination of the proceedings.

The force of King Geograp's Sound (Western Australia) — New South Wales troop the rewith the colonies of Victoria.

Defence of King George's Sound (Western Australia).—New South Wales, together with the colonies of Victoria, Queensland, and South Australia, entered into a contract, 11th March, 1892, with the colony of Western Australia to contribute to the cost of the defence of King George's Sound. The agreement provides that cone-fourth of the total expense shall be defrayed by Western Australia, and three-fourths by the colonies named, the proportion to be paid by each colony to be calculated on the basis of its population. Western Australia provides the garrison and has general superintendence.

Defence of Thursday Island (Queensland).—A similar agreement was made, 1st January, 1893, between New South Wales and the colonies of Queensland, Victoria, South Australia, and Western Australia, for the defence of Thursday Island. In this instance the five colonies named contribute towards the expense pro rata, according to the population of each.

#### No. 5.—METEOROLOGY.

The Sydney Observatory was established in the year 1856, at the instance of Sir William Denison, Governor of New South Wales.

Time Ball.—The Time Ball at the Sydney Observatory is dropped every day at 1 p.m. Standard Time, or 15 hours Greenwich Mean Time.

Standard Time.—By the "Standard Time Act of 1894" (58 Vic., No. 11), which came into operation on 1st February, 1895, the mean time of the 150th meridian of longitude east of Greenwich, England, was declared to be Standard Time throughout New South Wales.

Latitude, &c., of Observatory.—Latitude, 33° 51′ 41·1″ south; longitude, 150° 12′ 42·15″ east; magnetic variation, 9° 28′ 51″ east; altitude, 146 feet.

Thermometers.—The thermometers are exposed in a shed 11 feet square, of which the sides are 5 feet 6 inches high, and enclosed to within 18 inches of the ground with open lattice-work. The roof is conical, rises to 13 feet above the ground, and is covered with louvres close enough to keep out rain. Repeated experiments have been made to determine the slation between temperature in this shed and that shown by a swing thermometer, both night and day, with the result that here is no difference. It is, therefore, assumed that the shade obtained is a satisfactory one.

Earth Thermometers.—The earth thermometers are respectively 11 ft., 6 ft., 3 ft. 6 in., and 1 ft. 1 in. long. One foot if each is devoted to the scale, and is above the surface of the ground. The bulbs are, therefore, 10 ft., 5 ft., 2 ft. 6 in., and in below the surface of the soil. The stems are placed vertically, and are 7 inches apart; and a small cover with glass root protects the scales from the weather, and keeps the sun from shiring directly on to the ground above the bulb, which s buried only 1 inch. There is a wooden case, 3 inches square, round the stem of each thermometer.

Note.—The total rainfall given for each month in Table on previous page is from the ordinary rain-gauge. The records of the pluvbometer are affected by the force of the wind and some loss by friction in the recording machine; the total, therefore, is always less than that shown by the rain-gauge. The total rainfall for 1894, according to Table on previous page, was 33 221 inches, while in the above table it appears as 34 250 inches.

Anemometer.

Number of hours the wind blew from each point, and the number of miles.

Anemometer.—This instrument records on paper the time, direction, and velocity of wind. Robinson's cups are sed. The vane and cups are 65 feet above the ground.

Rain, River, and Evaporation Observations.—The townships named in these tables may be accepted as representative meteorological stations. Particulars relating to other meteorological stations may be found on reference to the annual publications of the Government Astronomer.
